# Welcome!

Dear Families,

Welcome to Child Development Services (CDS)! We are both excited and honored to have your child(ren) in our programs. As a part of the Santa Monica-Malibu Unified School District (SMMUSD), our department serves many children. With our many programs, including the Infant/Toddler Center, Seaside, California State Preschool Programs (CSPP), our School Age Programs for students in grades TK - 3 and our Teen Center, we have the opportunity to support many families in our community. We hope you find the programs and the staff ready to support your needs.

We understand school readiness is one of the most important skills we can offer our youngest students, but we also know families are the greatest support system our children can have. We offer our families opportunities to participate in workshops, parent groups and to sit on decision-making teams in CDS. We also incorporate health and nutritional services with our school readiness programs, because we believe these services can strengthen each child's ability to participate successfully in school. We encourage you to find ways to participate with us. If you don't see something that works for you, ask us - we'll figure out ways you can participate!

This Family Handbook is one way we can share information with about who we are and what we do. Please read through the handbook - we hope it provides you with information you find useful. The handbook will share some of the ways you can be involved in your child's education, as well as the roles and responsibilities of both parents and our staff. Finally, you will also find detailed information about the regulations that govern our programs.

Once again, thank you for being a part of our Child Development Services family. We look forward to a positive and productive year where we are able to work in partnership with you to best support our children. We hope you enjoy your experience with us!

Sincerely,

Susan Samarge-Powell, Ed.D  
Director of Early Learning

Our district understands and implements the requirements of the Americans with Disabilities Act (ADA) to make reasonable accommodations for children with disabilities. The accommodations cannot negatively impact the fiscal solvency of the program.

- ADA-Title II: SMMUSD complies with the Americans with Disabilities Act of 1990, Public Law 101-336 and 42 U.S.C 12101 et seq. These regulations prohibit discrimination on the basis of disability, and require that no qualified individual with a disability be denied the benefit of Child Development services, programs, or activities.

This form can be obtained from the CDS Office Staff, and must be completed prior to starting school.

Religious or personal food accommodations will be made to the extent possible with our food vendors. Concerns regarding food accommodations must be discussed with the Nutrition Consultant.

### **Parent Involvement**

Our programs are based upon a partnership with the parents of the children enrolled. Therefore, parents are encouraged to participate in our programs. Parent participation is essential to the successful operation of each program. Parents/Guardians are strongly encouraged to volunteer in the classroom and on field trips if possible. District policy requires that all volunteers:

- Participate in a preschool volunteer orientation training.

The **Child Development Early Learning Parent Committee (ELPC)** consists of Child Development Services staff, parents and members of the community. The committee meets regularly to discuss the needs of the preschool program, and give input concerning program policies and procedures. In addition, the committee supports staff with planning activities and events. Parents are encouraged to fill out an application to become a committee member.

The **District Advisory Committee (DAC)** consists of Child Development Services staff, parents and members of the community. The committee meets regularly to discuss the needs of all Early Learning programs, including ITC, Preschool, School Age Programs and the Teen Center. Though not a governing board, the members who represent many aspects of the community, give input concerning program policies and procedures.

## **Education Program**

SMMUSD is committed to providing a quality educational program that focuses on the whole child, and support services that address the diverse needs of all our families. This is all done in an environment that is rewarding, inclusive, and collaborative for all, including children with special needs. Our program encourages respect for the feelings and the rights of others, building trust and planning routines and transitions so they can occur in a timely, predictable and unhurried manner.

## **Curriculum**

The goal of our preschool programs is to fully develop a strong foundation for each child so s/he is prepared for school and to be successful beyond the classroom. We strive to be a constructivist minded program, with children at the forefront of our lesson planning and curriculum development. In SMMUSD, students play daily, and it is through their curiosity and wondering that we further develop inquiries and learning experiences.

We have access to a program entitled Creative Curriculum©. This curriculum emphasizes that children's individual goals are based on a developmental continuum of 38 developmental learning objectives. These objectives are fully aligned with the California Preschool Curriculum Framework and Preschool Learning Foundations. The overall framework is designed to address how children develop and learn, the significance of the environment in the process of learning, and the teachers and family's roles. The Creative Curriculum© places a high priority on creating a classroom environment where children experiment, explore, and pursue their own interests through studies and investigations, commonly known as active learning. The curriculum is also easily linked to the assessment tools used in the preschool program and is inclusive of all learners, including children with disabilities. The curriculum also supports English language development in Dual Language Learners. Although teachers have the ability to infuse other curricular components, this serves as a support for the learning experiences in class.

