COMMENT: According to the Education Code SEC.21 Section 56342, prior to recommending a new or continued placement in a non-public, non-sectarian school, the Individualized Education Program (IEP) Team must submit the proposed recommendation to the local governing board for its review and recommendation regarding the cost of such placement.

The recommendations for these severely handicapped students are made by the District IEP Teams in accordance with State and Federal laws. The mandates of IDEA require non-public school services be provided at no expense to parents if there is not an appropriate public school program available. Funding to come from a SELPA-wide non-public school/non-public agency reserve account.

RE: REVISE BP 3110 – TRANSFER OF FUNDS

RECOMMENDATION NO. A.14

It is recommended that the Board of Education revise BP 3110 – Transfer of Funds.

COMMENTS: CSBA recommends this policy update to reflect new law (SB 70), which extends the flexibility for districts to use funds received for 39 "Tier 3" categorical programs for any "educational purpose" through the 2014-15 fiscal year. The policy also reflects new law (AB 189), which (1) clarifies that the required public hearing must be held prior to and independently of the board's regular budget adoption meeting and (2) requires that, whenever the proposed use of the funding will result in the elimination of a program, the notice for the public hearing must identify the program proposed to be eliminated.

The revised policy is attached.

This was discussed at the July 18, 2012, board meeting under Item No. D.03.

TRANSFER OF FUNDS

The Board of Education recognizes its responsibility to monitor the district's fiscal practices to ensure accountability regarding the expenditure of public funds and compliance with legal requirements.

The Board may transfer funds during or at the end of the fiscal year in accordance with law as necessary to meet district needs or to permit the payment of district obligations. (Education Code 16095, 17582-17592, 42600-42603, 42605, 42841-42843, 52616.4)

Tier 3 Categorical Flexibility

~~From the 2008-09 through 2012-13 fiscal years, the~~ The Board has determined that it is in the best interest of the district to utilize the categorical program flexibility authorized by Education Code 42605. Funds received for programs identified by law as Tier 3 categoricals may be expended for any educational purpose.

Before expending any Tier 3 categorical program funds for another educational purpose, the ~~the~~ Board shall hold a public hearing to take testimony from the public, discuss, and approve or disapprove the proposed use of the funding, and shall make explicit for each of the categorical budget items the purposes for which the funds will be used. (Education Code 42605)

Any such public hearing shall be held prior to and independent of the Board's regular budget-adoption meeting. Whenever the proposed use of the funding will result in the elimination of a program, the notice of the public hearing shall identify the program to be eliminated. (Education Code 42605)

During the hearing, the Board shall consider the district's goals for student learning and determine funding priorities and program focus. The Board may also discuss statutory constraints, available resources, and whether program modifications might improve educational outcomes.

The Superintendent or designee shall regularly report to the Board regarding how the district is exercising the flexibility and whether the desired results are being achieved. He/she shall also complete any necessary reports required by the California Department of Education.

RE: REVISE BP 7214 – GENERAL OBLIGATION BONDS

RECOMMENDATION NO. A.15

It is recommended that the Board of Education revise BP 7214 – General Obligation Bonds.

COMMENTS: CSBA recommends this policy update to include material formerly in the AR regarding the appointment of a citizens' oversight committee for bonds approved under the 55 percent threshold, to reflect new law (SB 423), which establishes a date by which audits must be given to the committee, and to provide an option for districts to establish citizens' oversight committee for bonds approved under the 66.67 percent threshold. Sections on "Certificate of Results" and "Resolution Regarding Sale of Bonds" have been moved from the AR to the BP since board action is required.

The revised policy is attached. (Revisions to the AR can be found under Item No. I.05 in the July 18, 2012, agenda.)

This was discussed at the July 18, 2012, board meeting under Item No. D.04.

MOTION MADE BY: Ms. Leon-Vazquez

SECONDED BY: Mr. Mechur

STUDENT ADVISORY VOTE: N/A

AYES: All (7)

NOES: None (0)

GENERAL OBLIGATION BONDS

The Board of Education desires to provide adequate facilities in order to enhance student learning and to help the district achieve its vision for educating district students. To that end, the Board may order an election on the question of whether bonds shall be issued for school facilities when, in the Board's judgment, it is advisable and in the best interest of district students.

