IV. BOARD OF EDUCATION - COMMENDATIONS / RECOGNITIONS

- National Board Certified Teachers – Newly Certified
This item was rescheduled for the February 15, 2007, board meeting.
- Cabrillo Elementary School
Nadeane Rudd and Tracy Weirick, Cabrillo PTA Co-Presidents, addressed the board regarding recent updates at Cabrillo. They commended Principal Yates for his consistency in leadership. The direct contribution fundraiser, entitled "Rock the Pod" brought in almost \$20,000 and promoted the message, "Be involved in your child's education and your child will be successful."

Ms. Russ and Ms. Weirick reported this year's successes so far: new asphalt on our playground, new sand in the kindergarten area, a freshly painted school, and the installation of new school benches (purchased through funds donated to the PTA). They thanked the City of Malibu for their new crossing guard, Jennifer Lawrence. However, they were sad to report that the school lost its bilingual liaison, Siugen Constanza, who played an integral part in bringing together the Hispanic population with the rest of the school.

The school has made a recent effort to improve communication with parents, including weekly emails with updates as well as a future PTA website. They expressed their concerns regarding teachers having difficulty finding funding for professional development opportunities. They also mentioned the potentially dangerous traffic situation during drop-off and pick-up times.

Principal Barry Yates expressed to the board his gratitude for the hard work of Cabrillo's PTA and the results of their tireless fundraising, including a vocal music program, art and science labs, a new computer lab with PCs and iMac laptops, and a beautiful library. Mr. Posey, a fifth grade teacher, has designed a school newspaper that attracts participation from the GATE students. Mr. Yates presented the board with a copy of the school's brochure that he designed to create a snapshot of the school for visitors.

Mr. Yates attributed the revitalization of Cabrillo to the collaboration of the PTA and parents. The school is focused on student achievement and celebrates the diversity of the student population. This year, Cabrillo partnered with Pt. Dume for professional development opportunities. The bell schedule has been changed in an attempt to relieve traffic congestion; a paid crossing guard has been implemented to ensure student safety during drop-off and pick-up times. Mr. Yates also implemented a training program for all parents who will be volunteering to work with the students.

All 5th grade students will be attending WOLF camp. The 5th graders have raised money by organizing movie nights, and part of the proceeds go towards "adopting" a group of African orphans who need supplies for a school that is under construction.

Mr. Yates also thanked Mark Diprosperis, Assistant Director of Maintenance and Facilities, for his hard work at the Cabrillo school site.

COMMENT: According to the Education Code SEC.21 Section 56342, prior to recommending a new or continued placement in a non-public, non-sectarian school, the Individualized Education Program (IEP) Team must submit the proposed recommendation to the local governing board for its review and recommendation regarding the cost of such placement.

The recommendation for these severely handicapped students is made by the District IEP Teams in accordance with State and Federal laws. The mandates of IDEA require non-public school services be provided at no expense to parents if there is not an appropriate public school program available. Funding to come from a SELPA-wide non-public school/non-public agency reserve account.

RE: CREATION OF MEASURE "BB" ADVISORY COMMITTEE

DISCUSSION ITEM NO. D.01

On December 9, 2004, the Board of Education appointed members to the Ad Hoc Facilities Committee for the purpose of undertaking a comprehensive facilities study of the Santa Monica-Malibu Unified School District.

In lieu of Measure "BB" passing in November 2006, it is recommended that the board create a Measure BB Advisory Committee in order to allow community members to have input into the next phase of the Facilities Master Plan and as school construction projects move forward. This committee will merge members of the Ad Hoc Facilities Committee, who have expressed a desire to continue into the next phase of the process, with new members from a list of applicants in order to have committee membership reflect the population of the community. Once the "BB" Advisory Committee is identified, the work of the Ad Hoc Facilities Committee will be complete.

It is further recommended that school sites and community groups be contacted in order to recruit interested community members. The Superintendent's office will be responsible for this outreach and application process. Applications will be accepted through February 28, 2007, and the committee will convene the week prior to the final Master Plan Workshop this spring.

A summary of the work from the Ad Hoc Facilities Committee, as well as proposed charges for the Measure "BB" Advisory Committee, are presented on the following pages.

