April 16, 2014

Community Survey Extension Time

Dear Community Member:

On April 4, 2014, The Department of Toxic Substances Control (DTSC) distributed a Community Survey regarding the environmental investigation at the Malibu High, Middle and Elementary Schools.

Because the School’s two week spring break, scheduled for April 7th to April 18th, 2014, falls during the timeframe we requested that the survey be returned, DTSC is extending that timeframe to April 25, 2014.

For questions or additional information, please contact Marina Perez, DTSC Public Participation Specialist at (818) 717-6569 or marina.perez@dtsc.ca.gov.

Best,

Marina Perez,
DTSC Public Participation Specialist