The Board shall determine the appropriate size of the bond in accordance with law.

Bonds Requiring 55 Percent Approval by Local Voters

The Board may decide to pursue the authorization and issuance of bonds by approval of 55 percent majority of the voters pursuant to Article 13A, Section 1(b)(3) and Article 16, Section 18(b) of the California Constitution. If two-thirds of the Board agree to such an election, the Board shall vote to adopt a resolution to incur bonded indebtedness if approved by a 55 percent majority of the voters. (Education Code [15266](#))

The bond election may only be ordered at a primary or general election, a statewide special election, or a regularly scheduled local election at which all of the electors of the school district are entitled to vote. (Education Code [15266](#))

~~Bonded indebtedness incurred by the district shall be used only for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities. (California Constitution Article 13A, Section 1(b)(3) and 1(b)(3)(A))~~

Bonded indebtedness incurred by the district shall be used only for the following purposes: (California Constitution Article 13A, Section 1(b)(3) and 1(b)(3)(A))

1. The construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities
2. The acquisition or lease of real property for school facilities

The proposition approved by the voters shall include the following accountability requirements: (California Constitution Article 13A, Section 1(b)(3))

1. A requirement that proceeds from the sale of the bonds be used only for the purposes specified above, as detailed in California Constitution Article 13A, Section 1(b)(3), and not for any other purposes including teacher and administrative salaries and other school operating expenses
2. A list of specific school facility projects to be funded and certification that the Board has evaluated safety, class size reduction, and information technology needs in developing that list
3. A requirement that the Board conduct an annual, independent performance audit to ensure that the funds have been expended only on the specific projects listed

4. A requirement that the Board conduct an annual, independent financial audit of the proceeds from the sale of the bonds until all of those proceeds have been expended for the school facilities projects

If a district general obligation bond requiring a 55 percent majority is approved by the voters, the Board shall appoint an independent citizens' advisory oversight committee. This committee shall be appointed within 60 days of the date that the Board enters the election results in its minutes pursuant to Education Code 15274. (Education Code 15278)

The Superintendent or designee shall ensure that the annual, independent performance and financial audits conducted pursuant to items #3 and #4 above are issued in accordance with the U.S. Comptroller General's Government Auditing Standards. He/she shall submit the audits to the citizens' oversight committee by March 31 of each year. (Education Code 15286)

Bonds Requiring 66.67 Percent Approval by Local Voters

Bonds shall be sold to raise money for the following purposes: (Education Code [15100](#))

1. Purchasing school lots
2. Building or purchasing school buildings
3. Making alterations or additions to school building(s) other than as may be necessary for current maintenance, operation, or repairs
4. Repairing, restoring, or rebuilding any school building damaged, injured, or destroyed by fire or other public calamity
5. Supplying school buildings and grounds with furniture, equipment, or necessary apparatus of a permanent nature
6. Permanently improving school grounds
7. Refunding any outstanding valid indebtedness of the district, evidenced by bonds or state school building aid loans
8. Carrying out sewer or drain projects or purposes authorized in Education Code [17577](#)
9. Purchasing school buses with a useful life of at least 20 years
10. Demolishing or razing any school building with the intent to replace it with another school building, whether in the same location or in any other location

Except for refunding any outstanding indebtedness, any of the purposes listed above may be united and voted upon as a single proposition by order of the Board and entered into the minutes. (Education Code [15100](#))

Certificate of Results

If the certificate of election results received by the Board shows that the appropriate majority of the voters are in favor of issuing the bonds, the Board shall record that fact in its minutes. The Board shall then certify to the county board of supervisors all.

