2017-20 Plan Summary

THE STORY

Briefly describe the students and community and how the LEA serves them.

The Santa Monica-Malibu Unified School District (SMMUSD) is headquartered in Santa Monica and serves the coastal communities of Santa Monica and Malibu. It is located in Los Angeles County and serves 11,000 students in preschool through 12th grade in 10 elementary schools, two middle schools, one middle / high school, one comprehensive high school, a continuation high school and a K - 8th grade alternative school. The district is also home to 11 early childhood education centers and an adult school. The first classroom opened with 52 students in March 1876. SMMUSD's annual budget for the 2017-18 school year is \$155,371,152.

U.S. News and World Report has named both Santa Monica High School and Malibu High School as Top High Schools in the nation and state, awarding a silver medal to Samohi with the ranking of 606 in the nation and 105 in the state and a gold medal to Malibu High School for rankings of 279 and 45, respectively in 2017.

Three schools have been recognized as National Blue Ribbon Schools: Edison Language Academy, Will Rogers Learning Community and Lincoln Middle School. Lincoln Middle School has earned the Gold School designation in 2015 and is one of nine schools recognized as a California Distinguished School. The others are: Franklin, McKinley, Roosevelt, Will Rogers, Webster and Point Dume elementary schools and Malibu and Santa Monica high schools.

The SMMUSD Mission Statement, *Extraordinary achievement for all students while simultaneously closing the achievement gap*, guides the work of the Excellence through Equity plan that includes the following three priorities: All graduates are ready for college and careers; English learners will become proficient in English while engaging in a rigorous, standards-aligned curriculum and all students engage in schools that are safe, well-maintained and family-friendly.

Students attending Santa Monica High School and Malibu High School have a graduation rate of about 95%, with the majority of students moving forward with post-secondary education options.

Extra-curricular programs including visual and performing arts and athletics at the high school level are focal points within each campus. Students begin their visual and performing arts instruction in elementary school and access continues through high school. The district is currently developing a Career Technical Education program, along with a growing Science, Technology, Engineering and Math (STEM) options to meet the demands of 21st century careers.

The communities of Santa Monica and Malibu have approved two bonds in recent years for the modernization, technology and safety updates of schools. Measure BB was approved in 2006 for \$268 million and Measure ES in 2012 for \$385 million. Local voters also passed Measure Y/YY in 2010 and Measure GSH/GS in 2016, along with Measure R parcel tax in 2008. The district appreciates the support of the communities it serves.

LCAP HIGHLIGHTS

Identify and briefly summarize the key features of this year's LCAP.

This year's LCAP includes the following features:

- The previous plan's twenty-seven goals have been compacted into three:
 1. All graduates are ready for college and careers.
 2. English learners will become proficient in English while engaging in a rigorous, standards-aligned curriculum.
 3. All students engage in schools that are safe, well-maintained and family-friendly.
- The secondary math metric has been eliminated since the goal has been met.
- Since college course completion is part of the State's College and Career Indicator, it is no longer included as an individual metric.
- The preschool metric is now based on the Early Development Instrument's (EDI) student vulnerability rate. Preschool teachers will be given release time to review student data and to develop intervention plans as needed.
- Providing the PSAT to all tenth-graders on a school day was one effective strategy for increasing student enrollment in advanced placement and college courses, particularly for those who have been historically under-represented. This year plan funds the SAT for all seniors on a school day in the fall.
- The school day will be extended for English Learners in middle school so that they can participate in a designated ELD course and take an elective (Music, AVID, Project Lead the Way, etc.)

REVIEW OF PERFORMANCE

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

In reviewing the District's data from all metrics, the following illustrate our greatest progress:

GREATEST PROGRESS

- Student in grades 3 – 8 performed at the very high level (Blue) on the CAASPP in ELA. These data also reflect an increase over the previous year's scores by 11.8 points. Subgroups that performed at the two highest levels (Blue, green) include English Learners, Asian, African American, Two or more races and White.
- Student in grades 3 – 8 performed at the high level (Green) on the CAASPP in math. These data also reflect an increase over the previous year's scores by 12.7 points. Subgroups that performed at the two highest levels (Blue, green) include English Learners, Asian, Two or more races and White.
- Twelve out of fourteen schools serving students in grade K-8 are at the high or very high level on the CAASPP in ELA and math.
- English learners progress was rated at the high level (Green) with an increase of 3.3% over last year's data.
- The District maintained a high (Green) graduation rate. The following subgroups were at the very high or high levels: English learners, socio-economically disadvantaged, Asian, Hispanic and White.
- Gaps in Advanced Placement course enrollments are closing. In 2013-14, 8% of high school students were African American but

they only represented just 4% of AP course enrollment. In 2015-16, those rates were 7% and 5%. Similar improvements were seen with the Hispanic and socio-economically disadvantaged subgroups. More than 51% of graduates passed at least one AP exam with a score of 3 or higher.

