

## Dear Community Members:

On behalf of the students and staff of our school district, I extend our deepest gratitude to you, the voters of Santa Monica and Malibu, for your support in sustaining a quality education for all our children.

With the successful passage of Measure BB, our School Safety and Repair bond issue, we are now able to bring all our schools up to the standards needed for the excellent learning that goes on inside their walls.

With strong accountability protections in place, Measure BB will enable us to improve health, safety and classroom instruction in our local neighborhood schools through upgrading, constructing, repairing and equipping classrooms and science labs. We will be able to repair and renovate outdated classrooms, bathrooms, plumbing, leaky roofs, and computer technology and fire safety equipment.

This would not have been possible without your supportive voices at the polls. Your efforts laid the foundation for our innovative and comprehensive Facilities Master Planning process, and they were the driving force behind the passage of Measure BB.

Thank you again for passing Measure BB. By holding quality education as a priority, your message to our children, staff, and community is clear: *We are determined and committed to giving our children - all our children - the education they need to make the world a better place for everyone.*

Sincerely,

Dianne Talarico  
Superintendent of Schools
