#### STUDY SESSION ITEM NO. S.01

One of the major components of the Vision for Student Success is Literacy Support, which includes the addition of literacy coaches in our elementary schools for the 2014-15 school year. Staff was able to pilot literacy coach positions for the 2013-14 school year. Two literacy coaches, LaDawna Hamilton and Michael Ostrom, provided classroom-level support and schoolwide professional development in literacy at our four Title I schools.

Tonight staff will update the Board on the pilot program and will share progress made in implementing literacy coaches districtwide in August 2015.

## RE: CONSOLIDATED APPLICATION

#### **RECOMMENDATION NO. A.06**

It is recommended that the Board of Education approve the submission of the Consolidated Application to the State of California.

COMMENT: The Consolidated Application must be submitted to the California Department of Education in order for the district to receive state and federal categorical program funding. The application is submitted in several parts each school year. Following Board approval, the spring submission is to be submitted by June 30, 2014. This submission indicates that Santa Monica-Malibu Unified School District requests participation in federal programs including: Title I Part A Basic Grant (low income/low achieving students), Title II, Part A (Teacher and Principal Training and Recruiting), Title III Part A Immigrant, and Title III Part A Limited English Proficient Students. Other state programs, previously part of the Consolidated Application, are now subsumed within the Local Control Funding Formula and no longer flow through the Consolidated Application.

#### Federal Program Descriptions:

#### Title I Part A – Helping Disadvantaged Children:

This is a federal program to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging state academic achievement standards and state academic assessments.

#### <u>Title II Part A – Teacher Quality:</u>

This is a federal program that increases student academic achievement through professional development and strategies for improving teacher and principal quality.

#### Title III – Limited English Proficient Students:

This is a federal program that provides supplementary programs and services to limited-Englishproficient (LEP) students (known as English learners in California). The purpose of the program is to assist LEP students to acquire English and achieve grade-level and graduation standards.

Federal guidelines also allow local non-profit private schools to participate with the public school district in federal programs. Those participating private schools are identified in the application.

An additional submission of the Consolidated Application, which includes budget information, will be submitted to CDE in the winter after district funding entitlements are confirmed. This second submission will indicate the number of pupil participants and funding allocations for each school site participating in Title I Part A.

Each school site is required to have a comprehensive school plan known as the Single Plan for Student Achievement describing the strategies and activities to improve student achievement and meet district adopted standards through the supplementary services provided by these categorical programs.

Schools utilize highly qualified teachers, instructional aides, scientifically research-based intervention programs, tutoring assistance, materials and equipment, professional development,

district provided training, conferences and workshop attendance, expert consultants, and parent/community involvement activities to meet the needs of their students.

Each school site council is required to provide input and recommend to the Board the approval of planned program activities and budgets as part of the Single Plan for Student Achievement. The Director of Assessment, Research and Evaluation reviews program guidelines with all school administrators to insure appropriate implementation and compliance for each categorical program.

COMMENT: According to the Education Code SEC.21 Section 56342, prior to recommending a new or continued placement in a non-public, non-sectarian school, the Individualized Education Program (IEP) Team must submit the proposed recommendation to the local governing board for its review and recommendation regarding the cost of such placement.

The recommendations for these severely handicapped students are made by the District IEP Teams in accordance with State and Federal laws. The mandates of IDEA require non-public school services be provided at no expense to parents if there is not an appropriate public school program available. Funding to come from a SELPA-wide non-public school/non-public agency reserve account.

## RE: APPROPRIATION TRANSFERS AT SCHOOL YEAR-END – FY 2013-14

## **RECOMMENDATION NO. A.11**

It is recommended that the Board of Education approve the attached authorization to make appropriation transfers.

COMMENTS: The Los Angeles County Office of Education encourages District's Governing Boards to authorize the County Office to make appropriation transfers. The District will identify the source of the funds to be transferred. Copies of transfers will be sent to Santa Monica-Malibu Unified School District as they occur. This action is recommended by the Los Angeles County Office of Education and is a routine occurrence.

The provision of the Education Code that allows for this is Section 42601 as follows: "At the close of any school year a school district may, with the approval of the governing board, identify and request the County Superintendent of Schools to make the transfers between the designated fund balance or the unappropriated fund balance and any expenditure classification or classifications, or balance any expenditure classifications of the budget of the district for that school year as necessary to permit the payment of obligations of the district incurred during that school year. For each elementary, high school, and unified school district that during the preceding school year, had an average daily attendance less than the level, as appropriate, specified in subdivision (a) of EC 41301, the County Superintendent of Schools, with the consent of the Governing Board of the School District, may identify and make the transfers, and shall notify the districts."

Fiscal year-end posting of warrants or liabilities, or both, may cause overdraft in appropriation accounts, which will need budget transfers between major objects or reserve accounts. Authorizing these transfers to be made will facilitate our year-end closing process.

# SANTA MONICA-MALIBU UNIFIED SCHOOL DISTRICT BOARD OF EDUCATION

#### EMERGENCY RESOLUTION FOR AWARDING "Duct Cleaning at Malibu High and Cabrillo Elementary Schools" WITHOUT ADVERTISING

Action taken by the members of the Board of Education of the Santa Monica-Malibu Unified School District at a regular meeting held <u>June 25, 2014</u>.

**BE IT UNANIMOUSLY RESOLVED** by this Board that an emergency exists wherein certain repairs, alterations, work and improvements are necessary to permit the continuance of existing school classes, or to avoid danger to health, life or property, to wit:

As outlined in the Comprehensive PCB-Related Building Materials Inspection, Management and Removal Plan for the Santa Monica-Malibu Unified School District, as prepared by Environ, environmental consultants, the District must take immediate action to address environmental concerns at Malibu High and Cabrillo Elementary Schools. Duct cleaning is one of several steps in a Best Management Practices (BMP) cleaning to be completed this summer at both sites. The plan was developed due to a directive given to the District by Region IX of the Environmental Protection Agency (EPA). Since the project has a limited time frame to perform the work, the District has had to expedite the bidding procedure so that the contractor can start work at both facilities by June 19th. The District has issued Bid# 15.02, without advertising, and is waiting for proposals to be received on June 9, 2014.

This emergency procedure will enable the District to correct this condition by <u>August 1, 2014, at</u> <u>Malibu High and Cabrillo Elementary Schools.</u>

The job is estimated to cost between \$175,000 and \$500,000.