- Twenty-one percent of 2015-16 graduates successfully completed one or more college courses while in high school.
- The percent of English Learners considered “long term English Learner” (LTEL) decreased from 25% in 2012-13 to 12% in 2015-16.
- Fourteen of sixteen schools rated “Good” or “Exemplary” on the State’s Facility Inspection Tool (FIT.)
- Nine of fifteen schools had low or very low suspension rates, and eight decreased those rates even more between 2013-14 and 2014-15.
- Fail rates in secondary math classes decreased from 25% in 2012-13 to 14% in 2015-16.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the “Red” or “Orange” performance category or where the LEA received a “Not Met” or “Not Met for Two or More Years” rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

According to the LCAP Dashboard, the following subgroups performed at either the low or lowest (“orange” or “red”) levels:

Suspension Rates

Orange: Socioeconomically disadvantaged; students with disabilities; American Indian; African American; Pacific Islander

Red: None

Graduation Rates

Orange: Students with disabilities; African American; Pacific Islander

Red: None

Remedy for 2016-17

School and district leadership teams will look at the annual suspension and graduation data in August 2017 and set goals for interim improvement. In November and February, these same teams will review monthly suspension data and report card pass rates. If interim results are not as desired, school and district plans will be adjusted.

GREATEST NEEDS

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these performance gaps?

Suspension Rates

No subgroup was two or more levels below the “All Students” group of “yellow.”

Graduation Rates

Subgroups performing two or more levels below the “All Students” group of “green” include: Students with disabilities (orange); African Americans (orange.)

CAASPP ELA 3-8

Subgroups performing two or more levels below the “All Students” group of “blue” include: Socio-economically disadvantaged (yellow); students with disabilities (yellow); Hispanic (yellow.)

CAASPP Math 3-8

No subgroup was two or more levels below the “All Students” group of “green.”

Remedy for 2016-17

School and district leadership teams will look at the annual graduation and CAASPP data in August 2017 and set goals for interim improvement. In November and February, these same teams will review interim data on progress report grades and district interim assessments in ELA. If interim results are not as desired, school and district plans will be adjusted.

PERFORMANCE GAPS

INCREASED OR IMPROVED SERVICES

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

Four ways the District will increase or improve services to English Learners, foster youth and socio-economically disadvantaged students are:

1. Train and implement all district and school leadership teams in Fullan’s coherence framework which includes the following components:
 - a. Clarity
 - b. Commitment
 - c. Collaboration
 - d. Accountability
2. Implement a system of reviewing lag (annual) and lead (interim) metrics so that district and school leadership teams have annual and during-year feedback to monitor and adjust school plans. This year, lag and lead metrics will align with State indicators on the LCAP Dashboard:
 - a. Attendance
 - b. Suspensions

- c. Graduation rates (final and progress report grades)
- d. Proficiency in ELA and Math (Annual CAASPP and district interim assessment results)
- 3. Train and monitor all ELD teachers in designated ELD. Train all other teachers in integrated ELD.
- 4. Implement a social justice framework to include the following components:
 - a. Social Justice Standards PreK-12
 - b. Ethnic Studies embedded in Freshmen Seminar
 - c. Ethnic Studies Electives

<p>Describe the overall implementation of the actions/services to achieve the articulated goal.</p>	<p>Overall, the implementation appears to be effective. The curriculum guides for ELA and Math have been published and are available for teachers to use. The development of these guides is evidence that the actions/services have been met. However, the monitoring of classrooms by principals and co-administrators to ensure that the guides are being implemented is not evident from this metric.</p>
<p>Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.</p>	<p>The actions/services selected were effective at meeting the articulated goal.</p>

