COMMENT: According to the Education Code SEC.21 Section 56342, prior to recommending a new or continued placement in a non-public, non-sectarian school, the Individualized Education Program (IEP) Team must submit the proposed recommendation to the local governing board for its review and recommendation regarding the cost of such placement.

The recommendations for these severely handicapped students are made by the District IEP Teams in accordance with State and Federal laws. The mandates of IDEA require non-public school services be provided at no expense to parents if there is not an appropriate public school program available. Funding to come from a SELPA-wide non-public school/non-public agency reserve account.

RE: AUTHORIZATION TO USE SIMPLEX GRINNELL GENERAL SERVICES  
ADMINISTRATION (GSA) CONTRACT FOR FIRE AND SECURITY SERVICES –  
CONTRACT GS-07F-0396M

RECOMMENDATION NO. A.09

It is recommended that the Board of Education authorize the District to use the Federal GSA contract awarded to Simplex Grinnell, to purchase fire and security equipment and appropriate services specified under contract #GS-07-0396M as applicable to the District's Maintenance Department and Measure BB project requirements.

COMMENT: The GSA contract allows for both fire alarm, security, and emergency disaster equipment purchases and all services necessary to install the equipment from design to start-up, including maintenance and training at the lowest offered pricing. The contract period is from July 1, 2007, through June 30, 2012. By using the contract, it will allow District projects to be completed in as expeditious manner as possible, without having to publically bid the equipment and services for each individual project. Furthermore, by using the direct pricing structure in the contract, it eliminates going through a General Contractor who would mark-up the products and services, charging retail pricing instead of the Federal contract rates, thus saving the District considerable money.

All orders using this contract must comply with GSAM Construction clauses, Davis-Bacon and Federal Acquisition Regulations (FAR).

The Los Angeles County Department of Ed allows Districts to "piggy back" off of the GSA contracts with no restrictions other than standard Public Works contracting requirements. GSA limits the contract to \$750,000 per project.

RE: AWARD OF BID #10.22.BB-03-113115 – CABRILLO ELEMENTARY SCHOOL SAFETY PROJECT – LOWEST RESPONSIVE RESPONSIBLE BIDDER – MEASURE BB

RECOMMENDATION NO. A.10

It is recommended that the Board of Education award Bid #10.22.BB-03-113115, Cabrillo Elementary School-Safety Project, to the lowest responsive responsible bidder, in an amount in the range of \$139,632 - \$158,200.

Funding Information

Budgeted: Yes  
Fund: 21  
Source: Building Fund  
Account Number: 21-00000-0-00000-85000-6200-017-2600  
Description: Construction Services  
DSA #: 03-113115

COMMENTS: The bidding opportunity for the Cabrillo Elementary School Safety project was advertised in the Malibu Surfside News and The Daily Breeze on 8/19 & 8/26; bid solicitations were emailed and fax blasted and published in The Bluebook of Construction. Direct invitations were solicited to multiple local and non-local contractors. Fourteen (14) contractors attended the mandatory job walks held on August 31<sup>st</sup> and September 2, 2010. Pre-Qualifications were received from ten (10) contractors of which six (6) were qualified to bid. Four (4) submitted bids, all four (4) were responsive as follows:

APW Construction	\$158,200
H.C. Olsen Construction	\$147,644
C&W Construction Specialties	\$139,632 <i>(pending apparent low bidder conference)</i>
South Bay Landscaping	\$95,725 <i>(withdrawn)</i>

A post bid interview was conducted with South Bay Landscaping to review their bid and the scope of the project. At that time they indicated that they had made a technical error in the preparation of their bid. The District has received a letter formally withdrawing their bid due to technical error.

A post bid interview was conducted with C&W Construction Specialties to review their bid and the scope of work of the project. The team is currently evaluating the bid submitted by C&W Construction Specialties to ensure that the project scope is as intended at the job walk and that all prevailing labor rates are being adhered to.

Notice to Proceed will be issued to the lowest responsive responsible bidder so the project schedule is not impacted.

*(Continued on next page)*

A board agenda item will be presented at the November 4, 2010, meeting ratifying the contract award to one of the two bidders listed above, as determined to be the lowest responsive responsible bidder.

The board approved construction budget is \$108,000. Once the contract award amount is determined, the Measure BB Advisory Committee and the Board of Education will be requested to adjust the construction budget to the contract award amount. All possible bidders will fall within the project (site) budget. A board item for the budget adjustment will be presented at the November 4, 2010 BOE meeting.

A Friday memo will accompany this Board Item.

