All reports are limited to 5 minutes or less. However, if more time is necessary, or if a report will not be presented, please notify the Board secretary eight workdays prior to the date of the meeting.

### **A. Student Board Member Reports**

7:05 pm

#### **Jamie Black – Santa Monica High School (3)**

*Student Board Member Black reported that next week is finals week at SAMOHI. College and Financial Aid Night was held on January 12. The Winter Band Concert was on January 13. Prior to the concert, the band performed at the New Years Day Parade in London. The school will be holding elections to determine which colors to paint the site buildings. A musical assembly was held on January 9. The senior class will be holding a fundraiser tomorrow evening – ice skating at the city’s outdoor ice skating rink. The basketball team lost last night, but the girls’ soccer team won. A mariachi band and gospel choir performed in Barnum Hall in order to promote courses at SMC. The Winter Presentation will be held tomorrow in the quad. During the presentation, the school promotes winter sports and honors seniors who will be going to college.*

7:02 pm

#### **Roya Sahafi – Malibu High School (3)**

*Student Board Member Sahafi reported that Club Day was held yesterday. The clubs sold snacks, food and clothing. A Measure BB meeting was held earlier this week regarding lighting for the athletic fields. The ASB is currently on the Winter Snow Ball. Malibu High School student photography will be on display at the Santa Monica Pier. Ms. Sahafi announced that several seniors at the school have received acceptance letters from colleges for early decision.*

6:58 pm

#### **Isis Enriquez – Olympic High School (3)**

*Student Board Member Enriquez reported that Terry McCarthy, a well-known ABC news correspondent, came to the school to discuss his life as a journalist in Iraq, Afghanistan, Central America, Southeast Asia, and other parts of the world. As a result of his stories, the students gained a greater understanding of complex world issues.*

*Olympic was recently given twenty new iMac computers, funded by a grant from the district. The computers are much faster and contain features that will help students work more efficiently. The school will also be receiving seventy-five used computers from the City of Santa Monica. Ms. Enriquez thanked everyone who made this possible.*

*This past Tuesday, Justin Mannen, a counselor at SMC and member of the Pico partnership, gave a presentation explaining financial aid options at the college. He explained how to fill out the FAFSA and the Board of Governors fee waiver.*

*Once again, Olympic is fortunate enough to have a DUI Prevention Awareness demonstration at Olympic from the SMPD. They will be on campus on January 29 for a school wide learning activity. Ms. Enriquez said she would have more to report about this at the next meeting.*

*Police Chief Jackman spoke to the criminal justice class in December. The students were happy to ask questions about the police force and police procedures. The students and school are thankful for the strong partnership between Olympic High School and the SMPD.*

*The administration is modifying the current scheduling system to Reflections/QSS, which will provide a more reflective attendance picture. Starting second semester, the school's scheduling will be much smoother.*

*Virginia Ave. Park is offering a graphic design class where students can learn Photoshop and the manipulation of digital images. The school is happy to have a class that will broaden our artistic skills.*

*Mark Harris, the guitar and drum teacher, has returned from his European tour. He and his band members traveled throughout northern Europe. His students are especially happy to have him back for the wonderful rhythm he brings to his classes.*

*In November, the school had a comedy show called "Pilgrims". The school is proud to announce that two of its students had the opportunity to perform at the Improv comedy club a few weeks later. The school's comedy shows provide an opportunity for the students to laugh, be around good people, and eat free snacks.*

*Ms. Enriquez completed her report by announcing that three Olympic High School students are serving as camp counselors at Grant Elementary Outdoor School this week. She commented that it is wonderful having Olympic students helping others.*

7:07 pm

#### **B. SMMCTA Update – Mr. Harry Keiley (5)**

*Mr. Keiley acknowledged the three union leaders present in the audience: Mr. Felix from SAMOHI, Ms. Calgill from Malibu HS, and Nurse Jane Jeffries from the district office. Mr. Keiley reported that the union believes the district can get through the year without layoffs. He added that the local CTA opposes any attempt by Governor Schwarzenegger to reduce the length of the school year as a means of reducing state education expenses because the union believes it will disproportionately hurt low-income students and students with the greatest need. CTA supports a special election initiative in 2009 regarding a sales tax increase to benefit public schools.*

7:11 pm

**C. S.E.I.U. Update – Ms. Keryl Cartee-McNeely (5)**

*Ms. Cartee-McNeely, who had to leave at 6:20pm, requested that Mr. Keiley read her report. Ms. Cartee-McNeely reported that SEIU members continue the fight to protect funding to education. Despite the current climate, SEIU membership and union staff are maintaining a strong voice in Sacramento along side fellow education advocates, including PTA, SMMCTA, CTA, and others. She stressed that during times like these the union voice cannot grow faint.*

*SEIU Local 99 is hosting Inauguration Day at Local 99. The live event will run from 8:00am through noon. A repeat viewing will be shown at 5:30pm and pizza will be served.*