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

- ELD standards have not been aligned to curriculum guides
- This year we are finishing the ELA/ELD adoption for all levels
- The next step would be to connect the ELD standards to our adopted materials and guides
- We are working on analyzing our math curriculum guides in elementary and looking at resources that would support ELs and outlining this in the curriculum guides

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

- Based on the survey data, the actions/services have not yet been effective because only half of the responders were aware of the ELD standards
- Based on the survey data, staff members are aware of support staff including literacy coaches and language interventionists

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The ELD curriculum guide work did not begin this year, causing a reduced amount spent on certificated staff. Additional supplementary materials were need for LTEL intervention, causing an increase in material expenditures. Classified cost was not included in budgeted expenditure.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

- We recommend developing a systematic way to train teachers on the ELD standards
- We recommend once ELD standards are implemented into curriculum guides, administrators check in on classrooms to see that ELD standards are being embedded into instruction and daily activities
- We need to be more specific in the plan with realistic action steps for introducing both the updated curriculum guides and learning walks
- We recommend developing a plan for involving and informing parents and families about the ELD standards, how they are being implemented, and what support is available at home
- This goal will now be included in Goal 2 of the 2017-2020 LCAP.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

- A Parent Engagement survey was given in 2015 - 2016.
- A Parent Engagement survey is expected to be given in Spring of 2017.
- Created position for, and hired, a Bilingual Parent and Student Engagement Coordinator in the Spring of 2016.
- Every school as have a community liaison.
- Have representatives from most schools on the LCAP Parent Advisory committee. Do not have representatives from Malibu schools, Franklin and SMASH.
- Have at least two representatives from every site on DELAC.
- Schools Smarts parent training program continued at all schools in Santa Monica. In Malibu, and Franklin, the elementary schools collaborated to provide a modified form of School Smarts training.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

- o 91% of parents were "Satisfied" or "Very Satisfied" with the quality of their children's education on the 2015 - 2016 Parent Engagement Survey. This percentage remains unchanged from the 2014 - 2015 survey.
- o It is expected that the District will conduct a Parent Engagement survey in Spring 2017.
- o The work group notes that the starting point is high.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals. Laptops were purchased for board members.

Actions/Services	<p>PLANNED</p> <p>Response to Intervention (RTI) is a multi-tier approach to the early identification and support of students with learning needs. In the SMMUSD, the RTI process begins with high-quality instruction and universal screening of all elementary children in the general education classroom. Based on assessment data, students participate in small groups for high quality reteaching, practice or enrichment. General classroom instructional assistants support elementary classrooms as well as those in the general education alternative setting. To reach desired outcomes in school, some students may require additional or unique instructional strategies or interventions beyond those typically available. Some do not progress as expected, even though they participated in high-quality curriculum and received small and large group support. These children may need Tier III services: intensive, individualized or very small group approaches.</p>	<p>ACTUAL</p> <p>We have completed our third year of RTI implementation in the elementary schools.</p>

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The stated goals and services for this goal have been mostly implemented. The development of early warning indicators has been only partially implemented due to changes in superintendents and an effort to allow the new superintendent to determine what these would include. The RTI model has expanded significantly in the elementary schools, through effective incorporation of Literacy Coaches and Literacy and Language Interventionists. Classroom assistants have been trained to more effectively address the needs of all students. Sites have continued working on their PLC structures. The work with Pedro Noguera continued, although it is being modified under the direction of the new Superintendent.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

The actions/services appear to have been effective, as only one target was not met (growth for the Economically Disadvantaged subgroup). Notably, the African American subgroup exceeded their target by 4%.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

This goal will now be included in Goal 1 of the 2017-2020 LCAP: All students are prepared for college and careers.