Description: Consultant Services

COMMENTS: The Board of Education previously approved Converse Consultants as one of the three (3) pre-qualified Geotechnical consultants on the cities of Santa Monica and Malibu. The firms are being assigned projects as the need arises and depending on their familiarity with and availability for the assignment. On 5/26/2010, the Board of Education approved Contract Amendment #5 with Converse Consultants to provide Geotechnical Observation and Testing Services for the John Adams MS - Site Improvements at Perimeter of Athletic Fields (Green Fringe) Project.

During construction of the Green Fringe project, it was determined that a portion of the existing sewer should be replaced to support the John Adams Middle School - Replacement of Classroom Buildings E, F & G, New Administration, Modernization and Site Improvements Project (Package 2B). As a portion of this replacement line runs through the area of work of the Green Fringe project, a proposal was requested for replacement of this portion of the sewer prior to the final hardscape being installed at the Green Fringe project. Additional geotechnical observation services are required for this scope of work that will be occurring in advance of the balance of the sewer replacement work.

Contract Amendment #7, for \$1,329, is for Geotechnical Observation and Testing Services during grading activities for sewer replacement at the John Adams Middle School - Replacement of Classroom Buildings E, F & G, New Administration, Modernization and Site Improvements Project – Green Fringe Project (Package 1). The revised contract total will be \$112,136. This cost was anticipated within the budget.

## **MAJOR ITEMS**

TO: BOARD OF EDUCATION  
 FROM: TIM CUNEO / DEBRA MOORE WASHINGTON  
 RE: REINSTATE LIBRARY POSITIONS FOR 2010-11

ACTION/MAJOR  
 10/21/10

RECOMMENDATION NO. A.23

At the October 7, 2010, board meeting, the Board of Education directed staff to bring this item back for action in order to reinstate the following positions: 3 FTE library assistants, .5 FTE librarian using Education Jobs and Medicaid Assistance Act funds.

COMMENTS: As a result of the 2010-11 budget process, the board reduced all elementary library coordinators, 1 FTE librarian, and 3 classified library assistants. In August, the board was able to reinstate the elementary library coordinators as a result of Save Our Schools Campaign funding. Staffing of the elementary libraries was one of the three goals of the campaign. The chart below, which was included in the October 7 agenda, compares the library staffing levels at the district's schools for the 2009-10 and 2010-11 years.

During Discussion Item No. D.02 on October 7, board members requested that this item return for action in order to reinstate the 3 FTE librarian assistants and .5 FTE librarian at Santa Monica High School. The board suggested an additional .5 FTE librarian be approved as permissive in case a .5 FTE librarian could not be hired and a full-time equivalent was necessary to fill the need. The board directed staff to fund these reinstated positions using anticipated monies from the federal Education Jobs and Medicaid Assistance Act. The budget adjustment for salary and benefits would be \$180,000 for the three Library Assistants and \$95,000 for a 1.0 FTE Librarian for a total of \$275,000. Because these are one-time funds, staff does not recommend reinstating these positions.

RE: ANNUAL PUBLIC HEARING AND ADOPTION OF RESOLUTION NO. 10-11 ON  
SUFFICIENCY OF INSTRUCTIONAL MATERIALS AND WILLIAMS  
SETTLEMENT INSTRUCTIONAL MATERIALS FUNDS

RECOMMENDATION NO. A.24

In May 2000, the American Civil Liberties Union filed a lawsuit against the State of California claiming that the state had failed in its duty to provide students with equal educational opportunity. That lawsuit, known as Williams v. State of California, was settled in August 2004. SMMUSD has engaged in several accountability measures in order to comply with the Williams lawsuit settlement. Among the measures is the requirement to inventory all Board of Education-adopted core materials, including: English, Mathematics, Social Studies, Science, Foreign Languages, Health, and laboratory science materials.

Assembly Bill 831, Chapter 118, Statutes of 2005, took effect July 25, 2005. AB 831 modified the annual public hearing requirement in Education Code (EC) Section 60119 and modified the expenditure requirements related to Williams instructional materials funds. Under EC Section 60119, the governing board of every local educational agency (LEA) that receives state instructional materials funds must hold an annual public hearing before the end of the eighth week from the first day pupils attend school for that year. At the public hearing, the governing board must make a determination as to whether each pupil in each school has sufficient textbooks or instructional materials, or both, that are aligned to the content standards and are consistent with the content and cycles of the curriculum framework adopted by the State Board of Education in reading/language arts, mathematics, science, and history-social science. In addition, the definition of sufficiency now provides that each pupil, including each English learner, must have a standards-aligned textbook or instructional materials, or both, to use in class and to take home.