**BE IT FURTHER RESOLVED** that this Board makes contracts in writing on behalf of the District, without advertising for bids or inviting of bids for the performance of labor and furnishing of materials and supplies for such repairs, alterations, work and improvements.

**BE IT FURTHER RESOLVED** that before entering into such contracts, that the approval of the County Superintendent of Schools be secured to this resolution and to the proposed contracts.

Adopted this 25<sup>th</sup> day of June 2014

### RE: AUTHORIZATION TO USE NATIONAL JOINT POWERS ALLIANCE (NJPA) CONTRACT NO. 031913-SGL – SIMPLEX GRINELL FIRE EQUIPMENT

## **RECOMMENDATION NO. A.13**

It is recommended that the Board of Education authorize the use of the NJPA/Contract No. 031913-SGL to Simplex Grinnell for fire alarm, security, equipment, supplies and associated services per the terms and conditions of the public agency's contract on an as needed basis, through the extended contract period of April 2, 2017.

COMMENTS: School district governing boards have the authority to "piggyback" on another public agency's bid per public contract code section 20118 and 20652 when it is determined to be in the "best interest of the district." It is often advantageous for district to utilize piggyback bids when contract items are identical to the district's specifications. Using piggyback contracts saves time and money, and they often provide lower prices than a single jurisdiction would be able to obtain.

RE: CONTRACT AMENDMENT #10 FOR GEOTECHNICAL OBSERVATION AND TESTING SERVICES – SANTA MONICA HIGH SCHOOL – SCIENCE AND TECHNOLOGY CLASSROOM BUILDING AND SITE IMPROVEMENTS – AMEC ENVIRONMENTAL & INFRASTRUCTURE, INC. – MEASURE BB

## **RECOMMENDATION NO. A.16**

It is recommended that the Board of Education approve Contract Amendment #10 to AMEC Environmental & Infrastructure, Inc. for additional Geotechnical Services for the Santa Monica High School Science and Technology Building and Site Improvement Project for an amount not to exceed \$42,966, for a total contract amount of \$326,538.

Funding Information	
Budgeted:	Yes

Project:	Santa Monica High School
Budget Category:	Soft Costs/Environmental Testing/Geotechnical & Soils

COMMENTS: AMEC Environmental & Infrastructure, Inc. is providing Geotechnical Observation and Testing Services for the Santa Monica High School Science and Technology Building and Site Improvement Project. Contract amendment #8 was approved on March 5, 2013 for an amount of \$44,600. Contract Amendment #9 was approved on February 6, 2014 for an amount for \$35,193 for this scope.

AMEC's original price was based on a milestone schedule and the plans for a single phased project. Subsequently, the decision to keep the Science Building and only demolish the Technology building resulted in a redesign, now known as Phase II. The phasing of the work, and accommodations to maintain fire department access, has led to unanticipated out-of-sequence work with multiple move-ins. We have reviewed the work to be performed with the Inspector of Record, and he concurs that the additional geotechnical services will be required.

The estimated additional testing required to complete the Phase 1 portion of the project will result in a total add of \$28,875. AMEC has estimated that the partial cost for Phase 2 testing will be \$14,091. There are sufficient funds in the projects Soft Costs/Test & Inspection/Materials Lab budget category to cover this expense. It is recommended the Board of Education approve this amendment to allow for uninterrupted testing and observation. The revised contract total will be \$326,538.

District anticipates a future item to complete Phase II at a later date

Budget Category:	Hard Cost/Construction Contract				

COMMENTS: The Board of Education approved the Samohi Science and Technology budget that included the purchase of new equipment to support a 10Gig fiber backbone for the new construction. The total allocation for the technology infrastructure and equipment, not including installation is \$300,923.05.

> The bidding opportunity for RFP #14.01.BB, Provide Voice and Data Communications Equipment was advertised in December, 2013; bid solicitations were due on January 23, 2014. Direct invitations were solicited to multiple vendors capable of providing the required equipment.

Technology equipment is submitted as an RFP with very specific criteria. Qualified responses to the RFP must demonstrate that their proposed solution will meet the criteria established in the RFP. Three qualified responses were received from Meridian IT, NexusIS, and SIGMAnet and they have been evaluated by District IS staff and the District's Technology Consultant who assisted with the preparation of the RFP. The proposal from Meridian IT met all of the criteria of the RFP and provided the most competitive price.

NexusIS	\$318,519.86
SIGMAnet	\$313,717.39

Additionally, \$40,000 installation services allowance is required for onsite support, design, configuration and installation of equipment.

It is recommended that Meridian IT, being found to be the lowest responsive responsible bidder, be awarded the contract in an amount not to exceed \$340,923.05, including the allowance for installation services. The award amount is under the estimated costs for the RFP.

COMMENT: Contr	act Amendment #28 is to supplement the upanticipated servi

COMMENT: Contract Amendment #28 is to supplement the unanticipated services not completely included in the previous amendments. The District has recently increased the services of environmental monitoring since the original base contract.

On 11/04/14, Contract Amendment 20, Abatement, Demolition & Soil Remediation for \$69,555.00, the environmental monitoring portion provided an allocation balance of \$26,718.00 for a non-specific environmental monitoring. The exact scope of work was not specifically identified until the project interiors were completed and a walk through of the premises was conducted by a team of environmental engineers made up of the Parson's program management and Arcadis. As part of the commissioning process, the District has various options available to meet the Interior Air Quality requirements. The District has elected to complete all options including the most exhaustive which is the air sampling to determine compliance for occupancy.

This meeting determined the proposed scope as follows:

Task 1 – Baseline Indoor Air Sampling (completed Dec 23, 2013)	\$26,445
Task 2 – Indoor Air Assessment Tech Memo (completed 01/13/14	
Confirming Occupancy)	\$7,263
Task 3 – Follow-Up Indoor Air Sampling (completed January 23, 2013)	\$6,814
Task 4 – Comprehensive IAQ Report	\$11,505
Task 5 – Abatement Oversight and Monitoring	\$31,324
Task 6 – Abatement Close-Out Report *	\$3,629
Task 7 – Project Management and Technical Support **	<u>\$3,513</u>
Total all Tasks	\$90,493

The IAQ field sampling activities were conducted on December 20 and 23, 2013 and laboratory analyses were performed on 13 outdoor ambient air and 29 indoor air samples, including duplicates, from inside and outside the Edison Language Academy, and a rush turnaround time, so occupancy could occur on in January 2014 ARCADIS prepared and submitted an indoor air assessment technical memorandum (tech memo) to the SMMUSD on January 3, 2014. The memorandum also recommended performing additional air sampling to confirm data collected after occupancy, during the first round of sampling.