Goal 8

Goal 4.2 Increase the percentage of students in grades 3 through 8 and grade 11 who are classified at Level 3 (Standard Met) or Level 4 (Standard Exceeded) on the CAASPP math test to 80% by 2019-20.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	The stated goals and services for this goal have been mostly implemented. The development of early warning indicators has been only partially implemented due to changes in superintendents and an effort to allow the new superintendent to determine what these would include. The RTI model has expanded significantly in the elementary schools, through effective incorporation of Literacy Coaches and Literacy and Language Interventionists. Classroom assistants have been trained to more effectively address the needs of all students. Sites have continued working on their PLC structures. The work with Pedro Noguera continued, although it is being modified under the direction of the new Superintendent.
Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.	The actions/services appear to have been effective, as only one target was not met (growth for the English Learner subgroup). Notably, several subgroups exceeded their targets, including Students with Disabilities (+2%); Economically Disadvantaged (+3%); African Americans (+2%) and Hispanics/Latinos (+4%).
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.	This goal will now be included in Goal 1 of the 2017-2020 LCAP: All students are prepared for college and careers.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

- A. Counselors and Advisors worked with students in Grades 6-12
 - a. Currently, being administered across-the-board
 - b. In addition, college counselors at Samohi/Malibu
- B. High School college counselors provided additional support in Grades 9-12
 - a. College counselors at Samohi only work on college (e.g. no discipline)
- C. Implementation of AVID program and AVID classes in Grades 7-12 (in Santa Monica)
 - a. Get Ahead (summer) provided by district
- D. Young collegians program in Grades 9-12
 - a. Ongoing
- E. Administration of PSAT to identify potential AP Students
 - a. This is the 2nd year given to all 10th graders; at Olympic there are not a lot of 10th graders; next year working with Stephanie to identify Olympic students.
- F. Outsourced consultation with Dr. Pedro Noguera
 - a. Ongoing
- G. At Samohi 3 Student Intervention Specialists work with at-risk Freshman
 - a. Actual Title SOS - Student Outreach Specialists - work with at-risk Freshman during tutorial period; in addition, working with chronic absenteeism

According to the data the District met the overall percentage goal for all students, but did not meet the goal for all subgroups. 5/7 subgroups either met the target or exceeded the target goal. African American and English Language Learners have not meet their targeted goals of 64% and 49% respectively.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

Based on the goal as written, the data from 1993 through 2014-15 (one year gap with no report) show an increase in 22% (57-79%). But, in the last 5 years from 2009-10 through 2014-15, the increase is a net total of 7% (11% in the last 3).

There is a possibility that within the historical data there is a year where the Illuminate default setting included the letter grade of "D" as opposed to "C."

We will need to look at outcomes more closely to determine which action were or were not effective and for which sub groups.

The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.

Monitor course grades several times through the year so that interventions can be more timely. This goal will now be included in Goal 1 of the 2017-2020 LCAP: All students are prepared for college and careers.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Actions/Services	English learners receive designated and/or integrated ELD instruction based on their needs. ELD coaches and coordinators develop individualized learning plans (ILPs) for each English Learner.	Secondary ELs who are in designated ELD classes and elementary students identified as at risk of becoming an LTEL received designated instruction in the ELD standards. Designated instruction in elementary classrooms is inconsistent and should improve with the distribution and training on the ELD curriculum guides (embedded in ELA guides.) <p>Describe the overall implementation of the actions/services to achieve the articulated goal.</p>	<ul style="list-style-type: none"> • Although benchmarks have been developed for academic growth, we have not yet developed language proficiency benchmarks. • Some pieces of the EL master plan (procedural manual) are currently being worked on and there is a draft, but the final plan has not been compiled. We need to identify which pieces are not being worked on and determine who will be assigned to them. • The bilingual assistants are in secondary classrooms, but we need to develop a plan for monitoring and supporting them.
<p>Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.</p>	<p>We can not yet determine the effectiveness of the benchmarks for EL since they have not yet been developed. The same is true of the EL Master plan. There is no evidence pro/con regarding the effectiveness of the bilingual assistants.</p>
<p>Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.</p>	<p>The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals. The ELD curriculum guide work did not begin this year, causing a reduced amount spend on certificated staff. Additional supplementary materials were need for LTEL intervention, causing an increase in material expenditures. Classified cost was not included in budgeted expenditure.</p>

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

- The district increased enrollment in AP classes at SAMO among all subgroups (including lower SES, Latino, AA, and Foster Youth) using data supplied through EOS.
 - Visiting professor program supports English AP classrooms with push-in assistance from retired English professors
 - “AP Pals” program (peer-to-peer tutoring) weekly
- Advisors and counselors supported students in their academic planning in grades 6-12.
 - College counselors at Samohi only work on college (e.g. no discipline)
- At Samohi three Student Intervention Specialists work with at-risk Freshmen
- Schools provided add'l subsidies for AP exam fees.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