Tonight we will hold the annual public hearing of sufficiency, present our resolution on the adequacy of materials for all students, which includes our compliance and non-compliance with legal guidelines, and propose remedies for our areas of non-compliance. We request that the Board of Education adopt the resolution on the adequacy of materials for all students in the Santa Monica-Malibu Unified School District.

RE: GUIDANCE AND COUNSELING SERVICES AT SANTA MONICA  
HIGH SCHOOL

DISCUSSION  
10/07/10  
Postponed  
from 10/07/10

DISCUSSION ITEM NO. D.01

The Superintendent has requested that a discussion be held with the Board of Education regarding the guidance and counseling program services offered at Santa Monica High School.

School staff and representatives will be present to answer board members' questions regarding the scope of the program services and responsibilities of the advisors, the college counselors, and the student outreach specialists. They will also discuss how overlapping of responsibilities reinforces the services provided to all students.

\*\*\*\*\*

*Dr. Pedroza, Ms. Baxter, and Samohi's counseling and advising staff presented to the board. Their presentation can be found under Attachments at the end of these minutes.*

*Mr. Allen asked about graduation rates. Dr. Bradford said the official numbers have not yet been released. She said if a student leaves SMMUSD, but is not reported at another school, they are considered a drop-out. Dr. Pedroza said CAHSEE passage is also a factor. Mr. Allen asked if the district had the capability of tracking whether or not a student succeeds once in college. Ms. Baxter said there is not a systematic way for gathering that data. Mr. Allen asked about counseling special needs and gifted students. For special needs students, the counselors work closely with the teachers on IEPs and adapting the curriculum. Gifted students are directed toward SMC classes.*

*Dr. Escarce asked what could be done to increase the number of students applying to four-year universities. The counselors said they will be holding more workshops during weekends in addition to week nights. They are also actively seeking out and supporting those students who are eligible for applying to four-year universities. They also educate the families of students about the benefits of college.*

*Ms. Leon-Vazquez commented on how some seniors wait to apply to SMC, and then are unable to sign up for classes. The counselors said they encourage students to apply for SMC in January in case they decide to attend SMC rather than a four-year university.*

*Mr. Mechur asked how the counselors, college counselors, and advisors are divided among the houses. Dr. Pedroza explained the staffing matrix. Mr. Mechur asked how communication between teachers and counselors and students/parents could be improved. Dr. Pedroza said communication is improved by systematizing the outreach process.*

*Ms. Pye asked if there has been an increased need for crisis counseling during these difficult economic times. The counselors said there has been an increase for students and families. The PTSA and Alumni Association are also helping with donations to families. Ms. Pye asked about the approach for students who do not qualify for a university. The counselors said they focus on post-secondary options, including finding and building on career interests, such as digital arts, auto mechanics, etc.*

*Mr. Snell asked if the bullet points listed under Measurements for Success could be quantified. Ms. Baxter said they have much of that data. Dr. Pedroza added that the WASC accreditation process will also help to produce that data. Mr. Snell asked for the data to be broken out by gender and race/ethnicity. He asked the advisors if they have a way of identifying potential at-risk students and a plan to address their needs. Dr. Pedroza said as they assemble the master schedule, administration determines how to focus on tutorial students. The advisors work closely with these students and their families. They also collaborate with the middle schools to gain more insight into these students.*

*The board thanked the staff for its work and presentation.*

RE: 2010 SUMMER PROGRAMS UPDATE

DISCUSSION ITEM NO. D.02

A number of innovative and intensive summer school programs for SMMUSD students were held from late June through August 2010.

This presentation will report on the programs offered, including the enrollment figures, results from students' pre- and post-assessments, grades received, and survey data.

2010 summer program data, follow-up data for prior years' summer programs, as well as reflections and considerations from summer program teachers and administrators, will provide the basis for discussion of the 2010 IISS program and implications for future development and improvement of summer programs for 2011.

\*\*\*\*\*

*The presentation can be found under Attachments at the end of these minutes.*

*Mr. Snell asked how the summer school teachers are chosen. Dr. Bradford said, according to the union agreement, teachers submit a written application and there is a selection process.*

*Mr. Mechur asked about follow up for IISS students. Dr. Bradford said the summer school assessments are included in the student's file for the next year's teacher to review.*

*Dr. Escarce asked about staff's budgetary recommendations for IISS for next summer. Dr. Chou said senior staff has not yet discussed this, but would after the November 2 election.*

*Ms. Pye asked what made the Connect for Success parent night such a success. Ms. Serratore said the teachers called each of the parents to invite them and some of the parents were simply curious about visiting the Samohi campus for their children who would be in ninth grade in the fall.*