*Ms. Cartee-McNeely also reported that the SEIU Executive Committee (SM) continues to meet regularly with the Superintendent on a monthly basis and has begun monthly meetings with the Personnel Commission to improve communications and problem solve in a collaborative manner.*

7:13 pm

**D. PTA Council – Rebecca Kennerly (5)**

*Ms. Kennerly reported that PTA Council has worked with Superintendent Cuneo to schedule the Third Annual State of Our Schools Event, which is co-sponsored by CEPS. The event will take place at the Santa Monica Public Library at 6:30pm on February 2 and in the Webster Elementary School library in Malibu at 6:30pm on February 3. Public Schools Week, which runs from February 4 through February 6, will involve open house tours at each site. Ms. Kennerly then commented on the recent cancellation of a Comedy Night fundraising event at Edison Language Academy. She said the event was scheduled following every rule and with full collaboration with site administration and Edison PTA. She looks forward to having a larger discussion regarding this issue at the next PTA Council meeting as well as moving forward in collaboration with the Board of Education.*

7:16 pm

**E. Financial Oversight Committee – Cynthia Torres (5)**

*Ms. Torres congratulated the Board of Education, Superintendent Cuneo, and the school district community regarding the good news that the Santa Monica City Council voted to approve the funds for the district. The FOC appreciates the district staff's efforts to meet the criteria set by the council. Ms. Torres commented that the state's financial situation seems to worsen every day. She added that SMMUSD must cut \$3M from its current budget, but most of that will be offset by funds from the city. The FOC suggests a hiring freeze, leaving open positions unfilled, and approving all position fills at the senior staff level. The district should begin instituting significant cost reduction strategies. The FOC suggests all possible options be put on the table, including those not yet tried by SMMUSD, but have been successful for other districts. Ms. Maez will lead a budget workshop in February to discuss various financial scenarios for next year. Ms. Torres said the FOC pledges its continuing support to work with the district regarding budget reduction strategies.*

**X. SUPERINTENDENT’S REPORT (5)**

7:21 pm

*Superintendent Cuneo reported that Ms. Maez and Mr. Snell attended a budget workshop and that Ms. Maez would use this portion of the Superintendent’s Report to update the board regarding the information she learned at that worksop. Ms. Maez said she learned that this year’s mid-year cuts will continue, and as a result, there is a need for adjustments in the budget over the next two-and-a-half years. She appreciates the FOC’s assistance in analyzing the SMMUSD budget and making recommendations to help with the budget crisis. Dr. Escarce remarked that at the last board meeting, staff explained why immediate cost control strategies may not be the best strategy. He asked if the mindset regarding these strategies had changed as a result of information learned at workshop. Ms. Maez answered yes, given the information that was released at the workshop, it would be wise to look at cost containment solutions immediately. She clarified that an absolute freeze on vacant positions may not be necessary or appropriate, but recommended that every position that becomes vacant between now and the end of the year pass through vigorous analysis by senior staff.*

*Mr. Cuneo announced that the National Danish Performance Team from Denmark performed at JAMS today. Santa Monica City Councilmember Kevin McKeown presented the team with a proclamation from the City of Santa Monica. Mr. Cuneo thanked them for the time they spent with the students. The team is hoping to return to the U.S. in two years. They expressed interest in staying in Santa Monica for the entire week and working with all of our schools and the surrounding schools as well as putting on a performance for the entire community. If this future trip were to occur, the team members would be living with some of our families during that time, which could be a very positive cultural exchange.*

*Mr. Cuneo reported that he met with the Superintendents from the Beverly Hills and Culver City Unified School Districts. The three school districts belong to the same SELPA. A meeting will be scheduled in the near future to include not only these Superintendents, but also their Directors of Special Education to address certain items in Lou Barber report.*

**MAJOR and DISCUSSION Items**

*As a general rule, items under MAJOR and DISCUSSION will be listed in order of importance as determined by the President, Vice President and Superintendent. Individual Board members may move to request a change in the order prior to consideration of any Major item. The Board may also move any of these items out of order to be heard immediately following PUBLIC COMMENTS if it appears that there is special interest by the public or as a courtesy to staff members making presentations to the Board.*

COMMENTS: As a result of the Coastal Development Permit process at the Malibu MS/HS Measure BB project, a study of the existing septic system at Cabrillo is required in order to comply with the permit guidelines of the Regional Water Quality Control Board (RWQCB). As the Cabrillo and Malibu HS campuses are adjacent to each other with a total of 9 septic systems, it is necessary to review all the individual systems as an integrated unit.

This Contract Amendment #8, for \$21,647, is for the architectural and engineering services to study and determine the capacity and integrity of the existing septic system at Cabrillo as it relates to the septic system integration to the Malibu MS/HS site. The revised contract total will be \$4,918,743.

COMMENTS: Midway through the Design Development phase of the landscaped perimeter (green fringe) project at John Adams MS, the project team became aware of significant dimensional discrepancies between the Measure BB project drawings and the as-built construction of the adjacent athletic fields project. The project limits as agreed to by the architects for the athletic fields and Osborn/Koning Eizenberg, the Measure BB architects, had apparently not been incorporated into the construction documents for the athletic fields. This change in the project limits resulted in a design revision and extended schedule for the landscaped perimeter (green fringe) project at John Adams MS.

