

SMMUSD School Board Policy 5131.64

The Board of Education recognizes that cell phones and other electronic devices have become commonplace in our community and that many families have come to rely on these devices as a means of communication.

Nevertheless, with three exceptions California Education Code specifically prohibits the possession and/or use of any electronic signaling device that operates through the transmission or receipt of radio waves, including, but not limited to signaling equipment, by pupils of the school while the pupils are on campus, while attending school-sponsored activities, or while under the supervision and control of school district employees. The exceptions to this provision, which would allow students to possess and use such devices on campus, are cases in which a student or students have:

1. Prior consent of the principal or his/her designee, or
2. Written documentation by a licensed physician or surgeon who has determined that student possession and use of an electronic signaling device is essential for the health of the pupil and where use of such device is limited for purposes related to the health of the pupil.
3. Written and/or verbal confirmation from the site principal or designee that a state of emergency exists.

While electronic signaling devices of all types may be useful for communication purposes, the Board of Education also recognizes the potential for distraction that these devices may cause in the classroom, on campus and at school activities.
