IV. BOARD OF EDUCATION – COMMENDATIONS / RECOGNITIONS

- Pt. Dume Marine Science School

Principal Chi Kim began her report by thanking the fire department, sheriff department, the City of Malibu, and the district for working together to keep families safe and informed during the Malibu fire. She explained that Malibu is a close-knit community and reminded the board that a strong foundation at the elementary schools leads to excellent learning in the secondary schools.

Ms. Kelly Meyer, PTSA President commented that it was an honor to serve this community. She reported that the school is continuing its focus on the environment. The school is building awareness and taking steps toward protecting the planet and teaching the children. Wind and solar energy sources are being installed on the campus to teach students that they are part of the solution. Ms. Meyer said that she hopes Pt. Dume will be a model for the rest of country. She thanked Ms. Kim for her leadership and vision in making this happen.

Student Council President Nolan Pierson thanked the board for letting him speak tonight. He reported on two of the campus's commissions: the Community Service Commission and the Citizenship Commission. The Community Service Commission supports the Pennies for Peace Foundation, in which pencils are sold for one cent and the collected pennies go toward helping rebuild remote locations in Pakistan and Afghanistan and teach children to "say no to terrorism." The commission also supports the Heifer Foundation, which strives to end hunger by giving people the means to feed themselves. The Citizenship Commission teaches students how to start a class meeting by having the upper students teach the younger students leadership and communication skills. Student Chief Commissioner Roman Jenson reported on two other commissions: the Environmental Awareness Commission and the Garden and Compost Commission. The Environmental Awareness Commission emphasizes "Reduce, Reuse, Recycle" and teaches the benefits of solar and wind energy and compost. The students turn in plastic bottles on Fridays; the money from the recycling supports environmental projects. The Garden and Compost Commission has added compost to and placed a fence around the garden to keep out pests and gophers. The students have planted radishes, beets, and vegetable trimmings. Mr. Jenson thanked the board for replacing the polystyrene trays with cardboard ones.

Ms. Kim reported that the school collected 2,000 pounds of plastic through the efforts of the school's families. With the help of General Electric, each student has been provided with a trash-free lunch box. The school's goal is to reduce waste by 20% this year. She requested staff to research companies that composts the recyclable cafeteria trays. She also reported that money raised during Read-a-Thons, Walk-a-Thons, and other fundraisers benefit the environment and the entire community. The solar and wind project application has been submitted to the DSA for approval; it will be coming to board for approval in December. The project is also being funded privately by citizens in community. To close her report, Ms. Kim expressed her appreciation for the thought and care the board has put into making sure the two cities work as one district.

Board President Wisnicki commended the school for its hard work.

COMMENT: According to the Education Code SEC.21 Section 56342, prior to recommending a new or continued placement in a non-public, non-sectarian school, the Individualized Education Program (IEP) Team must submit the proposed recommendation to the local governing board for its review and recommendation regarding the cost of such placement.

The recommendation for these severely handicapped students are made by the District IEP Teams in accordance with State and Federal laws. The mandates of IDEA require non-public school services be provided at no expense to parents if there is not an appropriate public school program available. Funding to come from a SELPA-wide non-public school/non-public agency reserve account.

RE: UPDATE OF SIGNATURE AUTHORIZATION FOR FIRST FEDERAL
BANK OF CALIFORNIA

RECOMMENDATION NO. A.09

It is recommended that the Board of Education approve the District's updated signature authorization records for First Federal Bank of California.

COMMENTS: The District maintains certain funds in a local bank, (First Federal Bank of California) for fees collected for items such as fees for bus passes, lunch cards, Cafeteria and Associated Student Body transactions (ASB), etc. These funds are then routinely cleared and deposited to the Los Angeles County Treasurer (LACOE) via a local bank check.

