

## Difference between un-weighted and weighted GPA:

Un-weighted GPA: this is the GPA for 10<sup>th</sup> & 11<sup>th</sup> grade "A-G" courses ONLY that **do NOT** include extra points for honors (HP) or advanced placement (AP) classes taken during these years.

Weighted GPA: this is the GPA for 10<sup>th</sup> & 11 grade "A-G" courses ONLY that **do** include the extra points for honors (HP) or advanced placement (AP) classes taken during these years. There are a **maximum number of 8 semester HP & AP points** that can be calculated into this GPA.

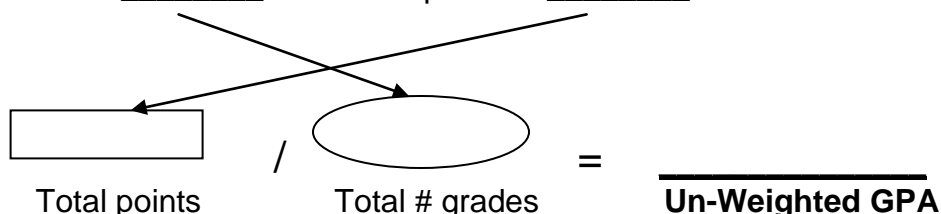

### Calculating Un-weighted GPA:

To calculate un-weighted GPA assign the following points to your student's "A-G" courses for grades 10 & 11 ONLY (Summer courses take before 10<sup>th</sup> grade and after 10<sup>th</sup> grade are also a part of these calculations). Summer grades for courses taken after 11<sup>th</sup> grade are not a part of this calculation. Count the Number of A's, B's, C's, and D's and place in the formula. Then multiply by the number of points that that grade is worth. Next take total number of points and divide by total number of courses. This will give you the un-weighted GPA.

#### Part 1

\_\_\_\_\_ # A's x 4 points = \_\_\_\_\_  
\_\_\_\_\_ # B's x 3 points = \_\_\_\_\_  
\_\_\_\_\_ # C's x 2 points = \_\_\_\_\_  
\_\_\_\_\_ # D's x 1 point = \_\_\_\_\_

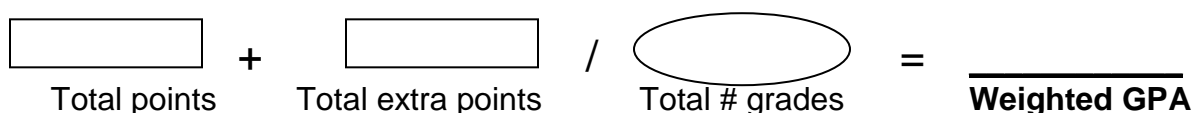

#### Part 2

  
Total points / Total # grades = Un-Weighted GPA

### Calculating Weighted GPA:

To calculate weighted GPA add the number of approved HP (\*ONLY Chemistry HP and Pre-Calculus HP get the extra points) and AP semesters that you have **ONLY** counting from 10<sup>th</sup> & 11<sup>th</sup> to the total number of points. This also includes College classes that are UC/CSU transferable. Then divide by the total number of courses. This will give you the weighted GPA.

#### Part 3

  
Total points + Total extra points / Total # grades = Weighted GPA