*Mr. Allen asked why Cohort 1 seemed to struggle more in the Young Collegians program. Ms. Serratore said it could have been due to a lack of communication between student and professor – the students may not have been aware of their grades until the end of the program.*

The Board shall comply with all other requirements for special meetings during an emergency meeting. (Government Code [54956.5](#))

If telephone services are not functioning, the notice requirement of one hour is waived and, as soon after the meeting as possible, the Board shall notify those media representatives of the meeting and shall describe the purpose of the meeting and any action taken by the Board. In the case of a dire emergency, the Board president or designee shall give such notice at or near the time he/she notifies the other members of the Board about the meeting. All such meetings shall comply with the Brown Act and shall be held in open session and within district boundaries. Action items shall not be included on the agenda for these meetings.

### **Other Gatherings**

Attendance by a majority of Board members at any of the following events is not subject to the Brown Act provided that a majority of the Board members do not discuss specific district business among themselves other than as part of the scheduled program: (Government Code [54952.2](#))

3. Participate in meetings or discussions of multiagency significance, provided these meetings are held within one of the other agencies' boundaries, with all participating agencies giving the notice required by law
4. Meet in the closest meeting facility if the district has no meeting facility within its boundaries or if it's principal office is located outside the district
5. Meet with elected or appointed state or federal officials when a local meeting would be impractical, solely to discuss legislative or regulatory issues affecting the district over which the state or federal officials have jurisdiction
6. Meet in or near a facility owned by the district but located outside the district, provided the meeting agenda is limited to items directly related to that facility
7. Visit the office of the district's legal counsel for a closed session on pending litigation, when doing so would reduce legal fees or costs
8. Attend conferences on nonadversarial collective bargaining techniques
9. Interview residents of another district regarding the Board's potential employment of an applicant for Superintendent of the district
10. Interview a potential employee from another district

Meetings exempted from the boundary requirements, as specified in items #1-10 above, shall still be subject to the notice and open meeting requirements for regular and special meetings when a quorum of the Board attends the meeting.

If a fire, flood, earthquake, or other emergency renders the regular meeting place unsafe, meetings shall be held for the duration of the emergency at a place designated by the Board president or designee, who shall so inform all news media who have requested notice of special meetings by the most rapid available means of communication. (Government Code [54954](#))  
Teleconferencing

A teleconference is a meeting of the Board in which Board members are in different locations, connected by electronic means through audio and/or video. (Government Code [54953](#))  
The Board may use teleconferences for all purposes in connection with any meeting within the Board's subject matter jurisdiction. All votes taken during a teleconference meeting shall be by roll call. (Government Code [54953](#))

During the teleconference, at least a quorum of the members of the Board shall participate from locations within district boundaries. (Government Code [54953](#))  
Agendas shall be posted at all teleconference locations and shall list all teleconference locations whenever they are posted elsewhere. Additional teleconference locations may be provided to the public. (Government Code [54953](#))

All teleconference locations shall be accessible to the public. All teleconferenced meetings shall be conducted in a manner that protects the statutory and constitutional rights of the parties or

the public appearing before the Board, including the right of the public to address the Board directly at each teleconference location. (Government Code [54953](#))

All Board policies, administrative regulations, and bylaws shall apply equally to meetings that are teleconferenced. The Superintendent or designee shall facilitate public participation in the meeting at each teleconference location.

  - 70% felt size was just right
  - 100% of teachers felt class size is very important to success of IISS program

## IISS Elementary School Teacher Reflections

- Scheduling
  - 60% felt four-week time frame was too short
  - 40% felt four-week time frame was about right

  - 30% felt right before the opening of the new year would be more effective
  - 20% weren't sure

“There are arguments to be made for either right after or right before school. Midway would not tie the instruction close enough to either what was just learned or about to be learned and I'm not sure we would see the long term benefits that our data is showing us”.

- 100% responded that class size is important to the program

“If one of the goals for this program is for our students to feel “connected” to Samo and the teachers before the fall, it is imperative to keep class sizes around 18-20 students. If the class size grows too large then it's hard to make those connections.”

## High School Administrator Reflections

- With the 4-day week, attendance did not significantly change.
- Both teachers and students were very positive about the 4-day week.
- Having the furlough week between school end and summer was helpful for the logistics of planning.
- One PD day seemed sufficient to challenge their practice and get set up.

49

## High School Administrator Reflections

- This year, students were not dropped after three absences unless the parent requested.
- This change resulted in some students earning Fs because they stopped coming to school
- 58 students used APEX on-line to work on 62 classes. 42 of them have completed a course. None of them earned an F.
- ESY was better connected to Credit Recovery program this year, but some earlier coordination will make that stronger.
- Connect for Success was a huge success.

