Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

A.	Indirect	costs incurred in the current year (Part III, Line A8)	9,210,857.34				
В.	Carry-fo	rward adjustment from prior year(s)					
	1. Carr	y-forward adjustment from the second prior year	(590,771.83)				
	2. Carr	y-forward adjustment amount deferred from prior year(s), if any	0.00				
C.	Carry-fo	rward adjustment for under- or over-recovery in the current year					
		er-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect rate (5.04%) times Part III, Line B18); zero if negative	149,635.63				
	(app	r-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of roved indirect cost rate (5.04%) times Part III, Line B18) or (the highest rate used to ver costs from any program (5.1%) times Part III, Line B18); zero if positive	0.00				
D.	Prelimin	ary carry-forward adjustment (Line C1 or C2)	149,635.63				
E.	Optional	allocation of negative carry-forward adjustment over more than one year					
	Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.						
	Option 1	Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	not applicable				
	Option 2	Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment is applied to the current year calculation and the remainder is deferred to one or more future years:	not applicable				
	Option 3	Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment is applied to the current year calculation and the remainder is deferred to one or more future years:	not applicable				
	LEA requ	uest for Option 1, Option 2, or Option 3

For basic aid districts, projected LCFF revenue has not changed from the prior fiscal year by more than the percent change in property tax revenues plus or minus one percent.

For districts funded by necessary small school formulas, projected LCFF revenue has not changed from the prior fiscal year amount by more than the district's COLA and its economic recovery target payment, plus or minus one percent.

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Projected change in LCFF revenue is outside the standard in one or more of the budget or two subsequent fiscal years. Provide reasons why the projection(s) exceed the standard(s) and a description of the methods and assumptions used in projecting LCFF revenue.

Explanation:

(required if NOT met)

As a newly identified Basic Aid School District, the District continues to project a modest 5% increase in property taxes year over year. This projection is based on property tax receipts by category and taking into account the volotile change in RDA funds that contribute to the Distrct's final property tax tabulation. It is the RDA property tax receipts of a projected 15 million annually coupled with the annual property tax projection of 5% that exceeds the standard method projection. This uncertainty is the new normal for the District as we operate outside of the Basic Aid Standard range.

5. CRITERION: Salaries and Benefits

STANDARD: Projected ratio of total unrestricted salaries and benefits to total unrestricted general fund expenditures for any of the budget year or two subsequent fiscal years has not changed from the historical average ratio from the three prior fiscal years by more than the greater of three percent or the district's required reserves percentage.

8C. Comparison of District Deficit Spending to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

STANDARD NOT MET - Unrestricted deficit spending has exceeded the standard percentage levels for two or more of the previous three fiscal years. Provide reasons for the deficit spending, a description of the methods and assumptions used in balancing the unrestricted budgets, and what change, if any, will be made to ensure that the subsequent budgets are balanced within the standard.

Explanation:

(required if NOT met)

Due to continued deficit spending in the 2016-17 fiscal year, the District's net change in the unrestricted fund balance dramitically continued to decrease. In the 2017-18 fiscal year, the District inadvertainly received ERAF funds that were not due to the District as they were a Basic Aid District in 2017-18 -this error occured due to a lack of oversight by the District's oversight agency, the Los Angeles County Office of Education (LACOE). In the 2018-19 and 2019-20 fiscal years respectively, the District continues to deficit spend due to the claw back of ERAF funds from LACOE as well as implementing a deficit reduction plan to address deficit spending

9. CRITERION: Fund Balance

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD MET - Unrestricted general fund beginning fund balance has not been overestimated by more than the standard percentage level for two or more of the previous three years.

Explanation:

(required if NOT met)

In the 2017-18 fiscal year, the District received additional ERAF funds in the amount of \$8.6 million dollars that contributed to a higher Beginning Balance in the 2018-19. These ERAF funds were not due to the District due to the fact that the District is a Basic Aid district — the error was due to a lack of oversight by the District's oversight agency, the Los Angles County Office of Education (LACOE). Therfore, the District's Beginning balance was restated in 2018-19 and will have an adverse Budget for Unrestricted General Fund Beginning Balance in the 2019-20 fiscal year.
