2021 School Accountability Report Card

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) www.caschooldashboard.org/ reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2021-22 School Overview

District Vision

As a community of learners, the Santa Monica-Malibu Unified School District works together in a nurturing environment to help students be visionary, versatile thinkers; resourceful, life-long learners; effective, multilingual communicators and global citizens. We are a rich, culturally diverse community that values the contributions of all its members and strives to promote social justice. We exist to assist all students in their pursuit of academic achievement, strength of character, and personal growth, and to support them in their exploration of the intellectual, artistic, technological, physical and social expression.

Santa Monica Alternative Schoolhouse Mission Statement

At Santa Monica Alternative Schoolhouse, we strive to help children become active citizens in a democracy that is still being shaped. We want our students to be a part of that shaping in ethical, moral, creative and thoughtful ways. There are three important components that serve as a guide in the development of the SMASH alternative program. First, we have a curriculum that builds upon student interest and real-life issues and problems. Next, we provide a structure that offers flexibility that includes heterogeneous and multi-age group arrangements for children. Finally, we offer an environment that embraces freedom with responsibility and addresses the balance between the needs of the individual and the needs of the community. Our instructional staff is continuously focused on these important elements in order to build a solid, yet ever-changing, innovative program.

SMASH was founded in 1973 by parents, teachers and students as a progressive school of choice in the Santa Monica-Malibu Unified School District. Teachers use a constructivist approach to learning with a curriculum developed collaboratively between teachers and students. Our ultimate goal is to nurture students to be competent, compassionate, confident and creative citizens in our continually changing world.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

Note: For more information refer to the Updated Teacher Equity Definitions web page at <https://www.cde.ca.gov/pd/ee/teacherequitydefinitions.asp>

2019-20 Teacher Preparation and Placement

Authorization/Assignment	2019-20
Fully (Preliminary or Clear) Credentialed for Subject and Student Placement (properly assigned)	
Intern Credential Holders Properly Assigned	
Teachers Without Credentials and Misassignments (“ineffective” under ESSA)	
Credentialed Teachers Assigned Out-of-Field (“out-of-field” under ESSA)	
Unknown	
Total Teaching Positions	

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned to based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

2021-22 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All students at SMASH have access to state-approved and district-adopted textbooks and instructional materials in all core academic areas. The district follows the state guidelines and cycles for textbook adoptions with new science materials purchased and implemented in the 2007-08 school year and new math texts in 2008-09. The district adopted new English language arts texts for grades 6-8 for 2009-10. With the textbook-adoption process frozen due to budget constraints at the state level, the district refreshed the K-5 English language arts curriculum, using the existing texts. All students, including English learners, have their own copy of textbooks, except in the case where "Big Books" are used for the entire classroom at the early primary level. Textbooks and instructional materials are recommended for school board approval through a comprehensive process by a districtwide committee of teachers and administrators. Members of the public are invited to review recommended materials and make comments prior to board approval. As an alternative school, SMASH also provides its students with supplemental instructional materials that support cross-curricular and inquiry-based learning.

School Facility Conditions and Planned Improvements

SMASH is a progressive school of choice located just a few blocks from the beach. Constructed in 1997, the school buildings are accentuated by high, open-air ceilings in keeping with modern-style architecture. Classrooms are open and welcoming and are constructed to allow for classrooms to interconnect. This structure supports our practice of team teaching. A second phase of construction was completed in 2002, and three new classrooms were added to accommodate the student population. Our playground, restroom facilities, cafetorium and media center are cared for daily to provide for a safe and clean learning environment. To ensure the safety and preparedness of students and staff for all emergency situations, we have a school safety plan in place. We also conduct monthly fire evacuation drills and implement two comprehensive disaster preparedness drills each year. Our school safety plan is updated annually. The facility that supports our school is well maintained and is in well-functioning condition.

In January 2011, a pedestrian gate was installed. In the fall of 2011, a remote access keypad was installed at the new pedestrian entry gate. This allows school staff to control access to the campus from the main office. The system includes two-way voice communication, keypad to access the school and a video camera that enables staff to recognize visitors at the gate.

In August 2018, the upstairs decks were redone, the roof was repaired, drainage areas were upgraded. With the infusion of operational dollars we will continue to address deferred maintenance issues. In Fall 2020, new security cameras were installed.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2019-2020 data cells with N/A values indicate that the 2019-2020 data are not available due to the COVID-19 pandemic and resulting summative test suspension. The Executive Order N-30-20 was issued which waived the assessment, accountability, and reporting requirements for the 2019-2020 school year.

The 2020-2021 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-2021 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-2021 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-2021 school year to other school years.

Subject	School 2019-20	School 2020-21	District 2019-20	District 2020-21	State 2019-20	State 2020-21

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2021-22 Opportunities for Parental Involvement

There are numerous ways to be involved as a parent at SMASH. We have an extremely active PTSA that consistently has a high percent participation. The SMASH PTSA is founded upon the goals and values of the state and national PTA. This common goal for parents, teachers and students is to improve the lives of students, not only at SMASH, but within the larger community as well. Parents can also be involved in our Site Council that meets regularly to develop goals for the school and to follow up on the effects of those goals. Many parents volunteer in our classrooms on a regular basis. Parents often assist teachers as well as offer their expertise in areas that support the curriculum. SMASH knows that parents are the most important part of a child's education and they are part of the process in determining student goals. This is done in a collaborative way where students, parents and teachers look at a students' work and help set new goals, both academic and social.

