Supplemental Support for EL

Supplemental Support at Elementary Schools

- English learners in Grades 3-5 who are at risk for becoming Long-Term English learners (LTELS) may receive additional, supplemental language intervention support to accelerate their language and literacy achievement
- Instruction is provided by site-based Literacy & Language Interventionists, certificated teachers with content expertise in language and literacy
- Before or after school supplemental support is provided to ELs through the implementation of the Academic Vocabulary Toolkit

Supplemental Support at Secondary Schools

- Secondary English learners who require ELD intervention participate in ELD classes that focus on using core ELA content to teach ELD standards.
- Supplemental ELD intervention classes, provide students with direct instruction from certificated teachers with training in ELD content standards and instructional strategies.
- Focuses on building academic language through listening, speaking, reading and writing tasks. The progress of English learners in the ELD intervention classes is closely monitored and reviewed to determine readiness to exit the intervention class and/or continue with language support.

Goals and Objectives

Goals and Objectives

- Ensure that English learners acquire full proficiency in English as rapidly and effectively as possible and attain parity with native speakers of English.
- Ensure that English learners, within a reasonable period of time, achieve the same rigorous grade-level academic standards that are expected of all students.

Research to Practice

Key highlights from current research on English learners are listed below:

- English language proficiency development:
 - is a process that **takes four to seven years** for those entering with emerging English,
 - benefits from coherent and aligned instruction across that time period, and
 - can take place as an integrated process simultaneous with academic content learning in addition to designated ELD and the development of bilingualism/biliteracy.
- Bilingualism provides benefits to communicate in more than one language, may enhance cognitive skills, and may improve academic outcomes.
- The diversity of the EL population (e.g., newcomers, long-term English learners, students with interrupted formal education, students with disabilities, accelerated students, and the expected continuous exiting of students from the EL category) necessitates pedagogy and educational support services that are differentiated and responsive.
- Brain development research reinforces the crucial period of birth through early childhood in the areas of cognitive social and language development. There is a great need for coherent, aligned support for dual language learners across the preschool and primary grade systems to begin developing their bilingual and biliterate capacities.

District Wide ELPAC Results

Important Information to Keep in Mind when Reviewing California Performance Trends Reports for English Only vs ELs

- **Performance trend reports are not appropriate for** judging whether the achievement of the EL subgroup is changing over time. Each year, new students enter the EL subgroup who are just beginning to learn English.
- Also each year, students with very high levels of English proficiency are reclassified out of the group. Because of this constant cycling, the average achievement of the EL subgroup tends to stay the same over time.
- In fact, the more students are reclassified (a potentially positive outcome), the lower the average achievement score will be for the students who remain.
- As a result, these graphics should not be used to draw conclusions about trends in EL achievement over time.

“Understanding English Learner Achievement in California”

Important Information to Keep in Mind when Reviewing California Performance Trends Reports for English Only vs ELs

- **Performance trend reports may be useful for** determining whether ELs are being prepared to meet grade-level achievement standards.
- However, it is important to keep in mind that gaps between current ELs and EOs reflect both the composition of the current EL population—which changes from year to year—and the rigor and quality of the instruction that EL and EO students receive.
- It can be difficult to disentangle these factors to interpret achievement, particularly when looking across time.
- For this reason, it is strongly recommended that this performance trend not be used as the sole basis for drawing conclusions about EL achievement within the state.

Long Term English Learners

Long Term English Learners (LTEL)

- “Long-term English learner” means an English learner who is enrolled in any of grades 6 to 12, inclusive, has been enrolled in schools in the United States for more than six years, has remained at the same English language proficiency level for two or more consecutive years as determined by the English language development test identified or developed pursuant to Section 60810, or any successor test, and scores far below basic or below basic on the English language arts standards-based achievement test administered pursuant to Section 60640, or any successor test.

Assembly Bill No. 2193

English Learner at Risk of becoming a Long Term English Learner (LTEL)

- “English learner at risk of becoming a long-term English learner” means an English learner who is enrolled in any of grades 5 to 11, inclusive, in schools in the United States for four years, scores at the intermediate level or below on the English language development test identified or developed pursuant to Section 60810, or any successor test, and scores in the fourth year at the below basic or far below basic level on the English language arts standards-based achievement test administered pursuant to Section 60640, or any successor test.

***Note:** The 2020–21 determinations of Long-Term English Learners (LTEL) and At-Risk of becoming LTEL (AR-LTEL) reflect a significant one-year increase in LTEL and AR-LTEL counts from the previous year. These increases stem from the lack of CAASPP-ELA and ELPAC data available in the 2019–20 academic year, due to the Covid-19 pandemic, which are required for making LTEL and AR-LTEL determinations. Specifically, Education Code Sections 313.1(a)(1)(2) and 313(b)(1)(2) state that students for which the required testing data are not available shall not be excluded from LTEL or AR-LTEL determinations.

***Note:** The "EL Total" column in this report displays the summed total of the disaggregated English Learner (EL) data in the four columns under the "English Learners" heading. The "Total (Ever-EL)" column displays the summed total of the data in the "RFEP" column plus the data in the four columns under the "English Learners" heading OR the data in the "EL Total" column, but not both. To view the data in this report as percentages, including "At-Risk" and "LTEL" percentages, select "Percents" from the View Data As menu option located above the report. The percent values displayed in this report are calculated as a percent of the "Total (Ever-EL)" which fully and more accurately considers what happens to all EL students over time, including those who are Reclassified Fluent English Proficient (RFEP).