The individualized instruction, ongoing observations, and child assessments are based on eleven domains of development: language, literacy, math, science, approaches to learning, social-emotional, physical/health, social studies, logic and reasoning, creative arts and English language development. The instruction also includes active learning experiences, building on success and previous knowledge as children develop skills necessary for a successful entry into kindergarten. During the five (5) day school week, instruction is designed to develop children's abilities to follow routines, work in a cooperative environment, follow health and safety rules, and successfully function in individual, small group, and large group settings. Program staff also conducts two parent conferences held during the year to discuss children's progress and plan

mutual goals. The standards for the child development and education program component shall include, but are not limited to, the following:

- The program approach is developmentally, linguistically, and culturally appropriate.
- The program is inclusive of children with special needs.
- The program encourages respect for the feelings and rights of others.
- The program supports children's social and emotional development by building trust and by planning routines and transitions so they can occur in a timely, predictable, and unhurried manner.
- The program helps children develop emotional security and facility in social relationships.
- The program provides for the development of each child's cognitive and language skills by using various strategies, including experimentation, inquiry, observation, play, and exploration; opportunities for creative self-expression through activities.
- The program promotes each child's physical development by promoting sufficient time, indoor and outdoor space, equipment, materials, and guidelines for active play and movement.
- The program develops and maintains practices that are healthy and safe.

Title 5. Education – 18273

### **Staff Development**

SMMUSD hires qualified staff to be part of our team. All staff members hold appropriate credentials or permits required by the state of California.

- New employees are provided an orientation to guide them in understanding how district policies relate to their respective job description.
- Teachers participate in annual mandatory staff meetings whereby they receive training on serving as mandated reporters, understanding district policies on substance abuse and harassment, and receive, read and sign Professional Expectations and Absence notification letters.
- CDS supports continuous growth by assessing the needs of the staff members, and providing professional development activities to enhance their growth.
- Staff members are evaluated per District Evaluation Procedures.
- Internal communication mechanisms are in place, including email and voicemail, to provide staff with information necessary to carry out their respective duties.

### **Desired Results Developmental Profile (DRDP)**

Child Development Service utilizes the DRDP as recommended by the California Department of Education (CDE) to ensure that all children are making progress in all domains: social, emotional, language and literacy, math, science, social studies, physical and health development.

- We use the DRDP (2015), a tool developed by the CDE to assess the development of children.
- Children are assessed twice a year. The initial assessment within 60 days of enrollment.
- Parent/guardian's input is a necessary component of this assessment.
- The assessment is also used to plan and conduct developmental activities that are age appropriate for the children.

### **Early Childhood Environmental Rating Scale (ECERS)**

Each preschool classroom is assessed using the Early Childhood Environmental Rating Scale (ECERS) tool at least once each school year. The objective is for each sub-scale to receive a minimum 5 out of 7 score. The information obtained from this assessment is then used to help teachers design and purchase materials each school year to enhance their classroom environments.

### **Health and Social Services**

Upon enrollment parents will be given the School Readiness form to identify family needs. Staff will review the form with each family, and will assist them to access referrals and services that the family may need. Staff will also provide a Resource and Referral guide for families.

#### ***MENTAL HEALTH:***

- The Mental Health Consultant (MHC) supports and trains classroom staff during weekly visits to the classroom.
- In addition, the MHC is available to answer questions about a child's growth and development, separation anxiety, divorce, death, etc. Appointments can be made through support staff as well as the MHCs themselves.
- All parents sign consent for St. Johns participation in the classroom.

#### ***SUPPORT FOR CHILDREN WITH DISABILITIES:***

- We provide support and intervention for identified special needs and potential needs: speech, developmental/language delays, gross motor or special health cases for Santa Monica residents.
- We are only able to provide referrals and assistance for those families residing outside of the district. For families living outside of the district we will provide referrals. Services are provided by a family's school of residence.