Comment: The Prop 39 Citizens' Bond Oversight Committee is a separate committee from the Ad Hoc Facilities Committee and is required by law to ensure that the bond money spent on construction projects falls within the boundaries of Measure "BB" requirements. There may be overlap in membership between the two committees.

SMMUSD Ad Hoc Facilities Committee- Summary of Scope of Work

1. The Committee consisted of approximately ten community members, with one member representing the Financial Oversight Committee and one member representing the Proposition X Oversight Committee, staff members from the City of Santa Monica, the City of Malibu, and Santa Monica College.
2. The charge to the Committee was to undertake a comprehensive facilities study of the Santa Monica-Malibu Unified School District while adhering to the tenants of the District's Strategic Plan.

3. The Committee made recommendations to the Board of Education for future facilities needs and specifically, how these needs could be met, including the hiring of a professional consultant team.
4. The committee provided regular updates to the board as to the Facilities Master Planning process and the recommendations of the consultants.
5. The committee provided a report to the board with its recommendations as to the necessity and feasibility of a bond initiative on the November 2006 ballot.
6. The Ad Hoc Committee will advise the board during the final stage and development of the completed Facilities Master Plan.

Measure BB Advisory Committee- Proposed Charges

1. Work with district staff to identify potential project managers and staffing requirements needed to implement construction projects.
2. Examine recommendations from the Master Plan and assist staff in identifying Phase I projects that are considered Health and Safety Priorities.
3. Work with staff and project consultants to identify projects that reflect board, district, and site priorities during all phases of construction.
4. Assist in the communication with sites to receive input and identify concerns or priorities that arise during the construction projects.
5. Provide progress reports to the board as necessary.

***** ***** ***** ***** ***** *****

Public Comments

- *Ralph Mechur, a member of the Ad Hoc Facilities Committee, expressed his concern regarding the committees' charges.*
- *Gleam Davis, Chair of the Ad Hoc Facilities Committee, suggested that the Phase I construction projects be incorporated into the Facilities Master Plan, and that the membership of the Measure "BB" Advisory Committee represent a broad range of the community.*

Board President Wisnicki stated that the work of the Ad Hoc Facilities Committee would continue until the Measure "BB" Advisory Committee had been officially appointed in order to ensure a smooth transition and avoid any delay in progress.

Superintendent Talarico stated that she was in the process of meeting with the principals in groups to discuss priorities for projects at each site.

Board Vice President de la Torre suggested that each member of the Measure "BB" Advisory Committee, once appointed, should take a tour of each school site.

The board agreed that in a future agenda, one discussion item would address the selection process of the Measure "BB" Advisory Committee, while a second discussion item would address the timeline for moving forward with community input regarding construction projects.

UPDATE

RE: WHAT IS THE APPROPRIATE SIZE FOR SMMUSD

DISCUSSION ITEM NO. D.02

Declining enrollment in SMMUSD will have a potential impact on all projects funded by Measure BB. In order to make fiscally prudent, responsible decisions about the allocation of Measure BB resources, a discussion about, "What is the appropriate size for SMMUSD?" is vital.

Furthermore, when reviewing capacity analysis data by school site compared to actual enrollment data, a second question for consideration emerges: "What is the appropriate size for each school within SMMUSD?" These are necessary questions that the board members and broader community need to address, particularly in light of SMMUSD's existing permit policy.

A Community Workshop on this topic is scheduled for **Tuesday, February 13, 2007**, ~~Monday, February 13 12, 2007~~, to obtain input from the community as the district strives to reach consensus regarding how to adequately and appropriately prepare district facilities for the future.

A PowerPoint presentation that will be provided at the Community Workshop will illuminate the facts regarding the State of the District as it relates to: 1) enrollment and staffing trends, 2) capacity and current enrollment data by school site, 3) state ADA revenue and COLA trends, and 4) permits issued by school site and the impact of intra- and inter-district permits.

A draft version of this presentation will be provided for this board meeting's preliminary discussion so that the board and community can begin to explore this critical issue.

***** ***** ***** ***** ***** *****

Public Comments

- *Ralph Mechur, President of the Ed Foundation, addressed the board regarding enrollment decline as it relates to considering how many permanent classrooms to build to replace temporary ones.*