In order to accomplish this process, from time to time we're obligated to update the signature cards. Therefore, effective July 1, 2006⁷, this action will authorize the removal of all previously-authorized individuals and add or retain the following:

Ms. Dianne Talarico, Superintendent
Mr. Timothy R. Walker, Deputy Superintendent
Ms. Janece L. Maez, Assistant Superintendent Business and Fiscal Services & Chief Financial Officer
Dr. Chiung-Sally Chou, Chief Academic Officer
Dr. Michael D. Matthews, Assistant Superintendent-Human Resources
Ms. Wang Pin Ju (Pat) Ho, Director of Fiscal Services
Mr. Orlando R. Griego, Director of Food & Nutrition Services

Each of the above-listed individuals, following approval of this action, will need to present themselves in person to First Federal Bank of California, with proper identification and sign the signature cards, as listed above.

RE: SUPERINTENDENT'S PERFORMANCE TARGETS FOR 2007-2008

RECOMMENDATION NO. A.19

It is recommended that the Board of Education adopt the 2007-2008 Performance Targets for the Superintendent of Schools.

At a regular meeting held September 29, 2007, the Board of Education met in Closed Session with the Superintendent and set the following performance targets for 2007-2008:

1. Expanding Post Secondary Opportunities
2. Mathematics
3. Small School Task Force

The Superintendent's Performance Targets are established annually and are adopted as an addendum to the agreement with the Superintendent and the Santa Monica-Malibu Unified School District and Board of Education. The targets listed above are in addition to duties regularly performed by the superintendent.

The 2007-2008 Performance Targets are attached in their entirety.

COMMENT: These Performance Targets were *Discussion Item No. D.01* at the October 18, 2007, board meeting.

Superintendent Talarico reported that staff is working with Center X regarding mathematics; two meetings are held per month with principals and one is held per month with instructional staff. The first meeting of the Small School Task Force was held on October 24th; subcommittees will be visiting small school models. The MOU with SMC and online courses at Olympic High School that provide credit recovery are part of the post-secondary target.

Board Member de la Torre asked how student achievement is tracked once a student enters college/university. The Superintendent explained that such tracking is a statewide issue; she agreed to speak with Assemblywoman Julia Brownley regarding possible solutions.

The board agreed to the following changes:

- *Small Schools target: eliminate 3i & 3j; amend 3h.*
- *Math target: amend 2e.*

RE: APPROVE CHARGES TO DISTRICT ADVISORY COMMITTEES FOR THE
2007/2008 SCHOOL YEAR

RECOMMENDATION NO. A.21

It is recommended that the Board of Education consider adopting the following proposed charges to the District Advisory Committees. The charges are to provide each advisory committee with the Board's intended focus and parameters around which the DACs are to execute their work for the 2007-08 school year.

COMMENTS: Board Policy 1220 (see attached) requires the Board of Education to review the purposes/ charges of its advisory committees on an annual basis, no later than October of each year. BP 1220 also indicates that input regarding the committees' charges is to be sought from committee members as part of the review process. Therefore in accordance with this policy, in September 2007, staff liaisons solicited and received input related to committee charges from members of each of the district's standing advisory committees. The following proposed charges are submitted by staff and reflect DAC members' input. Five committees (English Learners, Child Care and Development, Community Health and Safety, Fine Arts, and Special Education) are represented in this board item. Revisions to the charges given to them by the Board during the 2006-07 school year are underscored.

Staff Report

The current District Advisory Committees and their respective district staff liaison are as follows:

District Advisory Committee	Staff Liaison
Child Care & Development	Judy Abdo
Community Health & Safety	Marolyn Freedman
English Learners Advisory	Aida Diaz
Special Education	Ruth Valadez
Visual & Performing Arts	Tom Whaley

ENGLISH LEARNERS ADVISORY COMMITTEE

By law, DELAC will advise the board on at least the following:

- A timetable for and development revision of a district master plan of education programs and services for English learners, taking into consideration the school site master plans.
- Conducting a district-wide needs assessment on a school-by-school basis.
- Establishing of district program, goals, and objectives for programs and service for English learners.
- Development of a plan to ensure compliance with any applicable teacher and/or teacher aide requirements.
- Administration of the annual language census (e.g. procedures and forms)
- Review and comment on the district reclassification procedures established pursuant to Education Code §52164.6.
- Review and comment on the written parent notification of initial school enrollment required in Title 5, CCR §11303(a).
- Any waiver request affecting program and services for English learners.