- Although the rates dipped from 2014-15, an increased and more diverse population of students were represented in AP classes.
- Because more students took the exam, more students benefited from a more rigorous curriculum and exam experience.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	We continue to employ A2A to systematically monitor student attendance including fulfilling all required truancy notifications. Implemented integrated support system; inclusive of Student Services, Health Support Service and Mental Health case management and Transportation services.
Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.	The overall effect is that we have sustained ADA at or above the articulated goal.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.	This goal will now be included in Goal 3 of the 2017-2020 LCAP.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	While the EL subgroup improved slightly, the Hispanic, AA, SWD and SED either maintained or got worse.
Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.	The current activities are not enough to bring about the improvements desired.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.	<ul style="list-style-type: none"> • Begin looking at grade data quarterly, rather than waiting for end of year course pass rates. Analyze the data and adjust plan as needed. • Reflect on the effectiveness of the student outreach specialists and the athletic interventionist. • Provide counselors/advisers with training on national standards. • This goal will now be included in Goal 1 of the 2017-2020 LCAP: All students are prepared for college and careers.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	<p>Site administrators continue to participate in training with regard to alternatives to school suspension(s). District-wide, all schools have implemented Olweus anti-bullying curriculum and/or restorative disciplinary practices. Increased support through ongoing training for security as well as additional mental health support.</p> <p>Full implementation of Olweaus occurred in 2016 - 2017.</p> <p>Full implementation of a mental health coordinator occurred in 2016 - 2017 school year.</p> <p>The District has not implemented a system of early warning indicators.</p>
Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.	<p>The effect continues to maintain a relatively low suspension rate which is at or below the target rate. Disproportionality remains present. The trend shows students feel safer as they progress through their high school years with a minor dip downward during the 9th grade transition.</p> <p>The 2015 - 2016 data is not yet available. The rates for sub-categories do not display a pattern of decrease. There continues to be variability between suspension rates and enrollment for Hispanics, African Americans and socio-economically disadvantaged students that are in greater than the goal of 2%.</p>
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	<p>The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.</p>

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.	<ul style="list-style-type: none"> We have increased participation in Young Collegians and maintained participation level in AVID. Trained and retrained counselors to use AP potential report. Counselors are provided training through the College Board. Counselors use PSAT AP potential report to identify students in grade 10 for AP courses in grades 11 and 12. Identified students (i.e. free and reduced lunch) are given fee waivers for AP exams. The most they are asked to pay is \$5.00, and in many instances District will cover the nominal fee.
Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.	Actions have been effective for increasing AP course enrollment for most subgroups. Further work needed in order to boost the Hispanic and SED subgroups.
Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.	The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.
Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.	Continue the current course of actions. Since other metrics for AP are already be monitored, this goal will not continue in next year's plan.

ANALYSIS

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

- Santa Monica College Liaison comes to all District counselor meetings.
- Counselors and/or Advisors provide academic and social-emotional supports to students.

Describe the overall articulated effectiveness of the actions/services to achieve the goal as measured by the LEA.

Data shows the District has exceeded the goal outcome as evidenced by 21% of students completing dual enrollment coursework in the 2015-16 school year.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

The Budgeted Expenditures were entered incorrectly into the 2016-2017 plan which explains a significant difference between Budgeted and Estimated Actuals.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Continue with current actions. This goal will now be included in Goal 1 of the 2017-2020 LCAP: All students are prepared for college and careers.

Complete middle school ELA textbook adoption and implementation aligned to the new California standards. Implementation includes either teacher compensation at the hourly rate or substitutes so that teacher may participate in support of the new adoption. (Schools add or replace lost/damaged textbooks and renew consumable materials with school-based lottery funds.) It is expected that there will be a significant carry-over which will be combined with 2018-19 funds to begin the NGSS adoption.	Begin the first of a two-year process to adopt and implement new materials for the Next Generation Science Standards.	Complete the second year of the NGSS textbook adoption.

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year

2017-18 2018-19 2019-20

Estimated Supplemental and Concentration Grant Funds: \$4,519,947

Percentage to Increase or Improve Services: 5.49%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds ([see instructions](#)).

Actions/Services Contributing to meeting the increased or improved services and identified as LEA-wide.

