

The Dusty Peak Environmental Leadership Scholarship

Dusty Peak, a true environmental leader, died at the young age of 58. As an adult, he was a passionate advocate for clean ocean water, at his beloved Little Dume Beach and the rest of Malibu. He was a member of Heal the Bay and recently worked diligently on the Marine Preserve Issue for the coastline. He was always "scouting" issues and encouraging others to be involved. The Peak family is proud to award this scholarship to a student passionate about the ocean, as much as Dusty was.

Instructions:

1. Please include your resume.
2. In a short essay, please answer the following prompt:

Share with the scholarship committee your passion for the ocean and environment and your goals in college (where you might attend and what major)

Completed application is due to Ms. Snyder by **January 31, 2024**