This Contract Amendment # 7, for \$17,000, is for architectural services to incorporate the revised project limits into the design. The revised contract total will be \$2,434,065.

RE: APPROVE AGREEMENT WITH JUBANY-NAC ARCHITECTURE FOR  
ARCHITECTURAL SERVICES - OLYMPIC HIGH SCHOOL - MEASURE  
"BB" PROJECTS

RECOMMENDATION NO. A.29

It is recommended that the Board of Education approve a contract with Jubany-NAC Architecture to provide architectural services as required to provide Division of the State Architect (DSA) certifications for Pine Street Child Development Services relocatable classroom buildings at the Olympic High School site.

Funding Information:

Budgeted: Yes

Fund: 21

Source: Building Fund

Account Number: 21-00000-0-00000-85000-5802-014-2600

Description: Consultant Services

COMMENTS: Prior to submittal of the Olympic High School Measure BB project to DSA, previous projects on the site that were closed without DSA certification must be certified. In order to obtain certification for the relocatable classroom buildings that are used by the Pine Street Child Development Services, the architect of record for the original submittal has been asked to assist the District with obtaining the required certification. The proposed contract amount for these services is \$19,036, including an allowance for reimbursable expenses.

Previously, it was intended that Harley Ellis Devereaux (HED) would complete this work and a Board item was approved on November 6, 2008 for additional services for HED. However, after further research, it became apparent to staff that it would be more appropriate to have Jubany-NAC provide these services.

This scope of work was anticipated in the cost projections for the Measure BB budgets.

RE: SANTA MONICA HIGH SCHOOL SITING STUDY AND CONCEPT A -  
FINAL BUILD OUT

RECOMMENDATION NO. A.37

Staff recommends the Board of Education receive the attached Santa Monica High School Siting Study by R. L. Binder FAIA Architecture and Planning.

Staff further recommends that the Board direct District staff to continue discussions with the City of Santa Monica and City Redevelopment Agency staff about shared-use opportunities and financing strategies for long-term redevelopment of the Santa Monica High School campus, based on Concept A-Final Build Out.

DISCUSSION:

At its January 17 and February 4, 2008 meetings, the Board approved the preparation of the Siting Study by R. L. Binder to develop potential short-term and 20-year term design concepts for the Santa Monica High School (Samohi) campus to meet its functional and programmatic needs, expand opportunities for shared public use of its facilities and develop linkages between the campus and the Civic Auditorium Campus to the southwest.

The Samohi Measure BB Site Committee discussed two concepts and three intermediate phases under development during preparation of the Siting Study that were presented by R.L. Binder at its May 7, 2008, meeting. The Committee unanimously recommended further exploration of Concept A-Final Build Out. (See three attached renderings.)

Concept A-Final Build Out envisions a long-term phased redevelopment of Samohi that provides for the Michigan Avenue alignment (the Michigan Commons) opening from East to West allowing Samohi campus use during school hours and public use including bicycle and pedestrian paths in the afternoons, evenings, and on the weekends with a secured campus north and south of the Commons. Included also is the development of three primary campus quads: An Art Plaza, Science and Tech Quad, and "Main Street," as well as smaller outdoor gathering spaces along the Michigan Avenue Commons.

Additional Concept phases may include relocating the gyms and natatorium under a new soccer field to the north and east, which would open the renovated Greek Theatre to the west and provide a vista to the History Building sited on the top of the campus hill to the entire community, redefine the nature of Pico Blvd.

