Principal Daruty presented the three SPSA goals to the committee with a brief overview of the proposed Professional Development and budget to support said goals.

There were limited changes made to the wording of the goals and some discussion as to the measures that can be used to assess goal number three.

The goals are as follows:

2023/24 Goal #1: Engage and support all students, across the curriculum, by promoting critical thinking through inquiry, problem solving, and reflection. Based on the previous year's scores, there will be a 10% increase of students scoring Level 3 and Level 4 on both the Spring Star assessment (2nd-5th) and the ELA and Math CAASPP (3rd-5th) by June 2024. Local measurements such as the CSTP continuum for standard 1.0 will be used to guide teacher development.

2023/24 Goal #2: Through an emphasis on direct, explicit instruction of the ELA language standards, all EL students will make measurable progress towards a standard of reclassification on or before 5th grade and maintain reading, writing and speaking levels on par with their English only peers as measured by ELPAC (one level of growth each year), Star ELA (38th percentile or higher) and meets or exceeds the standard on (3rd-5th) ELA on CAASPP.

2023/24 Goal #3: By June 2024, Will Rogers Learning Community will develop a shared understanding and commitment around culturally relevant pedagogy as a school-wide practice with an emphasis on designing instruction that centers on students' identities as measured by local assessments and surveys and an improvement of regular attendance rates.