## **Program Self – Evaluation Process**

Child Development Services complies with the California Department of Education regulations which require the department to conduct a yearly Self Assessment of its programs. During this process, we identify areas of compliance and non-compliance, and we work together as a team to develop a written plan after the review that will allow correction of the items found out of compliance. For the Program Self Evaluation summary we include recommendations based on the Desired Results Developmental Profile (DRDP 2015), Environmental Classroom Rating Scales (ECRS), the Compliance Monitor Report (CMR), and parent feedback.

## **Program Policies**

### **Drop-Off**

No child shall be accepted without contact between the classroom staff and the authorized adult bringing the child to the center. Parents/Adults bringing the child to class must ensure that the child has received a daily wellness check by a staff member, prior to departure. Classes begin at the posted time by the teacher. Children must be dropped off on time to avoid disrupting the classroom's routine. Refer to your contract hours.

**Joint Custody**

In the event that custody of children is shared jointly, children will be released to either parent and to any adult listed on the emergency card provided by either parent. Should disagreements arise between the parents related to issues of who may pick-up the child; staff will follow any and all procedures outlined in court orders. After this; if further disagreements arise, parents will be asked to return to court for clarification.

**Health & Safety**

It is important for all children to be healthy, since healthy children are best able to reach their full potential. Child Development Services establishes procedures and routines throughout the program to ensure that participating children are healthy and safe while in school. Because of this, **all health requirements are due prior to the child's start date.**

**Child Abuse Reporting**

All CDS Staff are Mandated Reporters. This means we are required to contact DCFS if we suspect Child Abuse. Child abuse and neglect are serious issues for personnel who work with children on daily basis. We hope never to encounter incidents of child abuse or neglect. However, we recognize that a child in our program may be suffering from abuse or neglect at home. This information is given not to frighten you, but rather to familiarize you with our responsibilities as teachers, child-care professionals, and service providers.

Possible child abuse indicators that mandate a call to Department of Child and Family Services and/or the police include (According to Penal Code Section 11165):

- **Physical abuse** – Unexplained bruises, burns, welts, fractures, lacerations, etc...
- **Sexual abuse** – Difficulty walking or sitting, pain when urinating/defecating, injury or pain to genital area, unusual or foul odor emanating from genital area.
- **Mental/Emotional abuse** – Failure to thrive, depression (child appears sad often, empty facial expression), severe aggression towards self and others.
- **Neglect** – Underweight, poor growth pattern, consistent hunger, unattended physical problems or medical needs, general unattended appearance (soiled clothing, inappropriate clothing, unusual body odor and lack of medical or dental care).

### **Discipline Policy**

Our goal in the preschool program is to help children develop positive social skills that help move them toward lifelong success. We recognize that children succeed best when the staff, parents and children work together. The preschool program provides for the well-being and safety of each child by helping children understand the effects of their behavior and helping children become skilled at making positive choices.

We are committed to:

- Providing opportunities for children to select activities.
- Modeling desired behavior/s such as fairness and cooperation.
- Redirecting inappropriate behavior quickly, for instance moving the child to another activity.
- Teaching children how to resolve conflicts positively.
- Using verbal reminders.
- Involving parents.
- **Physical punishment is never allowed;** State of California Child Care Center Licensing Regulation 101223.2.

If a child is unresponsive to the above-mentioned techniques, remains uncooperative, and jeopardizes the safety of themselves or others, the following steps will be taken:

- Written notification will be provided to the parent/guardian via a parent – teacher conference and/or Incident Report.
- A team, including the Community Liaison, teacher, parent, and Assistant Director or Coordinator, will develop a plan to be implemented after each incident. The team will meet to review the plan periodically or as needed.
- After other interventions have been implemented, or if the child’s behavior places the safety and welfare of other children or an adult at risk, parents may be called to pick up their child. The State of California Health and Safety Code Regulation #1596.885 requires this action. If a parent refuses to comply with this requirement, the child may be suspended from the program for the following day.
- When a student demonstrates continuous unsafe behavior on center grounds, this might cause termination of services due to jeopardizing the safety of themselves or others.

## **Health Policies**

### **Physical - annually**

**This is required annually from a doctor. If it is not submitted, a child may be excluded from the program.**

### **Dental - annually**

**This is required at minimum annually from a dentist and requested every 6 months.** If your child is Medi-Cal eligible, s/he may participate in our in-classroom Virtual Dental Home program to receive dental exams, preventative services. We also provide vouchers for free dental treatments as needed.