The additional air sampling was performed on January 20, 2014 there was no issues.

Cost to perform IAQ Evaluation Tasks (Tasks 1-4):	\$52,027
Amount deducted from CA #20:	<u>&lt;\$26,718 &gt;</u>
Cost to complete IAQ Tasks:	\$25,309
Cost to perform Abatement Tasks (*Tasks 5-6-pending EPA/Environ	
requirements):	\$34,953 *
Cost to perform Project Mgnt. Task (**Task 7-pending EPA/Environ	
requirements):	<u>\$3,513 **</u>
This proposed Contract Amendment Total cost to complete beyond CA#	20:
	\$63,775

The District will also be performing an approximate one year sampling at areas defined by the Environmental Engineers to monitor the interior air for ultra fine particulate matter. The scope and testing will begin upon the completion of the adjacent construction work which include the pre-school and site work. District anticipants further amendments to extend environmental services.

RE: REINSTATE COLLEGE COUNSELOR POSITION AT SANTA MONICA HIGH SCHOOL

**RECOMMENDATION NO. A.26** 

It is recommended that the Board of Education reinstate the third College Counselor position at Santa Monica High School to improve outreach to, and support of, under-represented students and their families.

COMMENTS: Last spring, the board did not allocate \$100,000 in the 2013-14 budget in order to allow the Santa Monica High School Principal time to evaluate the need of a third college counselor. During this evaluation period, it has been determined that two college counselors are unable to serve students beyond those who independently access the College Center for support. Unfortunately, many under-represented students either do not access this resource or access it too late to be as beneficial as it should. This third college counselor will allow sufficient resources to reach out and check in with these students and their parents early and often. Additionally, it will allow us to enhance outreach and access to the College Center for 9tha and 10<sup>th</sup> grade students. This would allow students to begin exploring careers and considering pathways early enough to inspire them into making sound and informed day-to-day decisions relative to their academic commitment and motivation.

#### RE: REVISE BP 6163.1 – LIBRARY MEDIA CENTERS

#### **RECOMMENDATION NO. A.28**

It is recommended that the Board of Education revise BP 6163.1 – Library Media Centers.

COMMENTS: CSBA recommends updating this policy to reflect new law (AB 97, 2013) eliminating the School and Library Improvement Block Grant and State Instructional Materials Fund, which could be used to purchase materials for school or classroom libraries contingent upon the development of a districtwide library plan. New optional language addresses the development of a library plan that is aligned with other district and school plans.

These changes were discussed at the June 5, 2014, board meeting.

#### Library Media Centers

The Board of Education Governing Board recognizes that school libraries library media centers support the educational program by providing access to a variety of informational and supplemental resources that can help raise the academic achievement of all students. The Board desires to provide library media centers that school libraries be stocked with up-to-date books, reference materials, and electronic information resources necessary to that promote literacy, support students in achieving academic standards, and encourage students to become lifelong learners.

The Superintendent or designee may, in consultation with teacher librarians, classroom teachers, administrators, parents/guardians, and students as appropriate, develop and regularly update a plan for school libraries that describes the district's goals for school libraries and how funds will be distributed to school sites to support libraries. As appropriate, the plan may also address staffing, facilities, selection and evaluation of materials, the development and maintenance of classroom libraries, prevention of loss or damage of library materials, prioritization of needs, and other related matters. The Superintendent or designee shall ensure that the library plan is aligned with the district's local control and accountability plan and other district and school plans.

#### RE: REVISE BP 6144 – CONTROVERSIAL ISSUES

#### **RECOMMENDATION NO. A.29**

It is recommended that the Board of Education consider revising BP and deleting AR 6144 – Controversial Issues.

COMMENTS: CSBA recommends updating this policy to incorporate material formerly in AR, reference policy that addresses appropriateness of supplementary instructional materials, add consultation with Superintendent or designee as needed to determine appropriateness of the subject matter or resource, add prior parental notification when required or deemed advisable, and add reference to appropriate complaint procedures.

The regulation has been deleted and incorporated into the BP.

These changes were discussed at the June 5, 2014, board meeting. The deleted AR can be found under Information in this agenda.

#### **CONTROVERSIAL ISSUES**

The Governing Board recognizes that the district's educational program may sometimes include instruction related to controversial issues that may arouse strong reactions based on personal values and beliefs, political philosophy, culture, religion, or other influences. Instruction concerning such topics shall be relevant to the adopted course of study and curricular goals and should be designed to develop students' critical thinking skills, ability to discriminate between fact and opinion, respect for others, and understanding and tolerance of diverse points of view.

The Board of Education believes that students should have opportunities to discuss controversial issues which have political, social or economic significance and which the students are mature enough to investigate and address. The study of a controversial issue should help students learn how to gather and organize pertinent facts, discriminate between fact and fiction, draw intelligent conclusions and respect the opinions of others.

The Board expects <u>administrators and</u> teachers to exercise <u>professional judgment</u> caution and discretion-when deciding whether or not a particular issue is suitable for study or <u>discussion</u>. in any particular class. They shall consult with the Superintendent or designee as necessary to determine the appropriateness of the subject matter, guest speakers, and/or related instructional materials or resources. Teachers should not spend class time on any topic which they feel is not suitable for the class or related to the established course of study.

The Board also expects teachers to ensure that all sides of a controversial issue are impartially presented, with adequate and appropriate factual information. Without promoting any partisan point of view, the teacher should help students separate fact from opinion and warn them against drawing conclusions from insufficient data. The teacher shall not suppress any student's view on the issue as long as its expression is not malicious or abusive toward others.

Teachers sponsoring guest speakers shall either ask them not to use their position or influence on students to forward their own religious, political, economic or social views or shall take active steps to neutralize whatever bias has been presented.