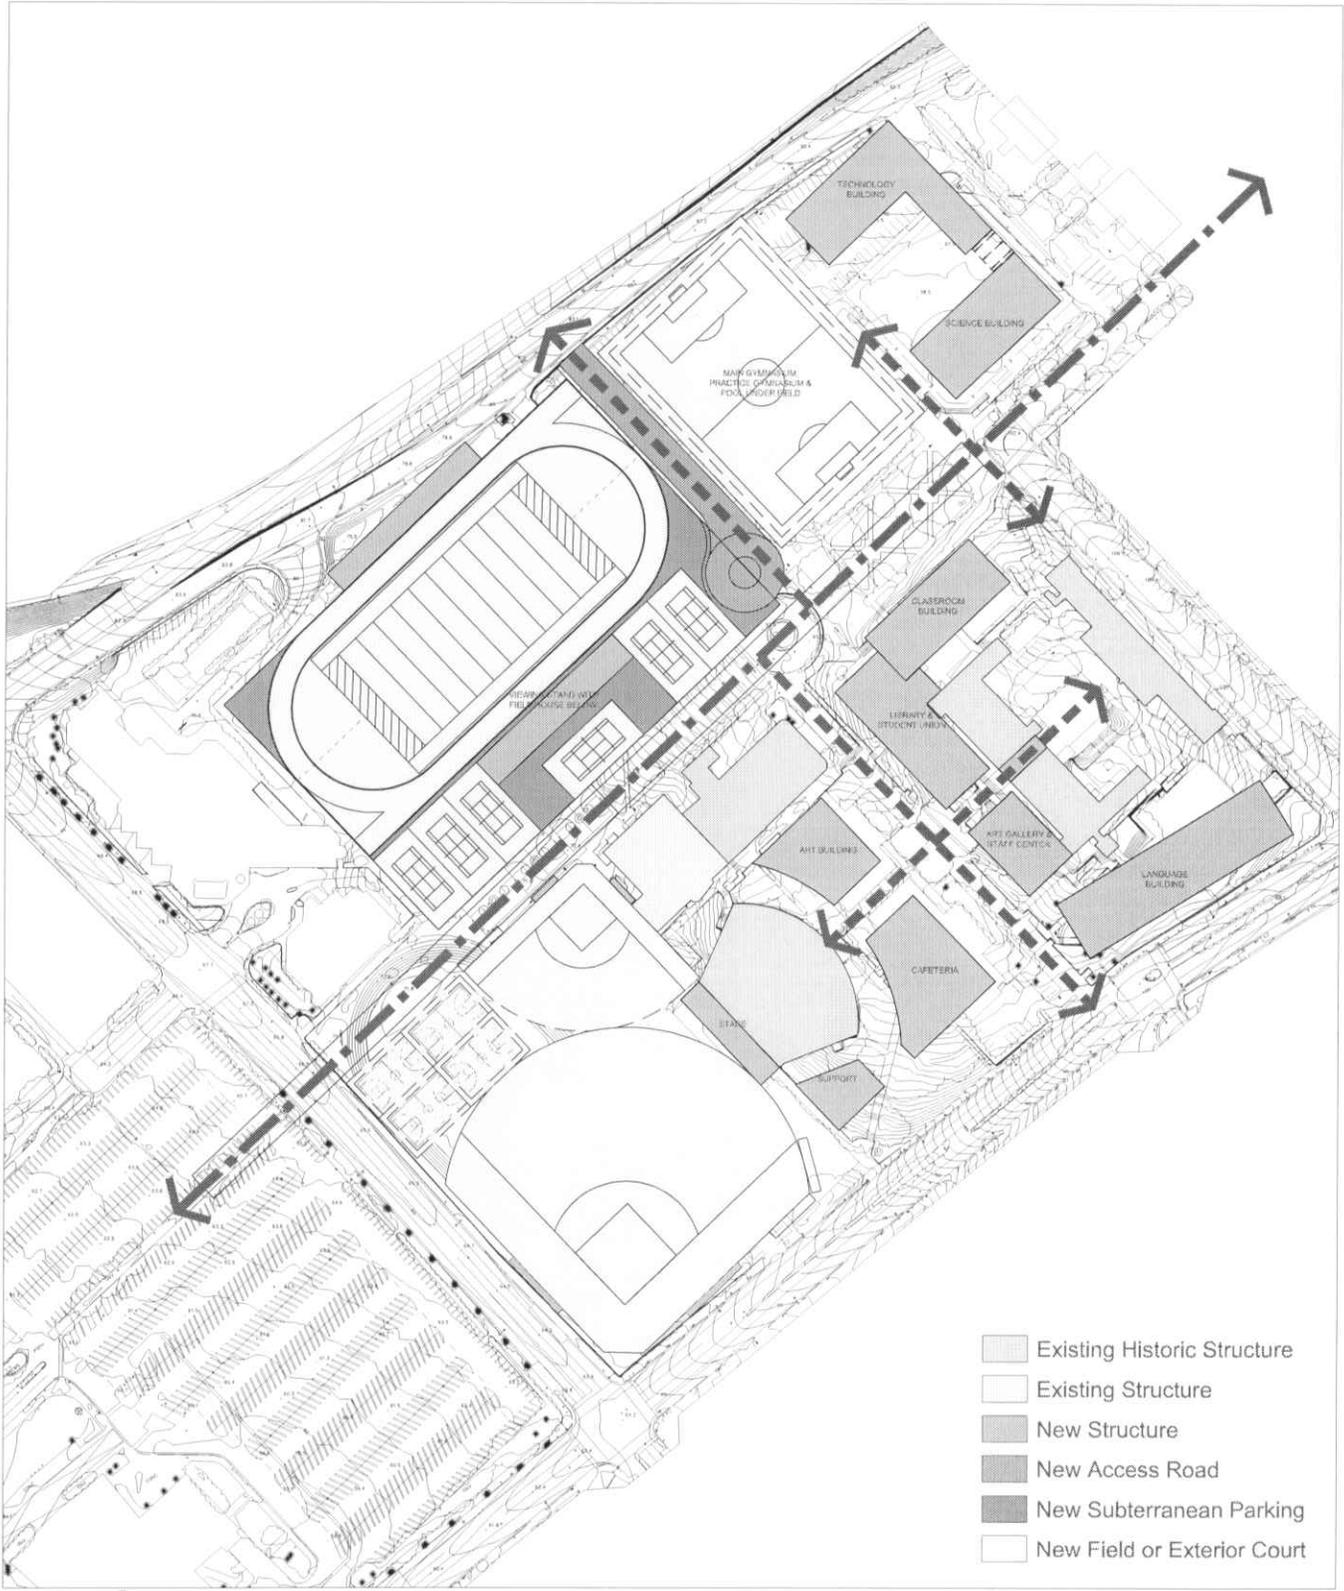

and 4<sup>th</sup> Street and strengthen and enliven the connection to the Civic Auditorium Campus. The fields would be open to public view and access.

