**SERVICE LEARNING/  
FRESHMAN SEMINAR**

9th Grade

Students engage in coursework and activities supporting the development of a strong foundation for meaningful and safe individual internships. Students explore and articulate concepts of self, personal visions, and goals and create action plans to achieve those goals in Freshman Seminar.

**LEARNING  
THROUGH  
INTEREST**

10th Grade

Students get into the world, learning from facilitated and mentored experience. Students consider the needs of others and design projects in Advisory. By connecting authentic interest and need to fieldwork, the depth and quality of student experience in internships is elevated.

**LEARNING  
THROUGH  
INTEREST**

11th Grade

Students use their exploratory experiences from Grade 10 to refine their interests and engage in more focused internships. Students focus on the development of Professional Networks in areas of interest. Students focus on industry-specific skill development in projects.

**SENIOR  
THESIS  
PROJECT**

12th Grade

Students are immersed in real-world activity aligned with well-articulated interests. Students co-construct complex projects with members of their Professional Network. Grade 12 students are living their interests and articulating and executing plans for post-secondary participation in the community.