#### When providing instruction related to a controversial issue, the following guidelines shall apply:

- 1. The topic shall be suitable to the age and maturity of the students.
- 2. Instruction shall be presented in a balanced manner, addressing all sides of the issue without bias or prejudice and without promoting any particular point of view.
- 3. The teacher may express a personal opinion provided he/she identifies it as a personal opinion and clarifies that he/she is not speaking on behalf of the school or district. The teacher shall not express an opinion for the purpose of persuading students to his/her point of view.
- 4. No student's viewpoint shall be suppressed, provided such expression is not malicious or abusive toward others. Students shall be assured of their right to form and express an opinion without jeopardizing their relationship with the teacher or school.
- 5. Students shall be informed of conduct expected during such instruction and the importance of being courteous and respectful of the opinions of others.

- 6. Adequate factual information shall be provided to help students objectively analyze and evaluate the issue and draw their own conclusions.
- 7. The instruction shall not reflect adversely upon persons because of their race, ethnicity, national origin, sex, sexual orientation, gender identity or expression, disability, religion, or any other basis prohibited by law.
- 8. The subject matter of the instruction shall not otherwise be prohibited by state or federal <u>law.</u>

When a guest speaker is invited to make a presentation related to a controversial issue, the Board requires that he/she be notified of this policy and the expectations and goals regarding the instruction. If the guest speaker is presenting only one point of view on an issue, the teacher shall be responsible for ensuring that students also receive information on opposing viewpoints.

When required by law or otherwise deemed appropriate by the teacher or administrator, parents/guardians shall be notified prior to instruction related to any controversial issue and parent/guardian consent shall be obtained for student participation. Students whose parents/guardians decline such instruction may be offered the option to participate in an alternative activity of similar value.

A student or parent/guardian with concerns regarding instruction about controversial issues shall be directed to appropriate district complaint procedures.

### RE: ADOPT 2014-15 LOCAL CONTROL ACCCOUNTABILITY PLAN (LCAP)

#### **RECOMMENDATION NO. A.31**

It is recommended that the Board of Education adopt the District Local Control Accountability Plan (LCAP) for 2014-15.

COMMENT: As part of the Local Control Funding Formula, school districts are required to develop, adopt, and annually update a three-year Local Control and Accountability Plan (LCAP) beginning on July 1, 2014, using a template that was adopted by the California State Board of Education (SBE) in January 2014. The LCAP is required to identify goals and measure progress for student subgroups across eight state priority areas. Districts must include in their LCAP actions, services, and expenditures to be used to support students district-wide, as well as additional actions and services for low-income students, English learners, and foster youth. The LCAP and the district budget must be presented at a public hearing prior to the board meeting at which the LCAP and the budget are adopted. The LCAP must be approved by the school board at the same meeting, but prior to adoption of the district budget.

Developed with input from parents, teachers, administrators, students and community members, the LCAP follows the required template:

Section 1 describes the process used to engage parents, pupils, and the community and how this engagement contributed to development of the LCAP.

Section 2 describes annual goals and expected and actual progress toward meeting goals. This section must include specifics projected for the applicable term of the LCAP. The metrics may be quantitative or qualitative, although LEAs must, at minimum, use the specific metrics that statute explicitly references as required elements for measuring progress within a particular state priority area. Goals must address each of the state priorities and any additional local priorities; however, one goal may address multiple priorities.

Section 3 identifies annual actions, services and expenditures to be performed to meet the goals described in Section 2 and describes expenditures to implement each action, and where these expenditures can be found in the LEA's budget.

A public hearing for the LCAP 2014-15 occurred on June 19, 2014, and a final copy is attached.

#### **RECOMMENDATION NO. A.33**

It is recommended that the Board of Education formally complete the evaluation of Superintendent Sandra Lyon and amend her contract of May 5, 2011.

<u>COMMENTS</u>: In Closed Session at this meeting, the Board completed its evaluation of Superintendent Sandra Lyon.

The evaluation included both a summative assessment of the superintendent's performance in 2013-14 and identified superintendent and districtwide goals for 2014-15. The 2014-15 goals include:

Superintendent's Goals:

- Implementation of Professional Learning Communities (PLCs)
- Further Implementation of Response to Instruction and Intervention (RTI<sup>2</sup>)
- Implementation of Equity and Access for Student Success Plan
- Implementation of Common Core State Standards (CCSS)
- Deepening/expansion of Science, Technology, Engineering, and Mathematics (STEM) Curriculum

**Districtwide Goals:** 

- Vision for Student Success (VSS)
- Capacity Building/Leadership Development
- Facilities Improvement Projects Measure ES (Including Educational Technology)
- Communications

The Board arrived at these goals in collaboration with the Superintendent for 2013-14; due to their multi-year implementation process, the Board and Superintendent agreed that these goals will continue for the 2014-15 school year. The Superintendent will be working with the board to establish appropriate benchmarks.

The amendments to the May 2011 employment agreement include:

• 4% increase to base salary, effective July 1, 2013

A copy of the amended contract is available in the superintendent's office.

These changes were discussed at the June 5, 2014, board meeting.

#### Instruction

#### **CONTROVERSIAL ISSUES**

- 1. The issue is related to the course of study and provides opportunities for critical thinking, for developing tolerance, and for understanding conflicting points of view.
- 2. The issue has a meaningful relationship to matters of concern to the students.
- 3. Available information about the issue is sufficient to allow alternative points of view to be discussed and evaluated on a factual basis.
- 4. All sides of the issue are given a proper hearing, using established facts as primary evidence.
- 5. The issue has points of view which can be understood and defined by the students.
- 6. The teacher does not use his/her position to forward his/her own religious, political, economic or social bias. The teacher may express a personal opinion if he/she identifies it as such and does not express the opinion for the purpose of persuading students to his/her point of view.
- 7. Discussion or study of the issue is instigated by the students or by the established curriculum, but not by a source outside of the schools.
- 8. The discussion does not reflect adversely upon persons because of their race, sex, color, creed, national origin, ancestry, handicap or occupation.