50

## Credit Recovery Teacher Survey and Reflections

- Class Size (ranged from 8 to 31)
  - 27% reported class sizes too large
  - 9% reported class sizes too small
  - 64% reported class sizes about right
  - 82% reported class size is very important
  - 18% reported it is somewhat important

“These are students who did not do well in the large classes during the year. Most of these students need to work on skills and that is difficult when you have 26-30 students in a class.”

51

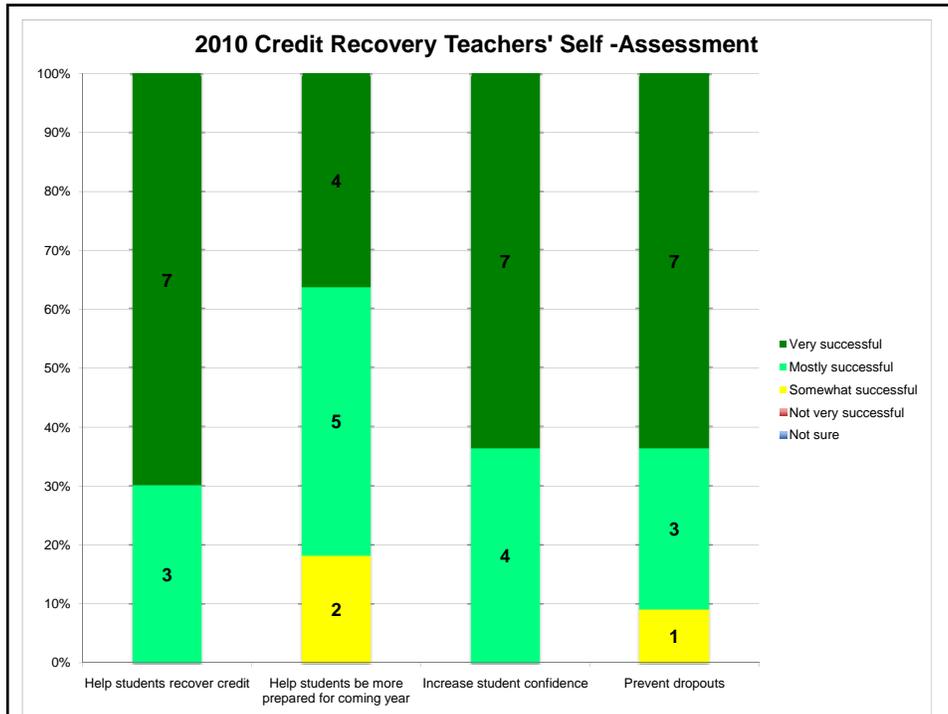

## Credit Recovery Teacher Survey and Reflections

- Schedule Changes
  - 64% reported new schedule was very effective for most students
  - 27% reported it was mostly effective for most students
  - 9% reported it was not very effective for most students

“Although the day was longer I think the shortened schedule was a benefit not only to the students but the teachers as well. I definitely felt more rested and recharged every Tuesday.”

“I think it gave the students a nice three day break and I believe there were less absences due to this schedule.”