### **Immunizations**

All children enrolled in licensed child care facilities and public schools must have current and up-to-date immunizations in accordance with [shotsforschools.org](http://shotsforschools.org). Please refer to [shotsforschool.org](http://shotsforschool.org) for all immunization information and information regarding medical exemptions. All unvaccinated and partially vaccinated children will be excluded in the event of an outbreak of a vaccine preventable illness as determined by the Public Health Department.

### **Daily Wellness Checks**

A wellness or “health” check must be completed daily before the adult responsible for bringing the child leaves. Our staff will check each child daily for symptoms of colds, unusual fatigue, contagious diseases and any noticeable marks/bruises. This procedure is necessary to ensure children are healthy, and able to participate in daily activities. Children brought to the classroom that meet medical exclusion criteria will not be permitted to remain in the classroom.

### **Illness Exclusion Guidelines**

The observation of illness at home can help prevent inconveniences, prolonged child illness and infectious outbreaks. If you observe any of the following symptoms of illness please keep your child at home. *All potential health-related exclusions are subject to review by the Nurse.*

**Respiratory illness and colds** – Children with a cough, stuffy or runny noses will not necessarily be excluded. Children will be excluded if they have or have had a fever over 100°F within 24 hours with or without fever reducing medication. A child may be excluded at the teacher, nurse or administrative discretion when the child appears too ill to participate in school.

**Diarrhea** – A child with two or more loose or watery stools within 24 hours will be excluded until there have been no loose or watery stools for 24 hours.

**Fevers** – Children with 100° F must be free of fever for 24 hours (without fever reducing medication) before returning to school.

**Conjunctivitis (pink-eye)** – Children with bacterial conjunctivitis (pink-eye) should receive medical attention and return to school 24 hours after prescribed treatment is initiated.

**Head Lice** – Children who exhibit evidence of live head lice will be excluded by classroom staff, and may not return until after treatment has begun and there are no live head lice. The daily health check will include a lice check until all nits have been removed

**Signs of Possible Severe Illness** – Children who exhibit lethargy, irritability, persistent crying, difficulty breathing, and uncontrolled coughing may be requested to be picked up at the teacher/nurse discretion.

**Vomiting** – A child is excluded when vomiting occurs two or more times within 24 hours (unless the vomiting is determined to be due to a non-communicable condition), if the child is in danger of dehydration, or if vomiting is accompanied by a fever.

**Mouth Sores** – Preschool children exhibiting excessive drooling in conjunction with sores in or near mouth shall be excluded, unless the child’s physician or local health department authority states the child is not infectious.

**Rash** – Children who have unidentified rashes may be excluded, especially when the rash is accompanied by a fever or behavior change, or associated with a communicable illness. Children can return with a child’s physician note that determines that the rash is not contagious. Any open sores must be covered with a band-aid or clothing.

**All Other Communicable Diseases/Illnesses** - As determined by the Los Angeles Public Health Department and /or American Academy of Pediatrics, & American Public Health Association – Caring for our children – National Health and Safety Performance Standards (1992).

### **Returning to Class after Illness**

Any child or adult who has been absent as a result of communicable disease/illness may not be readmitted to the classroom until there is written assurance by a physician (or medical professional) that the child or adult no longer has any evidence of the communicable disease/illness. **5 day absences due to illness requires a doctor’s release note to clear re-entry into school.**

### **Administering Medication**

Children taking prescription, over-the-counter, or homeopathic medication at school require:

1. Medical form with a written detailed description of the condition including the name and dosage of each medication signed by the doctor. Forms are available from school staff.
2. Written permission to administer the prescription or medication signed by the parent and the physician. *Dosage and times that medication is to be administered must be included.*
3. Medications must be in the original container with the pharmacy label attached.
4. Medications should not expire during the school year.
5. If your doctor states that the child has a need for a medication, you must bring the medication or sign a refusal to supply the medication to the school.
6. Written Authorization and the Medication in the Pharmacy label must be submitted to the CDS office to be reviewed by the nurse.
7. The teacher and nurse must be notified immediately of any updates or changes to medication and/or prescription.
8. Medications are to be picked up and taken home on the last day of school.