The relocated gyms and pool would front a realigned and redesigned 6<sup>th</sup> Street allowing easy identification and access for students and the community alike. Subterranean parking under a new football stadium could be entered from Olympic Blvd. and pedestrians would exit the parking lot directly onto the Michigan Commons - with ready access to the fields, Barnum Hall and the landscaped promenade that traverses the campus - providing ease of movement and clear wayfinding throughout the campus and to the Civic Auditorium Campus west of 4th Street.

At its July 23, 2008, Santa Monica City Council meeting, R. L. Binder presented Concept A-Final Build Out, to much enthusiasm. Concept A, Final Build Out was also presented to the Board at its July 24, 2008, meeting. As discussed, this concept for Samohi provides a number of opportunities for significant new public use of the Samohi campus.

The Board of Education initially directed staff to work with the City of Santa Monica staff to request funding from the Redevelopment Agency at its June 26, 2008, meeting.

RE: APPROVAL OF 2007-08 SCHOOL ACCOUNTABILITY REPORT CARDS  
(SARCs) FOR ELEMENTARY, MIDDLE, AND HIGH SCHOOLS

RECOMMENDATION NO. A.40

It is recommended that the Board of Education approve the 2007-2008 School Accountability Report Cards for the following sites:

- Edison Language Academy
- Franklin Elementary School
- Grant Elementary School
- John Muir Elementary School
- Juan Cabrillo Elementary School
- McKinley Elementary School
- Point Dume Marine Science School
- Roosevelt Elementary School
- Webster Elementary School
- Will Rogers Elementary School
- Santa Monica Alternative School House (SMASH)
- John Adams Middle School
- Lincoln Middle School
- Malibu High School
- Olympic High School
- Santa Monica High School

COMMENT: The School Accountability Report Cards (SARC) are mandated by California law and fulfill a reporting requirement of the No Child Left Behind Act of 2001. Each school's SARC must contain specific, discrete pieces of information mandated by the State of California, including test score results, demographic information, descriptions of professional development, and information about elements of Williams compliance (such as sufficiency of textbooks and information about building maintenance). School districts must post a School Accountability Report Card for each school in the district from the prior year (07-08) by February 1<sup>st</sup> of the end of the current school year (08-09). Once approved, SARCs are posted on our website and visited regularly by the public.

RE: EARLY DECLARATION RETIREMENT INCENTIVE

ACTION/MAJOR  
01/15/09

RECOMMENDATION NO. A.41

It is recommended that the Board of Education approve an early declaration retirement incentive.

COMMENT: As the District plans for the 2009-10 school year, staff is highly aware of budget reductions that may occur when the State of California revises the existing budget and creates the 2009-10 budget. As approximately 90% of the SMMUSD budget is personnel costs, it is clear that any reductions from the state may result in reductions in staffing. It is also clear that because of California Education Code and our employee agreements, any reductions in staff must be announced well in advance.

Every year, the District experiences a number of retirements. It will be very helpful for staff to know about any retirements in advance, as we can minimize the impact that any possible staff reductions will have on our employees. To that end, staff is recommending an early declaration incentive to any employee, certificated or classified, who signs an irrevocable letter of retirement, effective the last day of employment for the 2008-09 school year. This letter must be received no later than February 6, 2009. If the irrevocable letter of retirement is received by February 6, 2009, the District will make a payment of \$1,000, prorated on the percentage of full-time employment.

To be eligible, a retiree must have at least 10 years of salaried District employment, and be at least 55 years old by June 30, 2009. The Human Resources Department will have the form available for interested employees. The Human Resources Department will provide this information to all employees. All forms must be received by the Human Resources Department no later than 4:00PM on Friday, February 6, 2009.

*(Continued on next page)*

This is NOT an early retirement incentive. Early retirement incentives usually provide a much larger financial package which attempts to encourage employees to retire earlier than they may have planned. This is an early declaration incentive. It is intended for employees who have already decided to retire, but instead of waiting to put in the paperwork, they submit that paperwork early enough for the District to be able to plan more effectively.

DISCUSSION

FROM: TIM CUNEO / CHIUNG-SALLY CHOU / JANE JEFFRIES

RE: HEALTH SERVICES ANNUAL REPORT, UPDATE ON HEALTH CURRICULUM AND STUDENTS SEEN BY THE VENICE FAMILY CLINIC

DISCUSSION ITEM NO. D.01

This is a presentation of the Health Services Annual Report, which includes the number of student visits to the school site health offices, types of health conditions that are seen, number of different types of health screenings performed, Special Education assessments performed and meetings attended, along with reports filed and medications given. The different community agency referrals are listed. Diseases and medical conditions present in our student population, how they are monitored, and the treatment needed are discussed. Also included is the professional development completed by health services staff and health education projects that staff and students have undertaken.

