January 11, 2018

Enrolling Next Year's Kindergarteners in SMMUSD

Elementary schools throughout the Santa Monica-Malibu Unified School District will be welcoming resident parents of incoming Kindergarteners to tour the schools and find out more about enrolling their children for the 2018-19 school year. The events are planned for February 2018 with dates for each school posted [online](#).

Transitional Kindergarten (TK) and Kindergarten Round-Up, as the yearly event is called, is an opportunity for Santa Monica and Malibu parents of children entering TK or Kindergarten next year to meet the principal of their neighborhood school, visit classrooms, and learn about registration process for the 2018-19 school year.

Please plan to attend the school assigned for your residence. Kindergarten is offered at every school, however, TK is not. Your neighborhood school will provide information at the Round-Up regarding availability of TK at that school, or the school serving the neighborhood.

SMMUSD offers TK or Bridges TK at McKinley, Webster, Rogers, Cabrillo, Grant, Edison and Roosevelt. Both TK programs offer an excellent opportunity for students who have birthdays in a certain range to begin a program that prepares them for kindergarten. Bridges TK is a neighborhood program that is SMMUSD-aligned, STEAM-enhanced and Reggio-inspired.

Please check with your school of residence to determine if any documents are required at Round-up, if packets will be distributed that date or at a later date, and other instructions to enroll students. For more details and examples of required verification documents, please visit the [registration](#) page online. Here is a [list of schools](#) with address and phone number.

All parents need to be aware that SMMUSD strictly adheres to birthdate ranges for admission to preschool, TK and kindergarten. This is based on California Education Code. To learn where your child will be placed regardless of years of preschool, please see the [enrollment](#) guidelines online.

Please contact your neighborhood school with any questions. Visit the [school locator](#) online to determine your neighborhood school.