### **Allergies/ Medical Conditions**

All diagnosed allergies and medical conditions must be documented in child's file, and each staff person responsible for supervising the child must be notified. It is the parent/guardian's responsibility to inform the staff at the time of enrollment and the child's teacher of any and all known (potentially harmful) allergies or medical conditions, i.e. asthma, diabetes, seizures, etc. Staff is trained on the use of the EPIPEN in case of allergic emergency. If you do not wish to have your child administered an EpiPen in case of an anaphylactic reaction, you must sign a refusal statement.

### **Emergency Preparedness/Response**

Each classroom posts information regarding Disaster Preparedness and Response (earthquakes, fires, lockdowns and Shelter in Place). In an emergency the staff has access to appropriate emergency supplies. Children will routinely participate in scheduled emergency drills.

Staff will stay with the children in emergency situations until the crisis subsides, and will also make efforts to comfort children during these high-stress situations. Please be reminded children will only be released to persons on the emergency card who present photo identification. Parents/guardians who retrieve children during an emergency/crisis will need to sign a release form indicating the time the child was picked-up.

### **First Aid Procedures**

In our preschool program, we make every effort to ensure your child's safety. However, minor accidents beyond our control may occur. Simple injuries will be treated at school by applying ice, soap & water, and/or Bandages. In the event that a head injury or serious injury occurs, you will be notified at once. The Santa Monica Fire Department/Paramedics will be called if necessary. All program teachers are CPR, Epi-pen and First-Aid trained.

## **Celebrations**

Special celebrations are planned throughout the school year and at the conclusion of the year to make the preschool experience memorable. We do not have graduations. Caps and gowns are not developmentally appropriate practices for young children and therefore will not be part of our year-end activities.

Birthdays are very important days for preschoolers! Each child will receive special recognition on their birthday, with the parent's approval. Although we do not have birthday parties at school, we will help children celebrate their own special day with songs and other activities. If you want to bring a special treat to help celebrate the event, please check with your child's teacher and be sure to adhere to the following district nutrition policy:

## **Fee Payment/Delinquent Fees**

Fees are due upon registration and in advance of services received. Fees are paid at the Child Development Services office or they can also be mailed. Fees are charged on the basis of enrollment, not attendance. No deduction may be made from applicable fees for absences (vacation, illness, personal reasons, etc.)

Methods of payment: Personal or Certified Check, Money order, Visa or MasterCard.  
Payments are only received at the Child Development Services office via walk in or mail – Attention Fiscal Services.

Child Development Services  
2828 4th Street  
Santa Monica, CA 90405

If paying by check, make it payable to “SMMUSD” and include your child’s first and last name on the memo line. Payments are due on the 25th of each month for the following month. If paying by credit card, please note charges will be processed on the 5th of each month. Returned/bounced checks or declined credit cards will be charged a \$15 service fee. The amount of the original payment plus the service fee must be paid within 10 days of notification. In the event a personal check is returned, SMMUSD will no longer accept a personal check as payment, and fees will need to be paid by money order, certified check or credit card.

Delinquent Fees: The State of California Education Code #18114 (a) states: “Fees shall be considered delinquent after seven (7) calendar days after the due date.” On the seventh day after fees are due, the center will notify parent(s)/ guardian(s) in writing that the childcare fees are delinquent and must be paid within 14 calendar days. Services shall be terminated if delinquent fees are not paid prior to the 14th calendar day from the date of the notice. A reasonable repayment plan may be requested. If a repayment plan is granted, the parent must comply with the agreed upon repayment plan for continued services. If terminated for nonpayment of delinquent fees, the family will be ineligible for services until all delinquent fees are paid. The family will go back on the wait-list and will be readmitted only if space is available and all fees are current.

## **How Families are Selected**

### **Priorities:**

Families are placed on a waiting list once the pre-enrollment application is received.

Parent/guardian will be contacted when space is available if their child is next on the waiting list.

Families requesting subsidy are given priority in the following order:

1. Four-year-old or three-year-old neglected or abused children who are receiving Child Protective Services (CPS) without regard to income
2. Four-year-old children in the following order:
  - a. Children who were enrolled in the State Preschool Program as a three-year-old, without regard to income ranking
  - b. Children whose families have the lowest income ranking based on the most recent income ranking schedule (ranking is based on family size and total countable income)
  - c. When two or more families have the same income ranking, according to the most recent income ranking schedule, the child with exceptional needs as defined in Education Code 8208(I) shall be admitted first
  - d. If there are no families with children with exceptional needs, staff will enroll children according to family's special circumstances which may diminish the children's opportunities for normal development. Lastly, staff will enroll children according to the day the Pre-enrollment application was received
3. Three-year-old children (in the order mentioned above; with the exception of items listed on subsection 2a above)
4. Three-year-olds

### **Notification Process:**

When preschool openings are available, the staff will refer to the waiting list and contact families according to the CDE selection ranking guideline. Parents are contacted by mail, e-mail (if provided), or telephone to schedule an appointment to bring in the required documents to enroll.