#### District Advisory Committee Board of Education Annual End-of-Year Written Report 2013-14

#### CHILD DEVELOPMENT SERVICES DISTRICT ADVISORY COMMITTEE

#### <u>Chair</u>: Jennifer Kennedy <u>Staff Liaison</u>: Alice Chung Charges:

- Provide a forum for discussion of funding for Child Development for early childhood programs focusing on ages 0-5 years and for school age out of school programs for children 5-8 years and middle school
- Monitor the Cradle to Career process and proposals and the work of the Early Education Child Care Task Force
- Review the Transitional Kindergarten Program
- Review data from Ed Services on early identification programs and activities for preschool and school age students focusing on academic achievement and the enrichment of personal and social development in educating the Whole Child
- Review information and assist in increasing communication with parents regarding District programs, Common Core and the Vision for Student Success and how they each will impact Child Development Services in the District

## Accomplishments to date:

CDS teachers benefitted from a wide range of professional development during the year:

- Teachers from S.M Child Development Services (and from the cities of Lennox and Lawndale) participated in a project titled: Promoting Effective Math Instruction for Young Children, led by Dr. Megan Franke from UCLA, which provides high quality early math training. The goal for the project is to develop teachers' pedagogical expertise in supporting young students' mathematics learning while building mathematical and instructional continuity across PreK Grade 3. Three CDS preschool teachers and District kindergarten teachers participated in this first cycle Cohort 1. A second group of teachers, Cohort 2, will receive the instruction in 2014-15.
- CDS teachers worked closely with and received training from the District's Math Coordinator, Rosa Serratore.
- The District's Director of Student Services, Dr. Mark Kelly, provided CDS school age teachers with a training workshop on: After school safety, internal emergency system, and lockdown preparedness.

## Highlight(s) to date of particular note:

- Irene Gonzalez-Castillo, Director of Curriculum and Instruction Pre-K-5, attended a CDS DAC meeting and gave a presentation on Transitional Kindergarten.
- CDS staff and a few DAC members attended the RAND Youth Conference, April 2014.
- Before/After School (School Age) enrollment has increased, we opened 3 new classrooms to accommodate the enrollment.
- Our Winter and Spring enrollment has increased 5% from previous year.
- Head Start, State, and Los Angeles Universal Preschool slots are stable. CDS received a reverse sequestration plus 5% increase in COLA from Head Start.

## Suggested direction for 2014-15:

 Prepare for updates/changes to the Creative Curriculum. Creative Curriculum will align with Common Core State Standards and California Early Learning Framework from the California Department of Education. This curriculum framework provides an overall approach for teachers to support children's learning through environments and experiences. First teacher training will take place June 11<sup>th</sup> 2014 for all CDS preschool teachers. Second training will take place at the beginning of the school year.

#### Accomplishments to date:

Our District DELAC meetings incorporate the mandated state requirements and informational presentations. The mandated state requirements help parents understand better the programs and services for English Learners and encourage their participation in the educational process of their children. The presentations provide parents with knowledge and skills that they can use to support and advocate for their students in their acquisition of English and academic subjects. It is important to note that our DELAC continues to include a wide range of Spanish speaking parents, many of whom do not have children who are English Learners.

#### Highlight(s) to date of particular note:

• PTA and Educational Services Common Core webinars were presented at various ELAC meetings. This gave parents who were unable to view them at the time they were presented and/or do not have the technology to do so at home the opportunity to learn about these services and to participate in an interactive question/answer session.

• This year's DELAC focused on building an understanding of Local Control Funding Formula (LCFF) and Local Control Accountability Plan (LCAP). The objective was to provide ELAC leadership and parents the information they need to contribute to decision-making at their school sites.

#### Recommendations / Suggested direction for 2014-2015:

• Implementation of the Title III Accountability Improvement Plan, which outlines how Title III funds help ensure English Learners attain English proficiency and meet the same challenging academic content and achievement standards that other students are expected to meet.

• The following recommendations originate from inputs provided by ELAC/DELAC representatives and parents to the LCAP:

#### **Parent Workshops**

Continue offering of parent workshops at the ELAC/DELAC meetings. These workshops are essential for helping parents acquire the knowledge and skills to help us support the education of our children. Recommend workshops to cover the following topics:

- How to use Illuminate
- Effective parent / teacher communication
- How to help with homework
- College information at all levels including elementary
- Child development stages, stage-specific parenting strategies at home and supporting education at school
- How to establish rules to help motivate and discipline in a positive way

#### Homework

We believe that students should have homework each day; however, teachers should plan better and, where applicable, coordinate homework schedules to spread the homework load evenly and to avoid piling a lot of homework at once. The purpose of homework should be to reinforce concepts taught in the classroom by practicing these concepts in the homework. Homework should not require students to learn new concepts that have not been covered in the classroom.

#### Communication

Effective communication between home and school is essential for supporting and encouraging students' education and academic growth. More training on communication with parents for teachers and staff including district directors is needed. We would, like as parents, to participate more effectively in the education of our students; this requires communication between teachers, parents and students. Teacher communication needs to clearly include specific plans

addressing students' academic needs; the need for clarity is particularly important to parents of English Learners. Teachers should also communicate with parents when a student reaches a planned goal, thereby providing an opportunity to congratulate a student for achieving an academic milestone at school and at home.

#### **Clean Restrooms**

Safe and clean schools are important for student academic achievement. All of our schools need to have a clean campus, especially bathrooms. If the bathrooms are kept clean students will be more likely to help keep them clean. Schools need a couple of restrooms only for adults and or visitors.

#### After school tutors

Quality after-school tutoring programs can have a positive impact on student achievement, especially for at-risk students and English Learners. Quality tutors will not only help with homework but with skills that students can apply to future class assignments. Students need to read and have discussions about what they have read; however parents with limited schooling often feel inadequate to help with their children's reading. There should be after school programs like Reading Partners for all English Learners. Students eligible for free or reduced lunches should also be granted free participation in a Homework Club where students can receive guidance not just supervision for completing assignments.

#### **College and Career**

Preparing high school students for success means different things depending on whether students intend to pursue academic goals (e.g., college) or get a job. College-bound students need to learn the academic skills that are essential to success in college. Job-seeking students need to learn employable skills that can make a difference in getting a job and keeping a job in the future. Keep in mind that not all high school kids want to go to college, some want options to learn and train for a specific trade. To be college and career ready, students need to take advanced courses and need support at home and at school to remain committed and interested in such courses.

#### **Intervention Classes**

Early Intervention and prevention will increase the academic performance of all students and decrease the need for future interventions to remediate academic deficiencies. Students who struggle in school, especially English Learners need additional help from before, after or during school instructional and support intervention programs. Students who are low performing in all grades need intervention classes from teachers who can best address their areas of need.