For more information on how to become involved at the school, please contact Jessica Rishe, Principal, at (310) 396-2640.

C. Engagement

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

Subject	School 2018-19	School 2020-21	District 2018-19	District 2020-21	State 2018-19	State 2020-21

Expulsions	0.00	0.00	0.00	0.00	0.08	0.00

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-2020 suspensions and expulsions rate data are not comparable to other year data because the 2019-2020 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-2020 school year compared to other school years.

2021-22 School Safety Plan

Children at SMASH are in a safe environment before, during and after school every day. In the mornings, staff members provide curbside valet for families to ensure that families can drop off their children quickly and safely. Staff members are also on the yard to help supervise children for 15 minutes before school. During school, all gates are locked with a video-monitored doorbell at the front gate. Visitors sign in and receive visitor badges while on campus. Staff members provide supervision during break and lunch in order to maintain a safe environment for all children. Children are supervised for 15 minutes after school on the yard, and after-school care is available for all children. All staff members are trained for emergencies including earthquakes, fires and other potential issues. Drills are conducted regularly to make sure that all adults and children know what to do in the event of an emergency.

The School Safety Plan was last reviewed, updated, and discussed with the school faculty in December 2021.

2020-21 Types of Services Funded

A combination of state and federal funding is used to cover all aspects of our instructional program.

SMMUSD uses Title II funds to support a Math and Secondary Support Coordinator to:

- work with teachers/administrators to support student learning around math content and practices for all students
- facilitate and review the guaranteed and viable curriculum that includes use of common formative assessments to gauge student achievement
- support ongoing intervention/enrichment opportunities to address student growth and needs

Title III funds are utilized to expand educational opportunities that increase language and academic proficiency of our English learners, and to expand parent engagement opportunities.

Also at SMASH supported by SMMUSD:

50% Literacy Coach -- developing supplemental literacy units for struggling readers

part time Language and Literacy Interventionist-- pull out ELD and reading instruction to 2nd-4th grade students at SMASH

math teacher leader hourly

SEWI mental health counseling to students without IEPs

Professional Development

All teachers and staff in SMMUSD participate in ongoing professional development through banked time, a total of 90 minutes of meeting and professional development time each week at each site. Areas of districtwide focus for teacher and administrator professional development include implementation of curriculum guides and other areas that are determined by a review of summative and formative data from all school sites and the collection of input from teachers and administrators. Among the primary focus areas for professional development in SMMUSD are the following:

- Developing Professional Learning Communities
- California Standards for ELA and Math, Social Justice Standards and Next Generation Science Standards—standards-based curriculum and instructional delivery
- Math coaching—expanding our understanding of the standards for mathematical practice
- Project-Based Learning (PBL)
- Supporting students with special needs
- Differentiated instruction for all students, including English Learners and Culturally Responsive Teaching

A variety of methodologies are used to provide professional development, including coaching and mentoring. SMMUSD provides coaching through several programs such as BTSA, National Boards, literacy and ELD coaching, Site Instructional Leadership Teams (SLTs), and such specialized programs as Tech Jedis and Math Coaches. Additionally, professional development occurs through workshop series during banked time and/or after-school opportunities.

Each August, all teachers new to Santa Monica-Malibu are invited to participate in Teacher Academy, a professional development and orientation to districtwide curriculum and instructional initiatives. All eligible new teachers are encouraged to participate in BTSA. Teachers interested in applying for National Board Certification may participate in the process and can elect to be supported by teachers who have already achieved National Board Certification.

At SMASH, each teacher participates in chosen areas of District trainings then comes back to SMASH to share the learning with multi-age grade level teams via weekly Professional Learning Community (PLC) meetings. In addition, during whole staff banked time meetings, the 2020-21 year-long focus on productive communication to support students in their writing, class conversations and classroom projects. This focus was selected after reviewing student writing samples and writing claim results on state testing.

This table displays the number of school days dedicated to staff development and continuous improvement.

2020-21 Local Accountability Report Card (LARC) Addendum

Local Accountability Report Card (LARC) Addendum

2020-21 Local Accountability Report Card (LARC) Addendum Overview

On July 14, 2021, the California State Board of Education (SBE) determined that the California Department of Education (CDE) will use the SARC as the mechanism to conduct a one-time data collection of the LEA-level aggregate test results of all school's local assessments administered during the 2020–2021 school year in order to meet the federal Every Students Succeeds Act (ESSA) reporting requirement for the Local Educational Agency Accountability Report Cards (LARCs).

Each local educational agency (LEA) is responsible for preparing and posting their annual LARC in accordance with the federal ESSA. As a courtesy, the CDE prepares and posts the LARCs on behalf of all LEAs.

Only for the 2020–2021 school year and the 2020–2021 LARCs, LEAs are required to report their aggregate local assessments test results at the LEA-level to the CDE by populating the tables below via the SARC. These data will be used to meet the LEAs' federal requirement for their LARCs. Note that it is the responsibility of the school and LEA to ensure that all student privacy and suppression rules are in place when reporting data in Tables 3 and 4 in the Addendum, as applicable.

The tables below are not part of the SBE approved 2020–2021 SARC template but rather are the mechanism by which these required data will be collected from LEAs.

For purposes of the LARC and the following tables, an LEA is defined as a school district, a county office of education, or a direct funded charter school.