CHILD CARE and DEVELOPMENT

The charge to the Child Care and Development DAC shall be:

- **Input on State Preschool Standards:** The California Department of Education is using a collaborative approach to creating standards for preschool programs. CDS DAC members have been involved in creating standards, in responding to the draft standards, and in communicating with statewide early childhood leaders about recommendations for changing the draft standards. CDS staff will continue to monitor progress on the draft standards and will participate in the process to amend the current draft standards.
- **Improve Kindergarten Transition:** CDS staff will work with members of the Santa Monica Child Care and Development Task Force as well as district staff to enhance the transition from preschool to kindergarten.
- **Increase Inclusion:** CDS staff looks forward to working with the new Special Education Preschool Coordinator as we continue the five inclusion classrooms already operating as collaboratives involving both CDS and Special Education instructional staff. Depending on the need, there may be an opportunity to add more inclusion classrooms during the school year. Staff will work to enhance after school inclusion.

- Assist Infant Family Support Program: ~~When the CDS DAC report was presented to the School Board, CDS had just received the news of a drastic cut in funding from St John's Hospital for the IFSP program (from \$200,000 to \$75,000). At that time, there was still hope that St Johns would increase the funding to provide time to transition staff, but only \$10,000 was added for the 2007-08 school year. The transition plan has been developed, and IFSP staff members are now considering their options for continued employment in the district. A reduced-in-scope Infant Family Support Program will operate at Virginia Ave Park beginning in September. In addition, IFSP staff will continue working collaboratively within the Westside Infant/Family Network (WIN). IFSP staff will continue to work out of their offices at Pine Street. With reduced funding for the Infant Family Support Program, CDS staff and City of Santa Monica staff will work together to redesign parenting programs for families with children 0-5. Additional funding options will be explored.~~

COMMUNITY HEALTH and SAFETY

The charge of the Community Health and Safety DAC shall be:

- Assist, inform, and support the Board on issues related to student health, wellness, and safety needs.
- Monitor contemporary issues in health and safety that have a direct impact on school age children.
- Encourage developmentally appropriate health and physical education in all schools.
- Identify community resources to enhance health and safety in schools.
- Identify community resources to provide supplemental mental health supports for children and families.
- Review the literature and best practices associated with healthy eating, delivery of student meals and student consumption of meals aimed at the reduction of childhood obesity and establishing healthy life-long eating habits to support its work.

VISUAL AND PERFORMING ARTS

The charge of the Visual and Performing Arts DAC shall be:

- Serve as a vehicle for parents, community, teachers, and students to communicate with the Board of Education on matters related to all students' equitable access to and successful participation in comprehensive, sequential, standards-based PreK-12 Arts Education. A comprehensive arts education program, with the arts taught as discrete

disciplines, should be an integral part of the core curriculum offered to all students at all grade levels.

- Assess our current Visual and Performing Arts programs (Dance, Music, Theatre, and Visual Arts).
- Compare the District's curriculum scheduling, staffing, instructional materials, equipment, and facilities with national and state standards and frameworks.
- Work with various agencies to explore funding to support the Visual and Performing Arts programs.