#### Summer School for Kindergarten, Frist grade and Middle School

Summer school can be an excellent improvement opportunity for students who struggle in school and/or are at risk of under-performing. Summer IISS should also include students in Kindergarten and first grade to help ensure students begin their academic career on par with the new common core expectations and high-level performance targets. Unfortunately, many students finish Kindergarten and First grade with low achievement. Without summer school, such students will statistically fall further behind in the next grade. This problem is particularly acute for students of low-income families who cannot afford enrolling their children in PTA summer adventure classes or other fee based programs. Summer school should also be offered to middle school students. Statistically, many students who have struggled in elementary school will continue to struggle in middle school. Effective intervention in middle school is important to break this pattern before high school where academic struggle often increases drop out rates.

#### **Community Liaisons**

Community Liaisons provide families with information to help them make educated choices about their children's academic experience and progression. Liaisons play an active role with

families of English Learner students who experience difficulties at school. Liaisons help with the challenges that extend beyond school and help increase academic achievement. We would like for an increase of community liaisons hours at sites where the need is great but the allocated hours are few.

#### Bullying

Whether physical or emotional, bullying can negatively impact the ability to learn. It is a serious problem. All students will benefit from early intervention and support. Teaching positive relationship skills and problem-solving skills will help address relationship issues and educate students to be more sensitive to and accepting of differences with other students. We need programs that teach strategies like "Cool Tools". Teachers often say they don't have time to teach it but they need to realize that taking time to teach it will help kids in and out of the classrooms. Furthermore we need to reward good behavior and have a Zero Tolerance for anyone who bullies.

#### Counseling

School counseling services can improve academic performance by identifying barriers to learning. School Counselors work with students to help them through difficult issues so that they can stay focused in the classroom and get the most out of school. Free counseling should be offered at all of our schools Kindergarten through 12<sup>th</sup> grade. Currently, the high school has a very long waiting list for free help. We need counseling by trained therapists, not only during school hours (8-3) but also after school (3-7) Monday–Friday. We need more agency collaboration.

#### Transportation

Some parents have to walk a long distance go to school/meetings/libraries and depend on public transportation to take their children to school and to attend school activities. The blue bus no longer gives transfers and with bus ride costing \$1, low-income parents have had to limit transportation to a minimum for going to school & coming home. It would be great to have bus tokens available so parents can get to meetings/libraries/school.

#### Nutrition

Good nutrition is important to learning. Children behave better, have longer attention spans and are more eager to learn when they eat healthy meals. We need to provide more healthy food choices for students to eat and to develop good eating habits.

#### **Budgetary Implications:**

The change to LCFF eliminates most of the categorical funds that provided supplementary support to English Learners such as ELD teachers, PD for teachers, Bilingual aides at the middle and high school level and materials. We support the use of LCFF to continue to provide the existing supplementary supports for English Learners and the recommendations of this report and those included in the LCAP.

  - o Jason Olson, SMPD on 'Drug Impairment Training for Educational Professionals'
  - Elaine Rene Weisman, Outreach member of Malibu Environmental Task Force
  - o Parent representatives, 'Malibu Unites'

#### Highlight(s) to date of particular note:

- Initiated revision of the SMMUSD Wellness Policy under the direction of Lora Morn, SMMUSD CN
- Attached please note Appendix A: California FitnessGram 2012-2013 for SMMUSD (latest school year available)
  - General trend is positive: a greater % of all SMMUSD 5<sup>th</sup>, 7th & 9<sup>th</sup> grade students are in the 'HFZ' ('Heath Fitness Zone') and lower %'s in the "Health Risk' zones compared to 2011-2012 data, but corresponding 'HFZ' %'s remain lower in 'Economically Disadvantaged' SMMUSD students
- Continued discussion on areas of pertinence/interest:
  - Status of 'Growing Green' program at Grant ES
  - Status of Homework Policy at SaMoHi
    - Please note Appendix B ('SMMUSD Homework Survey' 2014) for your convenience
      - SaMoHi has still not adopted a Homework Policy re: Board Homework Policy 6154

#### Suggested direction for 2014-15:

- Continue to monitor and discuss issues pertinent to the Charges of the DAC and recommend actions where appropriate
- DAC members serve on the LCFF/LCAP committee
- DAC member may serve on an expanded Environmental Task Force

- Continuing comprehensive revision of the SMMUSD Wellness Policy, with a holistic and proactive philosophy toward comprehensive student and staff wellness in social, emotional, physical, medical, environmental and regulatory area
- The Health & Safety DAC would benefit greatly from participation of SMMUSD Physical Education staff member(s), perhaps as a facet of staff professional development

#### **Budgetary Implications:**

None at this time but DAC 2014-2015 suggestions including district level oversight by physical education specialists to support physical education in SMMUSD elementary schools, which would require an increase in the SMMUSD staffing, not DAC, budget

### **Most Common Themes to Open-Ended Question**

### 75% of participants responded to the open-ended question.

# If you could change one thing about your child's homework assignments, what would it be? (N=415)

Parents suggest that their child's workload should be decreased. Parents feel that spending too much time doing homework decreases the chance of their child being a well-rounded individual.

Parents want more consistent communication from teachers about upcoming assignments. They wrote of inconsistent practices among teachers regarding updates to teacher websites.

Parents commented that they feel their child's workload is appropriate and more balanced when compared to previous years.

### **Summary of Conclusions**

- Caution: Very low response rates
- Results quite similar to prior years' data
- Greater concerns at middle and high school levels than elementary
- Continued call for greater consistency/coordination of homework assignments across secondary classrooms

### **Next Steps**

- Review/reconsider policy that determines frequency of homework survey
  - Are we learning anything new?
  - Are we reaching a cross-section of parents?
- Research and review best practices for:
  - Posting homework assignments (i.e. web-based, binder reminders, etc.)
  - Coordination of assignments across curricular areas

#### Santa Monica-Malibu Unified School District Board of Education Annual End-of-Year Written Report 2013-2014 Intercultural Equity & Excellence District Advisory Committee

#### Chair: Marco Masoni Staff Liaisons: Debra Moore Washington and Aida Diaz

#### Charges:

- Support the district's work of closing the achievement gap by assisting in the identification and elimination of inequities in educational processes and outcomes of underserved students in district schools.
- Provide a forum for the articulation of ideas and activities being implemented in the district, school sites, and the greater community to successfully meet the needs of our diverse student and parent population.
- Provide input on district and school site efforts to facilitate the building of bridges of understanding between diverse student and parent populations so that all groups feel connected to, and part of the school community.
- Report to the Board annually, and on any other occasion as necessary, on the scope of their work, and recommendations that are developed relative to their charge.