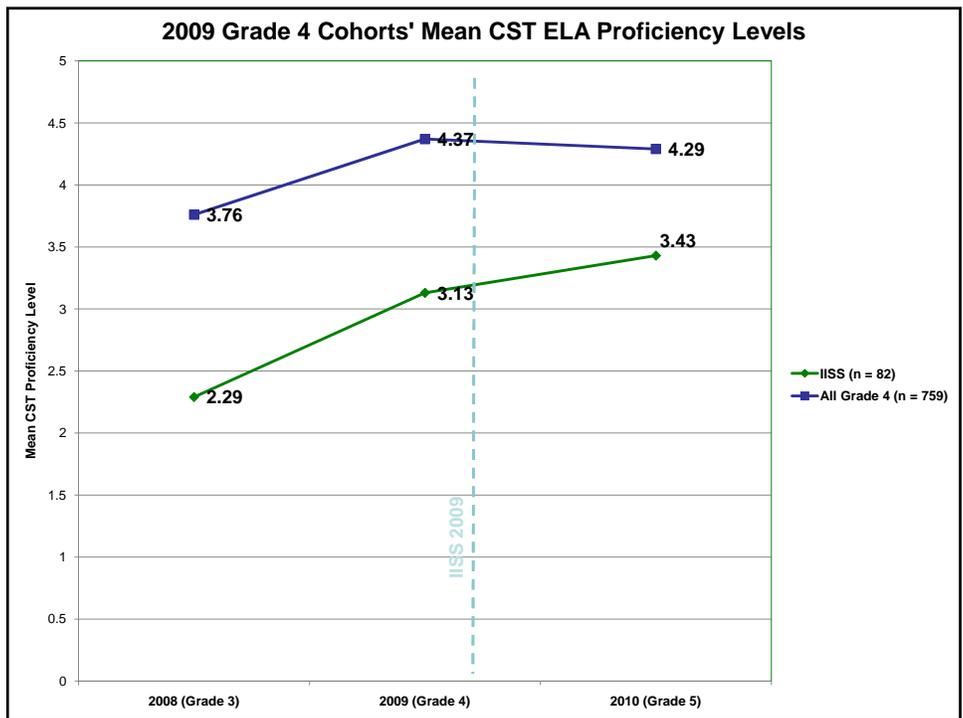

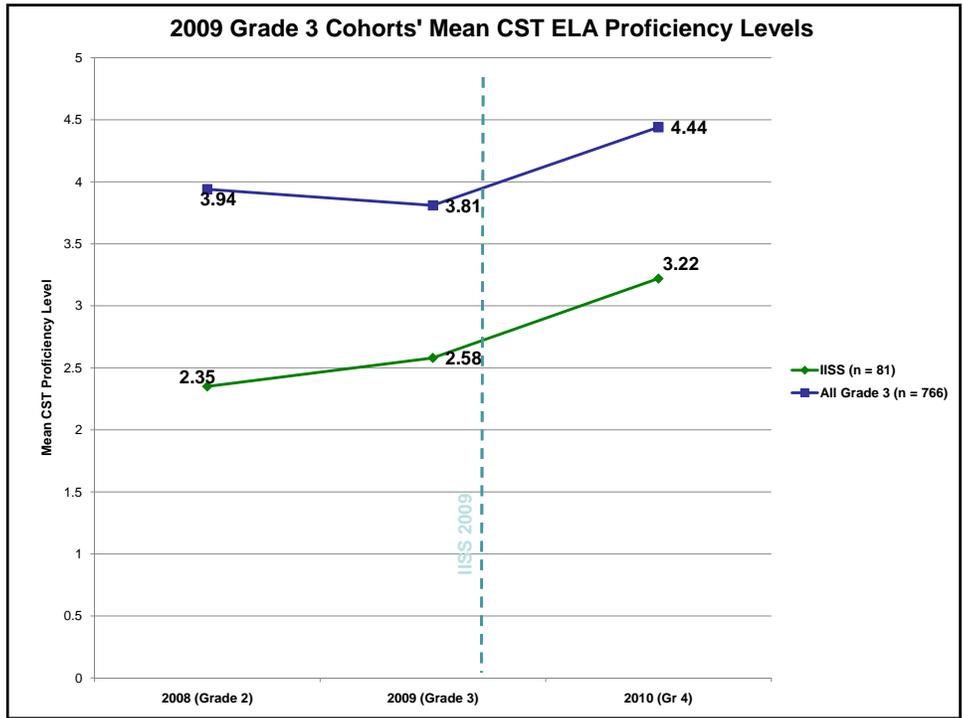

52

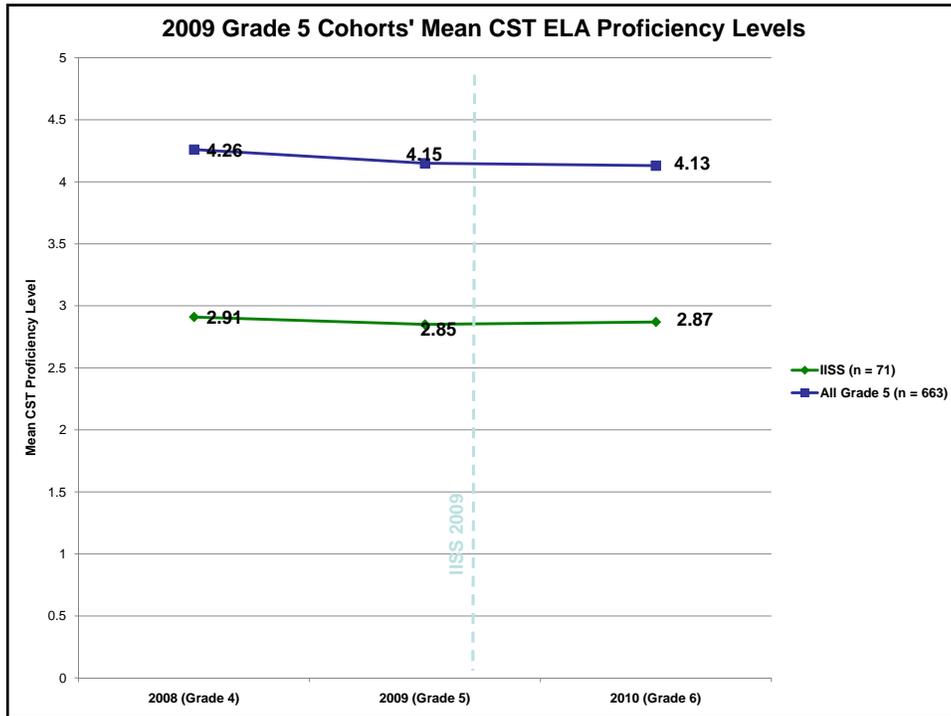

## IISS Program Impact

- Pre- and Post-Test data demonstrate students make gains over a short period of time.
- The bigger question is what impact does IISS have on students' achievement over time.
- This is difficult to measure with any certainty, given the multitude of factors that influence student achievement.

