Important District Climate Survey for Parents / Guardians, Staff and Students Fifth-12th Grades

Dear Parents, Guardians, Staff and Secondary Students,

Santa Monica-Malibu Unified School District (SMMUSD) is prioritizing the opinions, perceptions, and needs of our school communities and has partnered with an education market research firm, Hanover Research, to conduct a Climate Survey between May 26 and June 6, 2021 at 5 p.m.

The survey is intended to field opinions and feedback from students, parents / guardians, and staff members on perceptions of school culture and climate this year and to identify areas of need where SMMUSD can best align support.

The survey should take approximately 15 minutes of your time to complete, and SMMUSD will receive survey results from Hanover Research in aggregate form (i.e., no personally identifiable information will be collected or reported). I realize this has been a long and difficult year for many reasons and we want to continue to improve our system to best support our students. This climate survey will help guide our direction to that end.

To participate in the survey, click this link or paste the URL in your browser: https://hanover-research.qualtrics.com/jfe/form/SV_diEFIAfpxUAAR13

We look forward to hearing from you to help us best serve our school communities!

Sincerely,

Dr. Ben Drati, Superintendent