In order to address whether or not mandated HIV/AIDS education is being provided in middle and high schools, a committee was formed to work with Educational Services to plan how to best deliver this health education to students and ensure its implementation. An eight-session planned curriculum for each Freshman Seminar class is in place this year and is being taught by one of the school nurses. The curriculum addresses HIV/AIDS and Drug Abuse.

The Venice Family Clinic sees students at SAMOHI two mornings per week. They see fifty to seventy students per month. These are students without health insurance. Dr. Loeza will discuss the diseases and health concerns that are seen by clinic staff.

*Mr. Allen requested an electronic copy of the nurses' report. The board suggested that staff write a letter to the Santa Monica City Council urging the city to reconsider its funding of the Jewish Family Services program, which provides counselors at the school sites.*

RE: ENROLLMENT PROJECTIONS REPORT - DECISIONINSITE

DISCUSSION ITEM NO. D.02

The Board of Education continues to authorize a detailed study of enrollment projections by DecisionInsite, a private company specializing in this area. The Board will hear a presentation on enrollment projections for the 2009-10 school year, which are based not only on enrollment in prior years, but on outside factors related to census data.

Last year's projections were highly accurate. Only Santa Monica High School's projection was significantly different than their actual enrollment. Accuracy in enrollment projections is critical for accurate budget forecasting, so this information is of utmost importance to the district's budget. Staff will be using the projection data for staffing allocations for the 2009-2010 school year, and is in the process of sharing the enrollment projections and initial staffing recommendations with schools.

A final report, written by the DescisionInsite company, is available in the Superintendent's Office. District staff and representatives from DecisionInsite will be available for questions and discussion at the meeting.

RE: REVIEW POLICY 3511.1 - INTEGRATED WASTE MANAGEMENT

RECOMMENDATION NO. A.03

It is requested that the Board of Education review and discuss Board Policy 3511.1 - Integrated Waste Management in preparation for action at their next regularly scheduled meeting. While the District has a variety of waste management or recycling efforts in place there is no written policy statement directing staff. The attached new policy, as recommended by CSBA, is being presented for Board consideration and comments. CSBA also provides an Administrative Regulation for districts to consider. A copy of the regulation is attached for the Boards information.

COMMENT: California school districts dispose of large amounts of waste (approximately 763,817 tons per year). These wastes represent a significant loss of natural resources and school district funds, as well as a potential threat to student/staff health and the environment. To be responsible stewards of environmental quality, school districts should review processes and operations, and even curriculum choices. They should evaluate the economic, educational, and environmental benefits of implementing an effective waste reduction program.

Incorporating waste reduction as part of the school district's overall way of doing business can provide a number of important benefits:

- Reduced disposal costs.
- Improved worker safety.
- Reduced long-term liability.
- Increased efficiency of school operations.
- Decreased associated purchasing costs.

*(Continued on next page)*

School district waste reduction programs also foster student achievement by transforming the school environment into a laboratory for learning and providing numerous opportunities for investigation through [environment-based education](#).

The California Integrated Waste Management Act requires that all California cities and counties reduce solid waste generation by 50 percent. School districts can play a critical role in a city or county's ability to realize this goal. As a result, a school district's host city or county is a natural partner in the evaluation of the existing waste management infrastructure and the development of a comprehensive district wide waste reduction program. The Santa Monica Malibu Unified School District is fortunate to be located within communities that actively and aggressively promote and support recycling efforts.

During the staff report on this item the focus will be recycling efforts at the District Office. Staff will describe current practices and report on how recycling efforts might be improved. Additionally, staff will present a brief description of what is occurring at individual school sites.

RE: SPECIAL EDUCATION COLLABORATIVE WORKING GROUP UPDATE

INFORMATION ITEM NO. I.01

The purpose of this item is to update the Board of Education regarding the progress of the Special Education Collaborative Working Group, which was appointed by Superintendent Tim Cuneo, convened in November 2008, and will work through February 2009.

**Report of Progress to Date:**

Three meetings have been held with the fourth one scheduled for January 14, 2009.