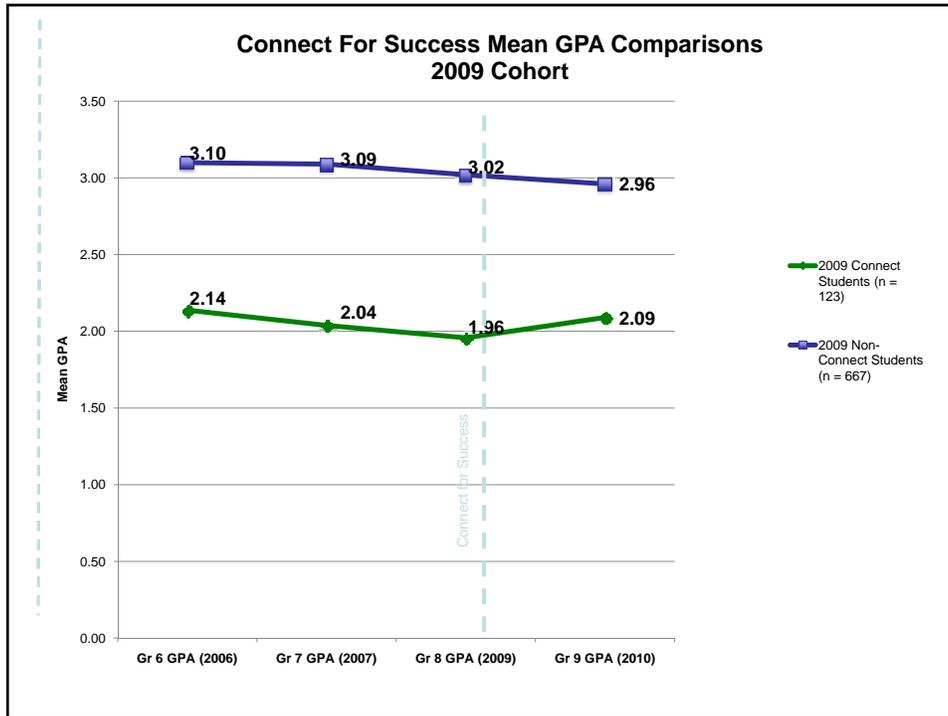

54

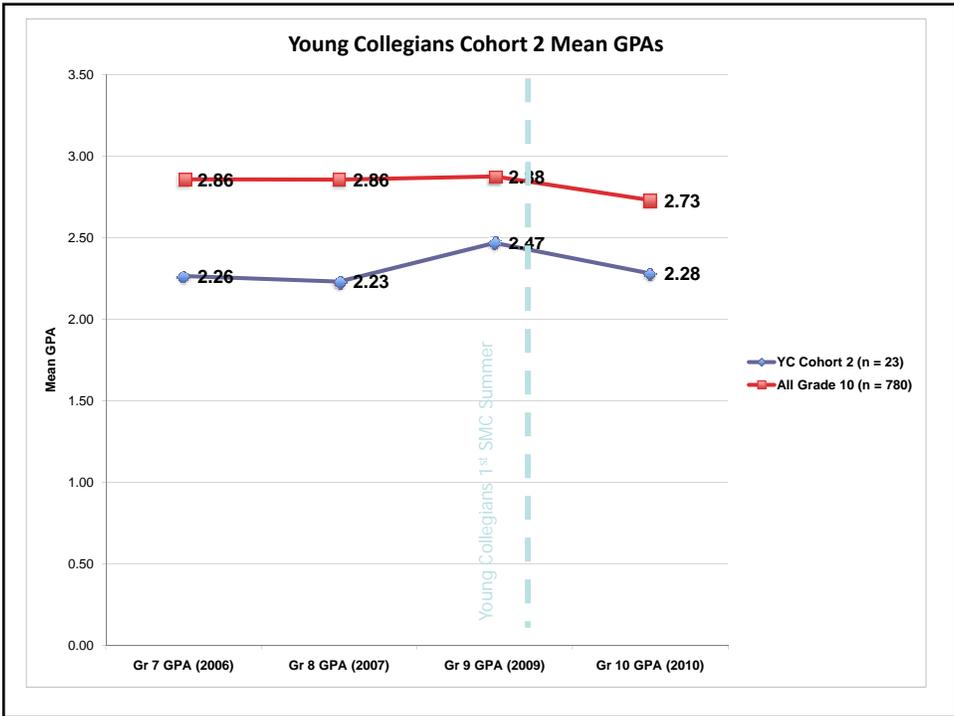

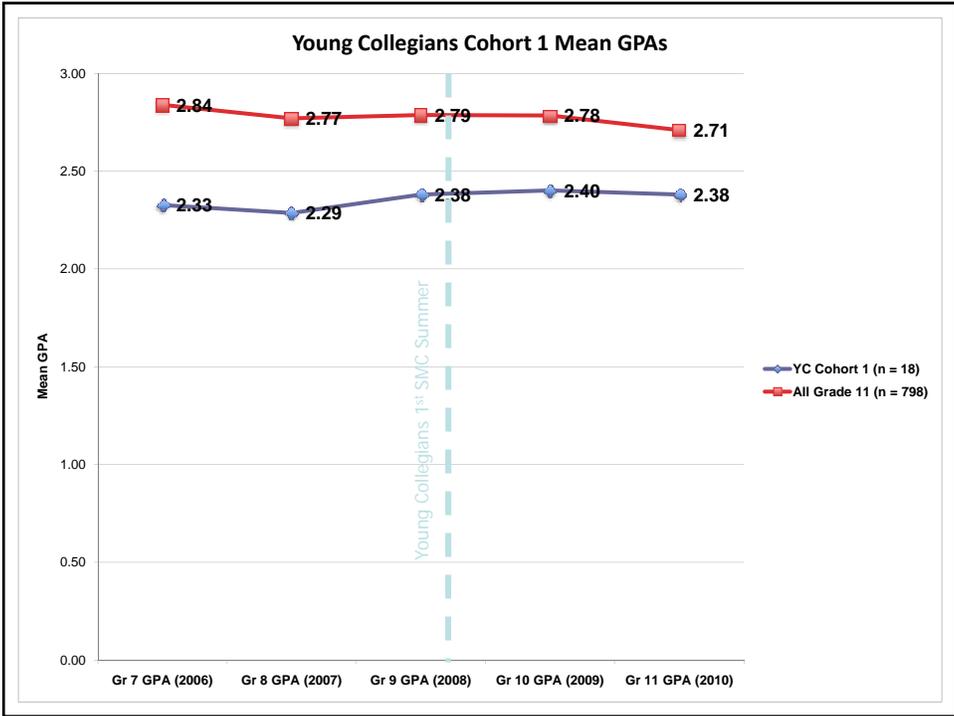

## Summer Program Impact: Connect for Success

- The GPAs for the 2009 Connect for Success group and the grade level as a whole were compared.
- Connect Students demonstrated an increase in their GPA from 8<sup>th</sup> to 9<sup>th</sup> grade.

## Summer Program Impact: Young Collegians

- The GPAs for Young Collegians Cohorts 1 and 2 are compared to the grade level as a whole.

## Summary of Findings

- Across all summer programs, there are some indicators of success
  - Pre/Post assessment data
  - Some evidence of increased CST achievement over time
  - Some encouraging GPA data
  - Course passage and credit recovery

63

## Summary of Findings

- Student, parent and teacher reflections report other indicators of success
  - Increased student participation
  - Increased student confidence
  - Easing of transition to middle or high school
  - Increased student aspirations

64

## Challenges for 2011

- Challenges of interdisciplinary approach
  - Jump Start interdisciplinary curriculum will need retooling: 4 week versus 5 week program?
  - Balancing students' instructional needs in math within an interdisciplinary, project-based program approach is a continuing challenge

65

## Challenges for 2011

- Uncertainties
  - Funding
  - Administrative staffing for planning and implementation
  - Adequate time for planning and implementation