### **Documents to bring to your appointment:**

To verify eligibility, bring the following documents to your appointment:

- Proof of all sources of income

Childcare services may not begin until the application for services is signed by both office staff, and the parent. At the time of approval of services, staff will issue a Notice of Action (NOA) to the participant indicating the hours of services approved, and any applicable family fees. Family fees are assessed for all full day subsidized families.

### **Notice of Action & Updating Records**

The “Notice of Action” (NOA) is a written notification of status change for California State Subsidized Families: (i.e. Provision, approval, change, and termination of services). ## APPENDICES

### What is Child Development?

Child development is a process every child goes through. It involves learning and mastering skills that help children function and learn independently. Children acquire these skills, called **developmental milestones**, during predictable time periods.

The six main areas of School Readiness:

1. **Language and Literacy** – Children will increase their understanding and expression of written and spoken language in English and their home language.
2. **Cognition and General Knowledge** – Children will increase their ability to reason, analyze, and understand learning concepts.
3. **Approaches Toward Learning** – Children will increase their effort, persistence, and motivation in learning experiences.
4. **Physical Well-Being** – Children will demonstrate healthy behaviors and safety practices.
5. **Motor Development** – Children will develop improved physical coordination and control.
6. **Social and Emotional Development** – Children will learn to regulate their behavior and emotions and increase their abilities to develop positive relationships with children and adults.

### What is a Developmental Milestone?

A developmental milestone is a skill that a child acquires within a specific time frame. For instance, one developmental milestone is learning to walk. Milestones develop in a sequential fashion. This means that a child will need to develop some skills before he/she can develop new skills (children will learn to crawl and pull up to a standing position, before learning to walk.). Each milestone a child acquires builds on the last milestone developed.

Each child is an individual and may meet developmental milestones a little earlier or later than his/her peers. **DON'T BE ALARMED!** We have all heard comments such as “He was walking much earlier than his brother.” Children are unique and will develop at their own pace. However, there are defined “windows” or “blocks of time” when typically developing children will meet a milestone. This is usually how experts determine if there is a need for concern. If a child is well beyond a typical “window” or timeframe, or has never developed prerequisite skills to build upon, then that may be a sign that the child is not meeting developmental milestones. Whenever you have questions or concerns do not hesitate to ask your child’s teacher for more information, or consult with your child’s pediatrician.

### **Meeting the Developmental Milestones!**

Parents and teachers want children to be the best they can be! The research indicates that two important factors contribute to children's development: Nature (genes) and Nurture (environment).

Nature refers to children's genetic "make-up"; in other words, what we are all born with (e.g. blue eyes, brown skin, left-handed, etc.)

Nurture refers to children's environments and experiences. This includes experiences children have in their home, community, and school environments. The environment can either improve or harm a child's genetic "blueprint". For example malnourished children may not reach their IQ potential because of the impact of the lack of nutrients on brain development.

We have very little control over nature, but we can enhance nurture! The following are simple things parents can do to encourage healthy development:

- ❖ Give your child lots of love and attention! Regardless of the child's age, holding, hugging, and listening are important ways to show your child they matter!
- ❖ Talk, sing, play, eat with, and read to your child. Your child will grow up feeling special and important to you, and you will learn a lot about your child's interests and skills.
- ❖ READ, READ, READ. Children who are read to by their parents have a larger vocabulary than other children. Reading also provides children with new perspectives about the world they live in, and is a great brain exercise!
- ❖ Develop consistent and easily understood rules. Reward behaviors you want to see your child do more, and have appropriate consequences for behaviors you don't wish your child to continue to do.
- ❖ Limit TV and video time to no more than 1 to 2 hours per day; opt to read or play with your child instead!
- ❖ Don't be afraid to ask for help or more information. Your child's teacher is a wonderful resource, so connect with him/her and develop strategies together.
- ❖ Ensure that your child is eating healthy, nutrient-rich foods. This enhances natural development.
- ❖ Encourage your child to figure things out by experimenting, exploring, and predicting whenever appropriate, and as much as possible. The idea is to create critical and creative thinkers.
- ❖ Run, jump, skip, and play with your child. Exercise is essential to physical development, and is one more opportunity to connect/bond with your child.