Resolution Regarding Sale of Bonds

Following passage of the bond measure by the appropriate majority of voters, the Board shall pass a resolution to issue the sale of bonds. The resolution shall prescribe the total amount of bonds to be sold and may also prescribe the maximum acceptable interest rate, not to exceed eight percent, and the time(s) when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds. (Education Code 15140)

Prior to the sale of bonds, the Board shall adopt, as an agenda item at a public meeting, another resolution, which includes all of the following items: (Education Code 15146)

1. Express approval of the method of sale
2. Statement of the reasons for the method of sale selected
3. Disclosure of the identity of the bond counsel, and the identities of the bond underwriter and the financial adviser if either or both are utilized for the sale, unless these individuals have not been selected at the time the resolution is adopted, in which case the Board shall disclose their identities at the public meeting occurring after they have been selected
4. Estimates of the costs associated with the bond issuance

After the sale, the Board shall be presented with the actual cost information and shall disclose that information at the Board's next scheduled meeting. The Board shall ensure that an itemized summary of the costs of the bond sale and all necessary information and reports regarding the sale are submitted to the California Debt and Investment Advisory Commission. RE: AMEND FINANCIAL OVERSIGHT COMMITTEE (FOC) STATEMENT OF PURPOSE

RECOMMENDATION NO. A.16

It is recommended that the Board of Education consider amending the Financial Oversight Committee (FOC) Statement of Purpose as proposed by the FOC.

COMMENT: At its meeting on February 21, 2012, the Financial Oversight Committee voted to recommend clarification and amend the FOC's Statement of Purpose. The Board must take action to amend the Statement of Purpose. The proposed language amendments are attached.

Ms. Maez explained the proposed language changes, explaining that they are consistent with procedures in the DAC policy. Ms. Lieberman noted that this Statement of Purpose was the only place where FOC procedures are mentioned. The FOC does not fall under the guidelines of the DAC policy because it is an oversight, not advisory, committee. Mr. Mechur stated that the Statement of Purpose was not an appropriate place to dictate the board's committee appointment procedures. Dr. Escarce supported keeping the sentence that was crossed out in Section III, but change "will" to "may." Mr. Patel concurred.

UPDATE

RE: ADOPT RESOLUTION NO. 12-03 – ORDERING AN ELECTION AND
ESTABLISHING SPECIFICATIONS OF THE ELECTION ORDER

RECOMMENDATION NO. A.19

It is recommended that the Board of Education adopt Resolution No. 12-03 – Ordering an Election and Establishing Specifications of the Election Order.

COMMENTS: The resolution before the Board calls an election within the District for the purpose of approving school bonds, to request the Los Angeles County Registrar of Voters to conduct the election on behalf of the District, and to authorize the preparation of election materials including ballot arguments and tax rate statement, to be included in the ballot pamphlet.

State law requires the Board of Education to order school district elections. The Los Angeles County Registrar of Voters will conduct the election on behalf of the District, including publishing all required notices. This resolution meets the statutory requirements for describing the projects to be funded with the proceeds of the bonds, which is included as Exhibit B to the resolution. A 75-word summary of the measure, as it will appear on the ballot, is also included in the resolution as Exhibit A. The resolution also authorizes the preparation and filing of a tax rate statement, which must be included in the ballot pamphlet, describing the anticipated rates of tax throughout the life of the bond issue. The resolution also authorizes, but does not commit, the Board and/or individual members of the Board to prepare and sponsor a ballot argument in support of the bond measure. No more than five (5) persons may sign the ballot argument.

This election will be called under constitutional and statutory provisions that require fifty-five percent (55%) voter approval, and certain accountability requirements, including annual independent financial and performance audits of how funds are spent, and the formation of a Citizens' Bond Oversight Committee. Following adoption, the resolution (including the signed tax rate statement) must be delivered to the Registrar of Voters and the Board of Supervisors. State law requires that 2/3rd of a school board support the resolution calling an election requiring 55% voter approval. At least ~~four (4)~~ five (5) Board members must be present and vote "Yes" in order to call the election.

This item came forward for discussion at the July 18, 2012, board meeting in conjunction with a recommendation from the Economic Feasibility Committee.

