Goal 1-3 Lead Metrics

SMMUSD Cycle of Inquiry

Lead Data Review – the Assessments

- SMMUSD uses two types of Lead Assessment Data
 - Diagnostic - ELA only at this time
 - *The Assessment: FastBridge – literacy assessments*
 - *Time: Similar tests done periodically*
 - *Purpose: progress monitoring of essential skills that typically develop over time*
 - *Grades: K-8 (next year we will have a diagnostic assessment K-12)*
 - Baseline (Fall) Diagnostic for 9-12 was an essay
 - Interim Assessments – ELA and Math
 - *The Assessment: CAASPP Interim Assessment Blocks, also referred to IABs (California Department of Education) or teacher created*
 - *Time: Administered after an essential piece of the Guaranteed and Viable Curriculum has been taught*
 - *Purpose: to gauge if we are achieving our curriculum/lesson goals*
 - *Grades:*
 - ELA – grades 3-11 (Teacher created interim in grades 9 & 10)
 - Math – grades 1-11 (Teacher created interim in grades 1 & 2)

Lead Data Review - Comparisons

- In our Q1 and Q2 data presentations we made a loose comparison between *diagnostic assessments* and *interim assessments*
 - We cautioned that it was like comparing apples and oranges – but that we could come up with some applications.
- In the Q3 data presentation you will see *diagnostic assessments* compared to *diagnostic assessments* and *interim assessments* compared to *interim assessments*.
 - Therefore, this presentation compares apples to apples.

Lead Data Review – Apples to Apples

- Apples to Apples comparisons
 - Fall and Winter Diagnostic assessments are compared.
 - Fall and Winter Interim assessments are compared.
 - When available, 19-20 Winter Assessment data is included in participation rates, though not in comparing scores because the assessments are different.
- Finally, each section has a research question to guide your inquiry.
 - These questions are intended to help you *ask deep questions* of the data
 - and lead the conversations to *uncovering actions* that we may propose for our district plan.