- **Third Meeting – Developed a list of prioritized recommendations:** By the end of this meeting we were able to:
  - Hold a lengthy discussion as to the process for the work
  - Review the prioritized lists and the rationale for each recommendations made by each pair (nine pairs of one parent and one SMMUSD staff member collaborated
  - Integrate the offerings to identify key ideas
  - Assign “homework” to work in self-selected groups of 4-5 on identifying the critical success factors for each recommendation
  - As is our practice, reflect together on the meeting and the work ahead

The following chart is the **PRELIMINARY** Priority Setting of the identified key areas to date given to each group as homework:

<b>Working Title</b>	<b>Rationale &amp; Strategies</b>
<b>Hire the Best Fast</b>	<b>Rationale:</b> <i>(tbd: is SMMUSD turnover on par with other districts? more problematic for some positions)</i> Teaching staff is the core of our SE offerings. The labor market is competitive. In particular, there is a need to streamline the hiring of classroom aides.
<b>Keep and Develop the Best</b>	<b>Rationale:</b> Turnover is costly (replacement, training and orientation) and disrupts relationships (students, families and classrooms) and the educational process. <b>Strategies:</b> Providing staff with ongoing development and training, tapping internal experts to train others (SE and GE teachers), working to bring services in house will benefit staff satisfaction and cost reduction. Creating a positive and professional work environment where teachers feel valued and respected is foundational.
<b>Establish a Policy of Inclusion</b>	<b>Rationale:</b> When SE education is an integral part of the total educational system, then students and families and SE staff are also treated as an integral part of the education community. <b>Strategies:</b> This paradigm shift depends on both policy mandate from the top, as well as site leadership to create a welcoming and inclusive local environment. It requires training General Education Teachers to follow specified accommodation and modifications and expanding the availability of collaborative classrooms beyond the pre-school level. It is also enabled by and programs like Circle of Friendship, Parent Resource Network and the outreach of local PTA’s. Some districts have hired Inclusion Facilitators to support classroom teachers.

<p><b>Strengthen Early Identification and Assessment</b></p>	<p><b>Rationale:</b> A systematic approach to early intervention for students showing signs of risk for academic failure and/or behavioral problems and working with families of younger children can prevent more serious problems, and mobilize resources and support for students, teachers, and families. It builds capacity, good will and can avert more costly and contentious situations.</p> <p><b>Strategies:</b> RTI is under development. Build on pockets of excellence in district schools. Continue to strengthen the efforts at the pre-school level, both at district sites and independent schools.</p>
<p><b>Working Title: Build Robust Technology Infrastructure</b></p>	<p><b>Rationale:</b> Communication from SE Department to sites, from Schools to parents, across SE staff is fragmented, unreliable, and archaic. SMMUSD needs a <b>21<sup>st</sup> Century Communication Platform</b>. Investment in technology and systems is vital to cultivating a culture of collaboration and transparency and accountability.</p> <p><b>Strategies:</b> phone broadcasts; email; website with information about district policy, program offerings, resources. Surveys to gauge satisfaction, emerging needs, etc.; standards and accountability</p> <p><b>Hot Button: why can't/won't the District identify the resources and programs available?</b></p>
<p><b>Working Title: Assure that IEP Process follows the letter and spirit of the Law</b></p>	<p><b>Rationale:</b> There has been improvement and there are pockets of excellence, but the IEP process needs to be consistently administered across all sites. A perception of transparency and an experience of respect and collaboration will contribute to the building of trust. Once the plan is completed, parents want to know that services are being delivered. Attention must also be paid to ensuring a smooth transition between classes and grade levels.</p> <p><b>Strategies:</b> This will require consistent and transparent policies, protocols, and practices. Local and district roles, decision-making authority and accountability should be clarified. The perspective of parents and of teachers should be invited and respected.</p>

**To be addressed:**

- How do we assure that methodologies are being consistently implemented?
- How do we create a meaningful voice for parents around consideration of (research based/evidence based) methodologies?
- What will it take to make sure that the SE curriculum provides a meaningful education
- Should we develop a life skills curriculum for 18-2 year olds at a facility other than the high school

RE: ADMINISTRATIVE REGULATION 5111.1 - DISTRICT RESIDENCY

INFORMATION ITEM NO. I.03

For the Board of Education's information, the district has developed Administrative Regulation 5111.1 - District Residency, to accompany Board Policy 5111 - Admission. Since ARs do not require board approval, the attached AR is for the board's information.

Attached:

Administrative Regulation 5111.1 - District Residency

THIS IS A NEW ADMINISTRATIVE REGULATION

<u>NUMBER</u>	<u>ARTICLE</u>	<u>TITLE</u>	
5111.1	Students	District Residency	
<u>SUBTOPIC</u>	<u>POLICY</u>	<u>REGULATION</u>	<u>EXHIBIT</u>
Elementary and Secondary		X	

**DETAIL**

**Criteria for Residency**

A student shall be deemed to have complied with district residency requirements if he/she meets any of the following criteria:

1. The student resides with his/her parent/guardian within district boundaries. In the case of divorced parents, the student would attend school in the district of the parent who has primary physical custody. If the parents have 50/50 co-custody and one parent lives within the Santa Monica Malibu School District, the student may be enrolled in SMMUSD. (Education Code 48200)  
(cf. 5111.13 - Residency for Homeless Children)  
(cf. 6173 - Education for Homeless Children)
2. The student is placed within district boundaries in a regularly established licensed children's institution, a licensed foster home, or a family home pursuant to a court-ordered commitment or placement. (Education Code 48204)  
(cf. 6173.1 - Education for Foster Youth)
3. The student has been admitted through the district's interdistrict attendance program. (Education Code 48204)  
(cf. 5117 - Interdistrict Attendance)
4. The student is an emancipated minor residing within district boundaries. (Education Code 48204)
5. The student lives with a caregiving adult within district boundaries. (Education Code 48204)
6. The student resides in a state hospital located within district boundaries. (Education Code 48204)
7. The student is confined to a hospital or other residential health facility within district boundaries for treatment of a temporary disability. (Education Code 48207)  
(cf. 6183 - Home and Hospital Instruction)