Public Comments:

- *Gus Hasseldust encouraged the board to include a senior exemption in the resolution. Staff explained that senior exemptions are not permitted in a bond measure and that bond payments are levied per assessed property value and not per parcel.*
- *Craig Foster and Karen Farrer expressed their concerns about Malibu schools receiving a fair share of the bond proceeds. Mr. Foster recommended adding language guaranteeing Malibu schools a minimum of 20% of the funds as well as forming a joint powers agreement.*
- *Debbie Mulvaney and Barry Snell, both representing CES (Community of Excellent Schools), expressed their support for the bond.*

Mr. Sam's presentation can be found under Attachments at the end of these minutes. He outlined future facility improvement project needs and guidelines, identified district needs, explained how these projects fit into the district's strategic plan for 2011-2016, and reviewed site project costs and plans. Ms. Maez added that the existing program, which was funded by Measure BB, was going very well, but that this was the next step for continuing facility projects. Ms. Lyon shared comments she had received from the parent community regarding placing a bond on the November ballot. She also reviewed both positive and negative sides of the issue; recognized existing community contributions and the volunteer time that would be required; expressed the need for technology benchmarks and access to enhance student learning and staff professional development; and addressed operational funding and the timing of a bond in November. Given these considerations, Ms. Lyon recommended that the board approve this resolution and move toward creating a new feasibility committee to explore operational revenue opportunities. Additionally, she recommended adding a Section 4 in the resolution: "That not less than 20 percent of the total net proceeds of the general obligation bonds be issued, in the event the election called for herein is successful, will be spent on projects (including related soft costs and incidentals) benefitting the schools within the Malibu area, including the City of Malibu and the unincorporated areas adjacent to the City of Malibu."

Mr. Allen asked PTA Council Co-President Lori Whitesell about feedback she had received regarding the timing of a bond in November. Ms. Whitesell replied that there would be a lot of work required to get consensus and does not know whether or not that could be achieved.

Mr. Kerrigan Bennett from Stradling Yocca Carlson & Rauth explained for Dr. Escarce the kinds of facility improvement equipment and furnishings that can be purchased with proceeds from a bond. Mr. Mechur did not support placing a bond in the November ballot, stating that there were unanswered questions and that the board owed it to the community to have a much better understanding of the district's plan. He felt, instead, the focus should be generating funds to cover operational needs; meanwhile, the district should develop a facilities master plan. Ms. Lieberman replied that operational money was important, but argued that if the board waited four or more years to pass a bond, another generation of students would be deprived of updated facilities and technology. She urged the board to pass the resolution and underscored the importance of a media campaign. Ms. Leon-Vazquez noted that if the board was to support this resolution and a bond was to pass in November, it would be approximately four years before any construction using new bond monies began. Dr. Escarce said he was open to more analysis, but stated that passing a bond measure would send a clear message to teachers, classified staff, and parents that while the board recognizes the great impact of funding operating costs, there is also a need to improve facilities and meeting technology demands. He endorsed the 20% allocation language for Malibu school and the committees recommended by the Superintendent. Mr. Patel thanked the feasibility committee for their hard work and loyalty to the children, complimented the Superintendent's report, and supported moving forward with the bond measure. Mr. de la Torre believed the timing was right for a November 2012 bond. He proposed additional language to the recital page: "WHEREAS the Board has approved policies to increase contracting opportunities for local businesses and desires to bolster local job creation through Project Labor Agreement and local hiring provisions." Staff replied that bond counsel will review the final additions to the resolution.

The 20% minimum guarantee for schools in Malibu will be added to the resolution.

"To improve academic instruction and school safety by modernizing high school classrooms and campuses, repairing aging elementary schools, ensuring every school meets current earthquake and fire safety standards to protect students, and constructing, acquiring, modernizing, and/or repairing classrooms, sites, facilities, equipment, computers, and learning technology to raise student achievement, shall the Santa Monica-Malibu Unified School District issue \$385,000,000 in bonds at legal rates, with independent fiscal oversight, mandatory audits, and all funds for Santa Monica and Malibu schools?"

PROJECT LIST

The **Board of Education** of the Santa Monica Malibu Unified School District **is committed to improving the quality of education by providing students and teachers with the facilities and equipment needed to prepare students for 21st Century academic and workforce standards.** To that end, the Board evaluated the District's urgent and critical facility needs, including **safety** issues, class size, computer and information technology, enrollment trends and prepared a report entitled "Future Projects" dated May 2012, which is incorporated herein in its entirety, to develop the scope of projects to be funded. The District conducted a facilities evaluation and received extensive public input in developing this Project List through school site meetings, community presentations and opinion leader input. Teachers, staff, community members and the Board have prioritized the key health and safety needs so that the most critical facility needs are addressed. The Board concluded that if these needs are not addressed now, the problems will only become more pressing and expensive to address. **Therefore, in approving this Project List, the Board of Education determines that the District MUST:**