SPECIAL EDUCATION

The charge to the Special Education DAC shall be:

- Serve as a vehicle for parents, teachers, students, and community members to communicate with and advise the Board of Education on matters concerning the equitable access to and successful participation in beneficial educational programs for all learners with disabilities. Measurement: In accordance with the board policy concerning district advisory committees, two written reports will be prepared (one at mid-year, the other at the end of the year) and an oral report will be presented to the board at the end of the year.
- Work collaboratively with district staff to create a comprehensive special education parent handbook. The Special Education District Advisory Committee will create a framework for the handbook and then submit the framework/outline to district staff for review. Creation of the sections will be done through a draft and review process. Once the Board of Education, Superintendent, and other staff review and approve the document, the handbook will be funded, published in English and Spanish, and distributed by the district. The primary focus of the handbook will be to provide information that will be helpful to parents new to special education. Measurement: The first handbook draft will be presented for district staff review by January 31, 2008. By May 30, 2008, a final draft will be presented for district staff review.
- Work with various agencies to explore and recommend ways to generate funds and to collaborate in the support of special education programs and services. Informal meetings by Special Education District Advisory Committee members will be arranged with members of community groups to explore fundraising possibilities. Measurement: Outcomes of these meetings will be presented to the Director of Education. Updates will be provided at each monthly DAC meeting.

The Staff liaison is charged with the review of the Policy and AR 1220. They are expected to determine adherence to general guidelines with respect to roles, functions, responsibilities,

membership, election and terms of office, meetings, and operations. A report detailing compliance will be filed with the Superintendent's Office no later than November 1, 2007. Accompanying the report will be a calendar of meetings, of which there will be no less than five (5) scheduled during this academic year. The Board will celebrate and recognize those members whose terms as members and officers have expired at its November Board meeting.

DETAIL

The Board of Education recognizes that district advisory committees provide a valuable method whereby citizens and educators can better understand the attitudes and opinions which are held in the school-community environment.

The Board, or the Superintendent with the Board's approval, may appoint district advisory committees to advise the Board on school problems, needs and issues from a balanced, logical, and analytic perspective, as the need arises.

It is not the intention that advisory committees become policy-making bodies or that they manage or direct staff. Committees are advisory in nature only; that is, they inform, suggest, and recommend to the Board of Education.

All meetings of committees shall be held as open meetings in compliance with the Ralph M. Brown Act, also known as the Open Meeting Act of the State of California. It is the intent of the Board of Education that each District Advisory Committee shall schedule two meetings in Malibu each school year. Board appointed Ad Hoc Advisory Committees and Oversight Committees shall establish meeting schedules that best meet the requirements of their respective charges.

District Advisory Committees shall be appointed for a specific purpose. The Board of Education will review the purposes/charges of the committees on an annual basis. Annually, an Assessment/Evaluation form will be distributed to District Advisory Committees for their review and input regarding the committee charges and their yearly accomplishments. When a committee has fulfilled or completed its purpose/charge, it may be given a new or revised charge or it may be dissolved.

The Board shall have the sole power to dissolve any of its advisory committees and shall reserve the right to exercise this power at any time during the life of any committees.

All residents and taxpayers of the district attendance area, parents of children enrolled in its schools, school employees, and experts/professionals, as stipulated in this Board Policy, shall be eligible for membership and participation, a prerequisite being solely an unselfish interest in public schools, the community and every child.

Every effort shall be made to select committee members in a manner which ensures that the committee represents a cross section of qualified people throughout the district. A balance of males and females, ethnic representation and geographic location shall be sought in the composition of each committee, except in those cases where a committee is established to address the needs of a particular segment of the school population or community. The Board shall review this balance before making final the appointments of committee members and alternates.

Committee membership will be reviewed twice each year-once in August and once in the Spring. Members who no longer represent the membership category they were originally appointed to by the Board of Education, but who wish to continue as members of their respective committees, will submit new applications and will be considered for appointment.

A Staff Liaison will be assigned to each advisory committee and will serve as the district representative and as a communication link between the committee and the other district administrative staff. The Staff Liaison is not a member of the committee and may not vote.

