2022-2023 School Accountability Report Card (Published During the 2023-2024 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

2023-24 School Description and Mission Statement

John L Webster School is located in Malibu, California. Malibu is a small, coastal community with a population around 13,000 residents. The city, well known for its celebrity residents, beaches, and Pepperdine University, is located in Los Angeles County and is a short distance from Los Angeles, the state's largest city. Approximately 15 million tourists visit the city each year. 91.5% of the residents are white, 6.1% are Hispanic and no other minority groups constitute more than 2.6%. 14.2% of the population speak a language other than English in the home. The median housing price of \$1,000, 001 is well above the national and state average. The median household income of \$125,202 is also above the state average of \$60,883.

District Vision: As a community of learners, the Santa Monica-Malibu Unified School District works together in a nurturing environment to help students be visionary, versatile thinkers; resourceful, lifelong learners; effective, multilingual communicators; and global citizens. We are a richly varied community that values the contributions of all its members. We exist to prepare all students in their pursuit of academic achievement and personal health and to support and encourage them in their development of intellectual, artistic, technological, physical and social expression.

John L Webster is a grades TK-5 elementary school, located in the central part of the city of Malibu, and has a total enrollment around 210 students. 78% of the total student population is white, 10% is Hispanic or Latino, 10% two or more races, and 2% Asian. 8% of the population are classified as English Learners and 13% are classified as students with a disability. 6% of the student population is identified as socioeconomically disadvantaged. The school employs 11 teachers. Class sizes in grades K-3 have an average of 19 to 1, and in grades 4 and 5 the average is 20 to 1. 6 teachers have earned the prestigious National Board Certification. In addition to the classroom teachers, the district supports the school site with a Language and Literacy Interventionist, Classroom Instructional Assistants, a school psychologist, part time health office specialist, school nurse, part time attendance clerk, and office manager.

Webster Vision: At Webster, staff, parents, and community members work together to create learning environments that foster student engagement, inquiry, and wonder. We aim to develop thoughtful, empathetic, problem solvers with a solid foundation for future learning. In addition to these qualities, a Webster graduate is equip with a growth mindset, is adaptable and agile in their thinking, values and respects diversity in all its forms, sees failure as an opportunity for growth, and is able to effectively

2023-24 School Description and Mission Statement

communicate through a variety of mediums.

Principal's Message:

Here at Webster, we are having rich discussions about what it means to educate students for a world in constant flux. We are preparing kids for a future that we struggle to imagine. It's an exciting time to be in education and seek solutions to these challenging questions. Thinking about data from the world beyond K-12 school, we are working to develop crucial mindsets in our students. We want them to become creative and gritty problem solvers who possess strong capacity for critical thinking, collaboration, communication, adaptability, empathy, and so much more. Helping students to become academically prepared is simply one facet of a thoughtful education. In addition to developing the kinds of skills that will allow them to find success in the school setting, we must have the broader focus of preparing them for a meaningful life in the complex and evolving world beyond the classroom. With these goals in mind, we will pursue a relevant, engaging, and challenging approach to curriculum design, where shifting students from consumers to producers is an essential component of the educational experience.

We are fortunate to have a passionate, dedicated, and inspired staff of educators and support personnel. The team here at Webster sees themselves as capable of great things and ideas. Our work with staff and students centers on developing a culture where thinking and learning are highlights of a daily mindset. Learning doesn't just happen in these buildings from 8:30 - 2:50. It's a 24-hour a day perspective with which to approach the world. It's a lens through which we become autonomous solution and meaning creators. We want students and staff to make solid observations about the world around them, gather information, formulate good questions, and seek understanding through a variety of mediums and pathways.

Our school has also embarked on a comprehensive effort to ensure every student meets the current California Standards. The elements of this effort include State-adopted standards-based instructional materials, a variety of supplemental materials, a consistent focus on professional development, and the regular use of assessment data to inform and guide instruction. Six Webster classroom teachers have achieved National Board Certification. This is half our teaching staff! Webster was also recognized as a California Distinguished School in 2010 and 2014, based on the work our staff does on a daily basis with our students.

Webster families play a huge role in the success of the school and their students. We have a very active PTA and a community base that is supportive and generous with its time and resources. We care deeply about building a community aimed at developing good humans.

2023-24 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All students at Webster have access to state-approved and district-adopted textbooks and instructional materials in all core academic areas. The district follows the state guidelines and cycles for textbook adoptions with new science and social studies materials purchased and implemented in the 2022-23 school year and new math texts in 2008-09. With the textbook adoption process frozen due to budget constraints at the state level, the district is currently in the process of refreshing the English language arts curriculum, using the existing texts. All students, including English learners, have their own copy of textbooks, except in the case where “Big Books” are used for the entire classroom at the early primary level. Textbooks and instructional materials are recommended for school board approval through a comprehensive process by a district-wide committee of teachers and administrators. Members of the public are invited to review recommended materials and make comments prior to board approval. There is a math adoption coming in 23/24.

School Facility Conditions and Planned Improvements

Webster school was built in 1949. Two major reconstruction projects in the past 20 years have resulted in all new plumbing, heating, electrical, and roofing systems. Major improvements in seismic safety and accessibility are in place. All classrooms, the office, and the library are connected to the Internet through a high-speed connection and there is wireless access to the network throughout the school. The most recent taxpayer-funded reconstruction project, Proposition BB, has provided a significantly upgraded technology infrastructure and a completely new fire alarm system. Additional Proposition BB-funded projects related to school safety and security are in the final stages of the planning process, and the first of several construction phases is about to begin. A new library was completed in 2001. The playground includes two grass playfields and a play structure. Students are regularly expected to assist school and district staff in keeping the grounds free of litter.