Goal 1: Action 3: *Each school has a teacher who serves as a professional development leader. Together with his/her professional development team and principal, they plan and implement training related to school and/or district goals. In this way, each new teachers quickly learn about the vision of his/her school and the district.*

The SMMUSD has a PD structure to facilitate two way training. Sometimes the district has skills or knowledge that all teachers should have. In this case, the district pushes PD out to the school PD teams via the PD Leaders. For example, with our focus on academic language and oral discourse, the district invests in the PD Leaders who, in turn, train their PD teams who, in turn, train all school staff. This is how we are getting EL strategies out to all teachers. While the strategies are to support foster youth, EL and ED students, the strategies are, based on research, good for all students. This is not only research-based, but fiscally efficient and it's a way to ensure coherence of high leverage strategies.

Goal 1: Action 7: *Teacher representatives from all grade level and/or content areas meet several days during the school year to collaboratively review and revise district standards-based curriculum guides, proficiency scales and interim assessments based on experience, new knowledge and assessment results.*

Having district-wide curriculum guides based on California standards with broad pacing and exemplars of proficiency is an essential first step in avoiding achievement gaps as staff develop a common districtwide mental model of student expectations. Data from the interim assessments provide teachers detailed information for each student on next steps instructionally. Research supports common expectations for all students. While the guides are for all teachers and all students, these services principally support the unduplicated pupils (UDP), the subgroups where our largest gaps occur. Having our teachers develop these guides and assessments together is the most effective use of funds as they develop collective responsibility for their UDPs. Using the SBAC interims, while free, does not provide teachers with such targeted student achievement data, and teachers were more interested in developing their own tools rather than purchasing then from a vendor unconnected to our student needs.

Having common district guides assists site and district leaders in monitoring curriculum during classroom learning walks.

Staff will engaged in on-going capacity building in teaching/learning, PLCs, leadership, including training from various consultants such as Dr. Pedro Noguera, InnovateEd, etc.

Building the capacity of our staff, regardless of the numbers of UDPs on their rosters improves teaching and learning for all students and those students who struggle the most benefit the most from improved practice. Research supports this as well.

Goal 2: Action 1: *Ed. Services staff will work with elementary and ELD teachers to create/review ELD curriculum guides for designated instruction. Staff will also include integrated ELD instruction into ELA and math curriculum guides. Completed guides will be published to the district website. The Coordinator of Literacy and Language supports schools in serving its English Learners and striving readers. She also coordinates training and Learning Walks.*

Teachers are already using the district curriculum guide and interim assessments in ELA and math. Explicitly documenting within these documents teachers' requirements, by ELD, to provide either designated or integrated ELD instruction does several things that directly benefits ELS:

1. Common language expectations are known by all staff, regardless of school, grade level or content area.
2. Teachers prefer having ELD exemplars to assist in evaluating/assessing EL needs by standard.
3. Having common district guides assists site and district leaders in monitoring curriculum during classroom learning walks.
4. A common understanding of teachers' collective responsibility to serve ELs is documented and understood.
5. Having district-wide curriculum guides including ELD California standards is an essential first step in avoiding achievement gaps as staff develop a common districtwide mental model of student expectations.
6. Data from the interim assessments provide teachers detailed information for each student on next steps instructionally.
7. Research supports common expectations for all students.

Having our teachers develop these guides and assessments together is the most effective use of funds as they develop collective responsibility for their ELs. Using the SBAC interims, while free, does not provide teachers with such targeted student achievement data related to EL standards, and

teachers were more interested in developing their own tools rather than purchasing them from a vendor unconnected to our student needs.

Goal 2: Action 3: *Literacy and Language Interventions provide tier 2 support to ELs at risk of becoming LTELs.*

Tier 2 interventions are provided to ELs in elementary school who have been identified at being at risk of becoming LTELs. This is the most effective use of the funding as it greatly reduces the number of ELs become LTELs in middle school by targeting support to individual EL needs.

Goal 3: Action 5 *A district mental health case manager supports schools in leveraging and providing services to students. Schools have access to mental health services on site. At Samohi, three student intervention specialists work with at risk freshmen. An interventionist works with athletes to ensure they are passing classes.*

The services above are principally directed to the UDPs as they are unlikely to have:

- Medical insurance that provides easy-access to mental health services.
- Unlikely to have parents who can leave work during the day to provide mental health services.
- Unlikely to have resources to access private academic support.