#### Accomplishments to date:

- 1. Continued efforts to probe and understand our own core values as members, in order to better serve the district and create a welcoming platform for increased membership on the committee itself, with the ultimate end of assisting towards the elimination of inequities. "If the BOE and district leadership focus on a few, crucial goals, significant progress can be made closing achievement gaps." Therefore, the IEEDAC focused on two major areas for which subcommittees were formed. A) Engagement of Parents/Families/Students and b) Developing Global Citizens. The first subcommittee focused on charge II, above, "provide a forum for the articulation of ideas" and the second subcommittee focused on charge III, above "facilitate the building of bridges of understanding between diverse student and parent populations." The first subcommittee essentially works with internal IEEDAC membership and the second includes participation of the extended community, such as the HRC. Charges I, II, and III are interconnected and all efforts of the IEEDAC and its subcommittees have the ultimate goal of increased student achievement.
- 2. Active recruitment of additional IEEDAC members (see Mid-Year 2013-14 report)
- 3. Alignment with the SMMUSD Equity and Access Plan and follow up on last year's activities
- 4. IEEDAC welcomed participation of the public, and the public voice was heard in each and every meeting, expanding outreach and communication with the public at large.
- 5. Community Conversation with the participation of essential groups in the district took place on Thursday, June 12. BOE/district reports given monthly at IEEDAC meetings and events in which have participated members and liaisons of this committee, have had an impact on planning this pilot forum (see Highlights, below).
- 6. The IEEDAC's Developing Global Citizens Ad-Hoc Committee has discussed how developing global citizens out of our students can have a significant impact, over time, in closing the achievement gap. Please see addendum, below.

#### Highlight(s) to date of particular note:

- Unpacking Cultural Proficiency beginning with training lead by DMW on November 18 and December 16, using *The Culturally Proficient School: An Implementation Guide for School Leaders* by Lindsey, Roberts, and CampbellJones (p. 57-61)
- Encouragement of parent and community involvement
- Recruitment efforts to include parents and people of color in the IEEDAC membership
- Community Conversation June 12 including production of student video. Twenty individuals

from among school and parent leadership participated, with a good cross-section of our diverse community. <u>Purpose:</u> to bring together school, community and parent leaders from across the district to exchange ideas and develop recommendations about ways to expand and diversity family engagement in our school communities. <u>Agenda:</u> Welcome, Purpose, Video, Table Talks, Report Out, Gallery Walk, Opportunities for Collaboration. <u>Table Talks</u>: Introductions, discussion of programs that increase parent involvement, one suggestion from each group to expand and diversify parent engagement and identify opportunities for collaboration. *Report on results pending*.

#### Suggested direction for 2014-2015:

- Meet with Samohi Ethnic Studies teacher Kitaro Webb to discuss IEEDAC support of his excellent program, with possible inclusion of former suggestions of this committee (see End-of-Year report for 2013-14).
- Bi-annual community engagement forum, with the June 12 Community Conversation as a learning tool
- Continue quest for diverse and enthusiastic membership
- Solicit input from site councils and PTA presidents from elementary, middle, and high schools to help determine best direction for the next year

#### Addendum

IEEDAC Developing Global Citizens Ad-Hoc Committee Section for June 2014 Annual Report June 11, 2014

The IEEDAC's Developing Global Citizens Ad-Hoc Committee has discussed how Developing Global Citizens out of our students can have a significant impact, over time, in closing the "achievement gap", and how our committee's work is perfectly in line with our "Charges" to "Provide input on district and school site efforts to facilitate the building of bridges of understanding between diverse student and parent populations so that all groups feel connected to, and part of, the school community," and to "Provide a forum for the articulation of ideas and activities being implemented in the district, school sites, and the greater community to successfully meet the needs of our diverse student and parent population." Our committee feels that developing Global Citizens can help to close the "Achievement Gap" by broadening students' perspectives and views in the following ways:

- Acknowledge differences and similarities among various cultural groups
- Empower students vis a vis their own cultural heritage
- Help give students a feeling of self-worth and positive cultural identity
- Make school more interesting, fun and relevant
- Help students see how they fit into a larger global perspective
- Ease tensions related to misunderstandings over cultural differences
- Engage students in such a way that they'll be able to see how other cultures operate
- Help teachers develop a greater cultural proficiency
- Provide education in a culturally competent and inclusive manner
- Engage families and the larger community
- Make use of various modes of learning, particularly the Arts: music, dance, visual arts, and poetry

Our committee also discussed ideas and/or programs that could be implemented in SMMUSD Schools to Develop Global Citizens

- A Global Studies Program that includes curriculum for Middle School and High School students, that introduces them to Global Studies and provides classes that feed into the Global Studies and Global Citizenship Degree Programs at Santa Monica College and other colleges and universities.
- International Events & Activities that could take place at all SMMUSD schools. We agreed that
  we should determine: What kind of baseline data we need to collect? What would be most
  useful in helping to create a successful program? How can we measure cultural proficiency in
  students (and teachers) before and after the initiation of a "Developing Global Citizens"
  program? We are currently compiling information regarding efforts at SMMUSD Schools in
  achieving the District's Vision of Developing Global Citizens, such as:
  - 1. What is currently being done by the SMMUSD to address its "Vision" to help students to become Global Citizens?
  - 2. What are the Common Core Standards for Multicultural and Global Education? Or, where can we get this info?
  - 3. What ongoing initiatives are taking place at individual SMMUSD school campuses that are successfully helping to build Global Citizens?
  - 4. What would SMMUSD want as a Wish List for Global Studies & Citizenship? We discussed distributing a Survey to all of SMMUSD's School Principals asking them "What ongoing initiatives are taking place at your school campus that are successfully helping to build Global Citizens?" It should be noted that Santa Monica College now has Degree Programs in both Global Studies and Global Citizenship. We feel that the SMMUSD should start to implement programs and develop curriculum that feeds into these Degree Programs at SMC. Perhaps there are opportunities for new programs that can and will address this emerging area of educational, social and civic engagement.

Give input to the deputy superinteOndent of the technology committee to jointly consider strategies to reduce digital divide.

#### **Charge Three**

Update and expand the pre-school eligibility assessment, placement and program information for the pre-school section of The Parent Handbook.