Gardens and murals make the campus an especially beautiful and welcoming learning environment. The physical plant is well maintained and is in well-functioning condition. Each of our 13 classroom teachers has a dedicated classroom. Every classroom has an interactive white board and a SMART Board, an Elmo document camera, and every classroom from first through fifth grade has a chromebook for each student, allowing for a one to one technology program. Our library is beautiful and spacious. Our dedicated STEAM lab is equipped with a greenscreen, computers, ipads and technology to support inter-disciplinary instruction. Our computer lab provides 33 iMac desktop computers, all online. There is a classroom provided for our after-school childcare program so no regular classrooms have to be shared for this purpose. There are many outside garden areas and patios regularly used for small group activities and special projects and events. Our cafeteria/auditorium was recently remodeled with a new stage curtain, sound system, and lighting.

2018 saw the completion of the new window paint and floor project. We also were able to do roof section repairs. In 2020 a central cooling and heating system was installed throughout the school.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2021-22	School 2022-23	District 2021-22	District 2022-23	State 2021-22	State 2022-23

Mathematics (grades 3-8 and 11)	79	72	58	57	33	34

2022-23 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2022-23 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT during 2021-22 and 2022-23 school years, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2023-24 Opportunities for Parental Involvement

Parents are deeply involved in every aspect of Webster's efforts to provide a rich educational experience for every student. It is not uncommon to have 15-20 volunteers working in classrooms on any given day. Parents raise significant sums of money to fund materials and human resources that support our district programs. As a collective group, our PTA supports the purchase of technology, Planet Bravo computer science programming, online academic programs like Lexia and Dreambox, assemblies, field trips, classroom materials, our classroom instructional assistants, and after school programs such as a Math Club. More than 40 parents work every week as volunteer classroom assistants. Parents and community members contribute their talents, knowledge, and experience as classroom speakers. Parents organize and participate with their children in a variety of community-service learning projects. All of these activities, and many others, are coordinated through the Webster PTA.

For more information on how to become involved at the school, please contact Sion Roy, our PTA president @websterptamalibu@gmail.com

2023-24 School Safety Plan

The staff reviews the school's safety plan annually. Students are supervised by school staff at all times while on the Webster campus. School grounds are open 15 minutes before school begins. Traffic, parking, and drop-off procedures have been developed in consultation with local law enforcement and the Webster PTA. Parent volunteers direct traffic and assist students as they are dropped off by parents. During the school day, all recesses are supervised by teachers and other school staff, as well as parent volunteers and Pepperdine University students in various programs.

Parents and guardians must sign students out of the office if they are picking them up during the school day. Physical education teachers, office staff, and teachers receive training in various areas related to student safety, including first aid and CPR. After school, all students are required to be enrolled in supervised programs if they remain at school, such as child care, homework club, and school-sponsored enrichment classes. During the school day, there is no unauthorized access to the school campus. All visitors must enter through the main office, sign in, and get a visitor's badge to be worn while on campus. Students are only released to parents or their designee.

The School Site Council annually reviews all aspects of school safety and security and makes recommendations based on the findings. District support is sought to implement any recommended changes or improvements. The School Safety Plan was last reviewed, updated, and discussed with both faculty and the School Site Council in September 2023. This plan was ratified by the Board in October 2023.

Fiscal Year 2022-23 Types of Services Funded

A combination of state and federal funding is used to cover all aspects of our instructional program.

SMMUSD uses Title II funds to support a Math and Secondary Support Coordinators to:

- work with teachers/administrators to support student learning around math content and practices for all students
- facilitate and review the guaranteed and viable curriculum that includes use of common formative assessments to gauge student achievement
- support ongoing intervention/enrichment opportunities to address student growth and needs

Title III funds are utilized to expand educational opportunities that increase language and academic proficiency of our English learners, and to expand parent engagement opportunities.

Professional Development

All teachers and staff in SMMUSD participate in ongoing professional development through banked time, a total of 90 minutes of meeting and professional development time each week at each site. Areas of districtwide focus for teacher and administrator professional development include implementation of curriculum guides and other areas that are determined by a review of summative and formative data from all school sites and the collection of input from teachers and administrators. Among the primary focus areas for professional development in SMMUSD are the following:

- School-wide focus on writing and communication
- Training in Write From the Beginning and Beyond
- Ongoing development of Professional Learning Communities
- Focus on California State Standards for ELA and Math and Next Generation Science Standards—standards-based curriculum and instructional delivery
- Math coaching—expanding our understanding of the standards for mathematical practice
- Using data to improve classroom instruction
- Supporting students with special needs
- Differentiated instruction for all students, including English Learners

A variety of methodologies are used to provide professional development, including coaching and mentoring. SMMUSD provides coaching through several programs such as BTSA, National Boards, literacy and ELD coaching, Instructional Leadership Teams, and such specialized programs as Cotsen Fellows and Math Coaches. Additionally, professional development occurs through workshop series during banked time and/or after-school opportunities.

Each August, all teachers new to Santa Monica-Malibu are invited to participate in Teacher Academy, a professional development and orientation to districtwide curriculum and instructional initiatives. All eligible new teachers are encouraged to participate in BTSA. Teachers interested in applying for National Board Certification may participate in the process and can elect to be supported by teachers who have already achieved National Board Certification.

*Numbers listed below DO NOT contain weekly on-site professional development, but only include days when teachers are out of their classrooms for specific PD opportunities.

This table displays the number of school days dedicated to staff development and continuous improvement.