Staff members may be appointed to advisory committees as deemed appropriate by the Board of Education. Staff may also be appointed to serve as expert advisors. An expert advisor is not a member of the committee and may not vote.

Applications for appointment to advisory committees may be submitted at any time during the year. Once per quarter, an item shall be placed on the Board of Education agenda listing committee vacancies.

The Superintendent is authorized to accept letters of resignation from individual committee members.

EXPENSES, TRAVEL, REIMBURSEMENT

When the Board approves a request by a committee that members be authorized to attend a conference, visit an educational facility, or otherwise participate in an activity which involves expense to the member in carrying out the mission of the committee, the Superintendent is authorized to reimburse the member at the same rates and under the same conditions as those provided for district employees and officers.

II. AUTHORITY

Board of Education Policy 1220

III. PROCEDURES

Consistent with Board of Education Policy, the following General Guidelines apply to District Advisory Committees.

GENERAL GUIDELINES

A. Purpose

The basic purpose of a district advisory committee is to advise the Board of Education regarding school problems, needs and issues from a neutral party point of view.

The district advisory committee provides a method whereby citizens and educators can understand better the attitudes and opinions which are held in the school-community environment. Such a committee shall have as its purpose improved communication and understanding. It is not the intention that advisory committees become policy-making bodies or that they manage or direct the schools. Committees are advisory in nature only; that is, they inquire, inform, suggest, recommend. It is assumed, however, that through improved understanding and information, the district can and will move in the direction of clearly demonstrated needs and desires of the community to be served.

B. Roles

Committees established/approved by the Board of Education are responsible to the Board, the superintendent in his capacity as secretary to the Board of Education, or a designated representative. Committees shall function as recommending agencies.

AR 1220 (b)

Each committee shall serve for a specific purpose to be stated to the committee at the time it is formed. The committee shall then begin its work which, when completed, will result in recommendations to the Board or the superintendent.

C. Functions

The basic district goal is to provide a quality education for every pupil. It is expected that district advisory committees will contribute to the attainment of this goal. The committee's functions may include but shall not be limited to the following:

1. To act as a channel of effective communication between schools, the administration and the community, thereby assisting in promoting community pride in district and schools.
2. To improve joint exploration of future school needs regarding the community's aspirations and the improvement of school programs.
3. To assist in the overall planning of the educational program and of budget resources.
4. To assist in identifying, mobilizing and coordinating resources, both human and material, available from the community for the benefit of the schools.
5. To assist in providing support for educational programs.
6. To act as a sounding board for additions to or changes in the school district's education projects.
7. To keep the Board and superintendent informed of the committee's progress and activities, and advise regarding the committee's recommendations, proposals and decisions.

AR 1220 (c)

D. Responsibilities

District advisory committees may have the responsibility to:

1. Advise the Board and superintendent on matters related to educational needs, problems and suggested priorities.
2. Advise the Board and superintendent regarding opinions and attitudes of parents and other citizens of the total school community on significant issues of a general or

specified nature.

3. Assist in establishing liaison with, and strengthening communication between the district and the communities it serves.
4. Assist in identifying educational needs unique to a local school community.
5. Assist in interpreting educational needs and programs to the community.
6. Advise the Board and superintendent on adoption of educational programs.
7. Approach all issues from an objective, neutral party point of view.

E. Membership

Being aware that the schools belong to the people who created them by taxation and consent; and believing that the schools will only be as successful as the intelligent and knowledgeable support of the people permit them to be; and knowing that committees are advisory in nature with decision-making powers retained by the Board of Education; all residents and taxpayers of the district attendance area, all parents of children enrolled in its schools, and school employees as stipulated in these Guidelines shall be eligible for membership and participation, a prerequisite being solely an unselfish interest in public schools, the community and every child.

AR 1220 (d)

1. Size

The committees shall be of sufficient size to assure representation of a cross section of the community; normally seven (7) to twenty (20) active members are desirable.