## **How to Prepare Your Child for the First Day of Preschool**

1. Begin talking to your child about going to preschool months ahead of time. Say things like, “When you go to school you’ll get to meet a lot of new friends, or learn a lot of fun, new things.”
2. Drive or walk past the school and point it out. Tell your child, “There’s where you get to go to school.”
3. Let your child pick out a fun backpack for school. They will feel like a big boy or girl the first day of school with their new backpack. They probably won’t have much to put in their backpack but it’s a great place to keep a security object like a stuffed animal or a picture.
4. Make sure to go to the program and class orientations. Your child can meet the teacher and see the site and classroom.
5. Read books or watch videos about going to school with your child. This will help prepare them and is a great time to talk about school and answer any questions your child has.
6. Put your children in bed earlier. Doctors recommend children from preschool to fifth grades get as much as 10 to 11 hours of sleep each night. Lack of sleep can affect children's ability to learn and may affect their immune systems.
7. Establish a routine. Get your children ready to start the day earlier before school starts so they will become accustomed to waking up in time to get ready for school. Children need to establish routines in order to feel secure and at ease.
8. Be enthusiastic about going to school. As that first day of school approaches, the more excited and confident you are, the more your children will be too.
9. Prepare a special first day of school breakfast. Make your preschooler feel special with a crown or balloons on their chair.
10. Draw a picture of what the clock will look like when you will be back to pick them up. Separating is hard for some children and this will give them a little extra reassurance that you’ll be back.
11. When you drop off your child at school, give them a hug and kiss and tell them that you’ll be back when the clock is the same as the picture. Tell them to have fun too!
12. If they cry, reassure them and then leave. It will be hard, but if you stay they will just learn that the more they cry, the longer you will stay. In most cases, your child is fine once you leave. If you need to reassure yourself, call and check.
13. Try not to be late picking up your child after school. Greet your child with a big hug. In no time, school will be part of their routine.
14. Read to your children daily. Parents can help calm children at bedtime by reading to them. Books at bedtime also expose children to language, sounds, new ideas, and the love of reading.

## **Transportation Safety Tips for Children**

### **TRAVELING SAFELY WITH CHILDREN: THE BASICS**

- Everybody needs a child safety seat, booster seat, and safety belt!
- There must be one safety belt for each person. Buckling two people, even children, into one belt could injure both.
- People who are not buckled up can be thrown from the car or around inside the car, and seriously hurt themselves or others.
- Never hold a child on your lap! You could crush him/her in a crash, or the child may be torn from your arms.
- Never ride in the cargo area of a station wagon, van, or pickup! Anyone riding in the cargo area could be thrown out and severely injured or killed.
- No one seat is “best”, the “best” child safety seat is the one that fits your child and can be installed correctly. If you are not sure about how safe the car seat is, visit a child safety seat inspection station
- Children age 12 and under should ride properly restrained in back.

### **CHOOSING AND USING THE CORRECT SEAT**

New child safety seats and booster seats come with registration cards. Be sure to register your new seat so you will be notified if there is a recall. If you don't have a card, call the safety seat manufacturer. [www.nhtsa.dot.gov](http://www.nhtsa.dot.gov)

### **Preventing Injuries to Child Pedestrians**

Parents are the most important models of proper pedestrian behavior for children. Through education, parents can provide safety training skills important to avoid injuries. Children have different abilities to receive information, and different learning styles. It is important that adults expose their children to different scenarios when teaching their children pedestrian safety.

#### **Help create an environment that's safe for pedestrians.**

- Everyone driving must always look around for pedestrians.
- Identify errors that contribute to pedestrian injuries
- Be patient when driving, even if you have the right of way
- Make sure your child plays in safe places away from motor vehicles, such as yards, parks and playgrounds –never in the street. Fence off play areas from driveways and streets.
- Buy clothing and accessories incorporating reflective materials for your family to wear at dawn and dusk and during other low-light situations, such as rainy or foggy weather.
- Check frequently for children when backing out of a driveway or a parking space.