Athletes who are struggling with ineligibility tend to be UDPs.

Elementary schools implement the Olweus anti-bullying curriculum. A coordinator of restorative justice serves Samohi students and staff.

Students who are suspended from class are more likely to be UDPs. Providing a research-supported program like Olweus or Restorative Justice to all students is the best way to expend funds to support UDPs in positive behaviors.

Actions/Services Contributing to meeting the increased or improved services and identified as Schoolwide.

Goal 1: Action 14: *Counselors and advisers use the AP Potential reports based on the PSAT to identified underrepresented students for advanced placement courses. In partnership with Santa Monica College staff, they advise students on dual enrollment courses. They develop appropriate plans for foster youth.*

While the counselors review every student's AP Potential Report, we have seen increased enrollment in AP Courses and success on AP exams by the UDPs. The advantaged students were already enrolling while socio-economically disadvantaged students were not. The AP Potential Report creates an equitable tool in identifying students with AP potential. This same tool is used to identify students for enrollment in dual enrollment courses. The LCFF base pays for the counseling staff. The supplemental grant pays for the PSAT fees.

Subsidies for AP exams are readily available.

This is principally for UDPs as those on free or reduced meals (or those with other documented hardships) are more likely to enroll in AP if they know in advance the exam fee is waived.

Goal 1: Action 15 *The AVID program is implemented to support under-served students in meeting the requirements for applying to college, in applying to college and in succeeding in college.*

Action 2 The AVID program is implemented to support under-served students in meeting the requirements for applying to college, in applying to college and in succeeding in college.

AVID principally serves the UDPs. The LCFF base pays for the certificated staffing and instructional materials. The supplemental grant pays for AVID annual fees, required training and AVID tutors.

Goal 2: Action 2: *Bilingual instructional assistants (BIAs) supports students in content classes.*

BIAs provided scaffold support to ELs in the content areas at Adams MS, Lincoln MS and Santa Monica HS.

Goal 3: Action 2: Bilingual community liaisons primarily serve ELs and economically disadvantaged students although other families who request assistance are served.

Supplemental Grant Details

Item	Description
AP Waivers	To encourage and support UDPs in advanced placement classes.
AVID	Above
Bilingual Community Liaisons	To support families of UDPs at every school.
Bilingual Instructional Assistants	To support ELs in secondary settings.
Training/Consultants	To build capacity of instructional staff and administrators to better understand research related to teaching and learning, assessment and closing gaps.

Ed. Services Clerical	To assist in mandated EL tasks.
Literacy & Language Interventions	Tier 2 support in ELD and/or reading primarily to UDPs, especially ELs at risk of becoming LTEL.
Coordinator of Literacy and Language	Supervises the EL and dual immersion programs.
Licenses	To support universal screen in RTI.
Literacy Coaches	To supplement sites with more intense need at Title I schools.
Mental Health Caseworker	To better support UDPs connect with services.
Additional Mental Health Services	Beyond what is provided by City and other community agencies, principally for UDPs.
Seaside Subsidies	To provide preschool access for UDP families who don't qualify for full-day preschool through categorical sources.
PSAT & SAT Fees	To ensure all UDPs successfully take this test in 10 th grade so that data can be used for AP, dual enrollment placements and college preparedness remedies.
Restorative Justice/Olweus	Social-emotional programs that shape culture to be more focused on restorative means of correction and on positive behavior reinforcement.
Samohi Interventions	Above.
School SMARTS	Parent advocacy training principally for UDP families, especially ELs.
Student Outreach Specials	To support 9 th graders identified as at risk of dropping out.
Summer School IISS	To enhance the district summer remedial program with reduced class-size, coaching and training.
Technology TOSA	To support teachers in using technology to engage/reengage students in learning and to support remediation/differentiation.
Middle School Additional Staffing	To extend the middle school day by one period for ELs so that they can have the academic classes needed to support language development and an elective (VAPA, world language, PLTW, etc.)
Release time for preschool teachers	To promote collaboration and using data to make informed decisions on next steps instructionally for children who are primarily UDPs.
Materials for elementary music teachers	To provide reeds, valve oil and other VAPA supplies to UDPs.