- (i) **Upgrade and modernize classrooms, science labs, and computer systems with 21st Century instructional technology to meet modern academic standards.**
- (ii) **Increase earthquake safety of all school buildings.**
- (iii) **Support classroom programs to retain qualified teachers and protect the quality of classroom instruction in core subjects like reading, math and science.**

- (iv) Improve fire safety systems at all schools, so kids are safe.
- (v) Repair or replace old, leaky roofs, worn-out floors, rusty plumbing and faulty electrical systems.
- (vi) Adhere to specific fiscal accountability safeguards such as:
 - (a) PROHIBIT SACRAMENTO FROM TAKING ANY OF THE FUNDS RAISED.
 - (b) All expenditures will be subject to annual independent financial audits.
 - (c) No funds will be used for administrators' salaries and/or pensions.
 - (d) ALL FUNDS WILL STAY IN THE DISTRICT AND BE SUBJECT TO LOCAL CONTROL.
 - (e) An independent Citizens' Oversight Committee will be appointed to ensure that all funds are spent only as authorized.

The Project List includes the following types of upgrades and improvements at the District schools:

Local School Modernization, Repair and Upgrade Projects

Goal and Purpose: Since providing facilities and equipment needed to prepare students for college and good paying jobs in fields like science, technology, and skilled trades is critical, local schools will benefit from projects including:

- Repair or replace old, leaky roofs, worn-out floors and walkways, old rusty plumbing, and faulty electrical systems.
- Repair, modernize, construct and acquire classrooms, science labs, facilities, equipment and computer systems so that they comply with current standards.
- Add electrical service capacity to relieve overloaded electrical systems so that it can handle modern instructional technology.

School Earthquake and Fire Safety and Energy Efficiency School Projects

Goal and Purpose: Since good, safe and up-to-date schools help protect and improve local property values and reduce maintenance and operating costs, returning more money to the classroom, allowing the District to retain qualified teachers and protect instruction in core subjects like reading, math, science and technology, schools and school sites will benefit from a variety of health and safety projects, such as:

Student Safety

- Increase earthquake safety of school buildings.
- Upgrade fire safety systems including fire alarm equipment and sprinklers to make students safe in the event of an emergency.
- Upgrade schools to meet handicap accessibility requirements.
- Remove hazardous materials like asbestos and lead paint from older school sites.

Energy Efficiency – Returning Savings to the Classroom

- Install energy efficient systems to save money and protect the quality of instruction in core subjects like reading, math, science and technology.

- Replace older heating, ventilation, air conditioning and lighting systems with building code compliant, energy efficient systems which will save money on operating costs, allowing the District to retain qualified teachers.

District-Wide Instructional Technology and Wiring Projects to Maintain a High Standard of Achievement

Goal and Purpose: To upgrade classroom computers and computer technology to allow our teachers and students to be skilled in the use of 21st Century technologies and have a solid background in science, math and technology:

- Upgrade and maintain instructional technology in the classroom for improved student learning.
- Provide up-to-date technology, data and communication equipment.
- Upgrade and expand wireless systems, telecommunications, Internet and network connections.
- Upgrade and replace computers, hardware and software systems, classroom and library technology and teaching equipment to enhance instruction.