#### Charge Five

Review information and assist in increasing communication with parents regarding District programs, LCFF (Local Control Funding Formula), Common Core and the Vision for Student Success and how they each will impact Special Education Services in the District

#### Accomplishments to date:

 SEDAC worked with Terry Deloria and K-12 Insight to create a comprehensive Special Education Program Satisfaction Survey for parents. The survey was expanded from the original charge of a "Post IEP Parent Survey" by Dr. Deloria. The survey, in English and Spanish, was completed and launched on May 20, 2014 and closed on June 3, 2014. The results will be posted on the district website the beginning of July 2014. Dr. Deloria will use the data for professional development with the school leadership team on August 4, 2014.

- 2. SEDAC decided to give input to the technology committee by participating in the District-Wide Survey instead of creating a separate Special Education technology survey.
- 3. The Ad Hoc committee continues to work on the upgrade of the pre-school section of The Parent Handbook.
- 4. The post-secondary transition plan, formerly called "The Parent-to-Parent Transition Plan" for high school students, was renamed "High School's Ending...Now What? By and for Parents". Ad Hoc Chair Karen Paris, and SEDAC Chair Lee Jones worked with Joe Safier, a Beverly Hills parent, to complete the plan. It was reviewed by the Tri-Cities SELPA Director Jeanne Davis, school superintendents and Special Education directors. It was then allowed to be distributed to parents/students in Beverly Hills, Culver City, and Santa Monica. Each district was responsible for any costs incurred in the distribution of the plan. It was approved and delivered to the District in April 2014. Assistant Superintendent Terry Deloria approved the printing of the plan by the District print shop with funds from the Education staff at middle school and high school campuses have received hard copies that are being disseminated to parents/students with IEPs in grades 8-12. All parents should have a copy of it by the start of the 2014-2015 school year. The plan is also on the SMMUSD website. The committee is immensely proud of the work of the Ad Hoc, as well as Dr. Deloria's guidance and support.
- 5. Through a member of SEDAC who was appointed to the LCFF committee, we have become educated in the work of that committee. In addition we have received apresentation on the Common Core and the Vision for Student Success from Dr. Deloria.

#### Highlight(s) to date of particular note:

#### **Budgetary Implications:**

The printing of hard copies of the transition plan was authorized by Assistant Superintendent Terry Deloria and printed by the District print shop.

- 3. Implement the *Vision for Student Success* in the elementary schools with the following arts programs in the 2014-15 school year:
  - a) **TK, Kindergarten, 1<sup>st</sup>, and 2<sup>nd</sup> grade Visual and Performing Arts** programs (e.g., music, theatre, and visual arts per school site choice).
  - b) **3<sup>rd</sup>, 4<sup>th</sup>, and 5<sup>th</sup> grade Visual Arts** and **Theatre** programs (in addition to the district-funded 3<sup>rd</sup> through 5<sup>th</sup> grade Music program).
- 4. VAPA Coordinator Maintain the VAPA Coordinator position, one of the five critical components of a sustainable arts education program. Our district is eligible for certain grant funding because we have an administrative level coordinator in place.
- 5. Music Maintain the district-wide Elementary Music program, currently serving grades 3, 4, and 5. It is the foundation of the entire district music program. Implement a district-wide standards-based Music program for grades TK-2. To provide equitable access to arts instruction across the district, add a district-funded choir accompanist at SMASH Middle School, and explore offering more than one level of instrumental music instruction at SMASH Middle School.
- 6. **Theatre** Maintain the current "for credit" secondary Theatre programs at Malibu Middle, Malibu High School, Olympic High School, and Santa Monica High School, as well as the non-credit after school programs at Lincoln and John Adams Middle Schools

that are co-funded by SMMEF and the PTSAs. To provide equitable access to arts instruction across the district, add "for credit" Theatre classes at Johns Adams, Lincoln, and SMASH Middle Schools. Implement a district-wide standards-based Theatre program grades TK-5.

- Visual Arts Maintain the current secondary Visual Arts programs at John Adams and Lincoln Middle Schools, Malibu High School, Olympic High School, and Santa Monica High School. Implement a district-wide standards-based Visual Arts program for grades TK-5.
- 8. Dance Move the current district-wide 3<sup>rd</sup> grade Dance program to 4<sup>th</sup> grade, and expand dance instruction to additional grade levels. Maintain the "for credit" dance classes at John Adams Middle School and Santa Monica High School. To provide equitable access to arts instruction across the district, add "for credit" Dance classes at Lincoln, Malibu, and SMASH Middle Schools and at Malibu High.
- 9. Scheduling Maintain AM classes and summer school classes, including summer school classes in the arts. This is important for 9<sup>th</sup> and 10<sup>th</sup> graders at Samohi, for students at Lincoln Middle School, and for students at John Adams Middle School who participate in the Spanish immersion and AVID programs. It serves those students who otherwise might not be able to fit these classes into their schedules, and encourages their successful participation in arts classes, foreign language classes, and sports.
- 10. High school graduation requirements Change Board Policy 6146.1 High School Graduation Requirements -- to include at least one year of visual and performing arts classes and one year of a foreign language.
- **11. Facilities** Ensure that any VAPA facilities built with Measure BB funds are constructed according to national *Opportunity-to-Learn Standards for Arts Education* and the district's own VAPA facilities guidelines, adopted in 2000.
- **12. Budget Deliberations** When discussing budget cuts, the VAPA DAC urges the Board of Education to avoid eliminating entire curriculum areas, such as Elementary Music.

#### IV. Budgetary Implications:

### The VAPA DAC strongly recommends *increasing* current funding for district-funded VAPA programs, which are an integral part of core curriculum.

The VAPA DAC is particularly concerned that any decrease in Regional Occupational Program (ROP) funding through LACOE could severely impact arts instruction at the high schools. Given the uncertainty of future ROP funding, the VAPA DAC recommends that the district look for ways to ensure sustainable funding for these programs.

The National Coalition for Core Arts Standards, a partnership of organizations and states, led the revision of the 1994 National Standards for Arts Education. Media Arts was added to Dance, Music, Theatre, and Visual Arts. The leadership team consisted of representatives from the American Alliance for Theatre and Education, Arts Education Partnership,

Educational Theatre Association, National Art Education Association, National Association for Music Education, National Dance Education Organization, State Education Agency Directors of Arts Education, The College Board, and Young Audiences.
