

Modernization Update #4

Malibu
High School

Nov. 21, 2016

Important Info for Parents, Students and Staff

The student parking lot is closing at 3:30 pm on Tuesday, November 22, 2016.

We will be accepting delivery of the last set of portable buildings for our modernization project and the parking lot must be clear to accomplish the delivery and installation.

All cars must be moved by 3:30 pm or your car may be towed.

Drop off and pick up for athletic practices and the water polo game will be in front of the school on Tuesday, November 22nd.

- The MHS / JCES modernization project continues with the last set of relocatable classrooms arriving to MHS on Tuesday, November 22nd at 4 pm. Relocatable buildings will be installed on the upper blacktop at MHS.
- Access to the fire lane during the delivery and installation will not be available.
- Site utility infrastructure is ongoing throughout MHS and JCES, with some closures of the driveway and fire lane. Please use caution through this area.

The safety of our students and staff is our top priority. During modernization there will be proper fencing installed around all work sites and the district has staff on site overseeing all work. All contractors are approved to work on school campuses.

We appreciate your patience and understanding during the Measure BB and ES modernization project as we work toward making our schools cleaner, safer and more conducive to learning. We will continue to keep you updated as the timing may change.