District residency is not required for enrollment in a regional occupational center or program if there are openings in the program or class. (Education Code 52317)

The Superintendent or designee shall annually notify parents/guardians of all existing attendance options available

in the district, including, but not limited to, all options for meeting residency requirements for school attendance.

(cf. 5145.6 - Parental Notifications)

### **Proof of Residency**

Prior to admission in district schools, students shall provide proof of residency.

(cf. 5111 - Admission)

The Superintendent or designee shall annually verify the student's residency and retain a copy of the documents or written statements offered as verification in the student's mandatory permanent record.

(5 CCR 432)

Pursuant to Education Code 48204, a student shall be deemed a resident of the district if the student lives with a caregiving adult within district boundaries. Family Code 6552 provides an affidavit which authorizes a caregiver 18 years of age or older to enroll a minor in school and requires the caregiver's attestation that the student lives in his/her home. If the student stops living with the caregiver, Family Code 6550 requires the caregiver to so notify the school.

Upon enrollment of a student residing in the home of a caregiving adult within district boundaries, the caregiving adult shall execute, under penalty of perjury, the affidavit specified in Family Code 6552.

(cf. 5141 - Health Care and Emergencies)

Valid proof of residency may be established by documentation including, but not limited to, a combination of the following:

1. Picture Identification with local address
2. Utility service payment receipts
3. Business mail such as: bank statement, credit card statement, correspondence from doctor, dentist, health care provider, insurance broker.
4. Income or property tax payment receipts
5. An affidavit of residency completed by a resident with whom the family is living.

A California Department of Education Legal Advisory, dated March 3, 1995, recommended that districts address circumstances in which the district has a reasonable belief that parents/guardians have provided false or unreliable evidence of residency.

If any district employee reasonably believes that the parent/guardian of a student has provided false or unreliable evidence of residency, the Superintendent or designee shall make reasonable efforts to determine that the student meets legal residency requirements. The investigation of residence may include: written request to parents to provide adequate, current documentation establishing residence, interview with the student, observation of student's residence, door-knock to establish that student is in residence.

### **Safe at Home Program**

Government Code 6205-6211 authorize the Secretary of State to provide victims of domestic violence or stalking with a substitute address to use in place of their residence, work, or school address in all public records. SB 1062 (Ch. 639, Statutes of 2006) amended Government Code 6205.5 and 6206 to also include victims of sexual assault in this program. Under this program, the Secretary of State receives any mail sent to the substitute address and forwards it to the program participant's confidential address. Pursuant to Government Code 6207, the district must accept and use an address designated by the Secretary of State as a participant's substitute address. An August 27, 1999, letter from the Secretary of State clarifies that the substitute address should be used for all communication and correspondence with program participants. The participant will present a laminated identification card containing his/her substitute address and a four-digit authorization number. The district may verify the enrollment of a student in the program by contacting the Safe At Home program.

Program participants have been advised by the Secretary of State to provide administrators with their actual residence location only for school emergency purposes and to establish eligibility for residency.

When a student or parent/guardian participating in the Safe at Home program requests that the district use the substitute address designated by the Secretary of State, the Superintendent or designee may request the actual residence address for the purpose of establishing residency within district boundaries. The Superintendent or designee shall not include the actual address in the student's file or any other public record and shall instead use the substitute address for all future communications and correspondence. (Government Code 6206, 6207)  
(cf. 3580 - District Records)  
(cf. 5125 - Student Records)

## **Denial or Revocation of Enrollment**

Before any such revocation, the parent/guardian shall be sent written notice that the school has credible evidence that the student is not a resident of the district. The letter will indicate that the parent has the right, within ten days to provide adequate proof of residence to their child's school of attendance. If the parent/guardian fails to provide satisfactory evidence of residence, the student's enrollment shall be revoked on the Friday following the confirmation of non-residence.

RE: CORRECTION TO ADMINISTRATIVE REGULATION 5141.4 - CHILD  
ABUSE PREVENTION AND REPORTING

INFORMATION ITEM NO. I.05

On July 24, 2008, the Board of Education approved revisions to Board Policy 5141.4 - Child Abuse Prevention and Reporting. The Administrative Regulation (AR) that accompanied the Board Policy accidentally included paragraphs that do not belong in the AR.

Attached is the corrected Administrative Regulation. The paragraphs that are to be deleted have been crossed out. Because Administrative Regulations do not require board action, this item is included in the agenda as information.

**THIS IS A CORRECTED SMMUSD ADMINISTRATIVE REGULATION**