The listed projects will be completed as needed. Each project is assumed to include its share of furniture, equipment, architectural, engineering, and similar planning costs, program management, staff training expenses and a customary contingency, and escalation for unforeseen design and construction costs. In addition to the listed projects stated above, the Project List also includes the payment of the costs of preparation of all facility planning, facility assessment reviews, environmental studies, construction documentation, inspection and permit fees, and temporary housing of dislocated District activities caused by bond projects. The upgrading of technology infrastructure includes, but is not limited to, computers, projectors, portable interface devices, servers, switches, routers, modules, smart boards, sound projection systems, printers, digital white boards, document projectors, upgrade voice-over-IP, phone systems, call manager and network security/firewall, and other miscellaneous equipment and software. The District may establish a classroom technology fund to keep the technology up-to-date and ensure local schools keep pace with advancing technology. The repair of school facilities includes the upgrading/replacing school site parking, campus accessibility, roadways, entrances and exits, utilities, grounds, playground equipment, hard court surfaces, shade structures for student assembly and protecting students from inclement weather during lunch, libraries, and District support facilities; enhanced signage; fire sensors; athletic and play fields turf may be upgraded for safety and operational efficiency; construct or upgrade pools; renovate and paint interior and exterior building surfaces to extend their useful life; physical education facilities improvements; security, safety and communication systems and equipment; window and floor coverings (including tiles and carpeting); kitchen equipment; upgrade irrigation systems; improvements, related furniture and furnishings and/or electronic equipment and systems. The Project List also includes the refinancing of any outstanding lease obligations, or the bridge loans taken to initiate voter approved projects; the financing/refinancing of real property acquisition and improvements; acquiring, refinancing, and/or entering into arrangements for the joint use of real property for existing and future classrooms, student services, child care and/or other uses; and acquiring and/or entering into arrangements for the joint use of land, making site improvements, building infrastructure and/or constructing additional facilities thereon, for the purpose of expanding instructional programs to meet future educational demands. The allocation of bond proceeds may be affected by the District's receipt of State matching funds and the final costs of each project. In the absence of State matching funds, which the District will aggressively pursue to reduce the District's share of the costs of the projects, the District may not be able to complete some of the projects listed above. The budget for each project is an estimate and may be affected by factors beyond the District's control. Some projects throughout the District, such as gyms, fields and performing arts facilities, may be undertaken as joint use projects in cooperation with other local public or non-profit agencies.

The final cost of each project will be determined as plans are finalized, construction bids are awarded and projects are completed. Based on the final costs of each project, certain of the projects described above may be delayed or may not be completed. Demolition of existing facilities and reconstruction of facilities scheduled for repair and upgrade may occur, if the Board determines that such an approach would be more cost-effective in creating enhanced and operationally efficient campuses. Necessary site preparation/restoration and landscaping, may occur in connection with new construction, renovation or remodeling, or installation or removal of relocatable classrooms, including ingress and egress, removing, replacing, or installing irrigation, utility lines, trees and landscaping, redirecting fire access, and acquiring any necessary easements, licenses, or rights of way to the property.

Bond proceeds shall be expended only for the specific purposes identified herein. Proceeds of the bonds may be used to pay or reimburse the District for the cost of District staff when performing work on or necessary and incidental to the bond projects. The District shall create an account into which proceeds of the bonds shall be deposited and comply with the reporting requirements of Government Code § 53410.

FISCAL ACCOUNTABILITY: IN ACCORDANCE WITH EDUCATION CODE SECTION 15272, THE BOARD OF EDUCATION WILL APPOINT A CITIZENS' OVERSIGHT COMMITTEE AND CONDUCT ANNUAL INDEPENDENT AUDITS TO ASSURE THAT FUNDS ARE SPENT ONLY ON DISTRICT PROJECTS AND FOR NO OTHER PURPOSE. THE EXPENDITURE OF BOND MONEY ON THESE PROJECTS IS SUBJECT TO STRINGENT FINANCIAL ACCOUNTABILITY REQUIREMENTS. BY LAW, PERFORMANCE AND FINANCIAL AUDITS WILL BE PERFORMED ANNUALLY, AND ALL BOND EXPENDITURES WILL BE MONITORED BY AN INDEPENDENT CITIZENS' OVERSIGHT COMMITTEE TO ENSURE THAT FUNDS ARE SPENT AS PROMISED AND SPECIFIED. THE CITIZENS' OVERSIGHT COMMITTEE MUST INCLUDE, AMONG OTHERS, REPRESENTATION OF A BONA FIDE TAXPAYERS ASSOCIATION, A BUSINESS ORGANIZATION AND A SENIOR CITIZENS ORGANIZATION. NO DISTRICT EMPLOYEES OR VENDORS ARE ALLOWED TO SERVE ON THE CITIZENS' OVERSIGHT COMMITTEE.

No Administrator Salaries: Proceeds from the sale of the bonds authorized by this proposition shall be used only for the acquisition, construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, and not for any other purpose, including teacher and school administrator salaries and other operating expenses.
